THREE DAYS FOR
TARIFF DEBATE

Measure Will Go to the Senate the First Week of May

General Discussion Ends When House Adjourns Next Monday

Tuesday Bill Will Be Called Under Five Minute Ruling

Rep. Palmer and Rep. Moore Leaders In Debate Today

WASHINGTON, April 25.—With only three more days left for general debate on the Underwood tariff bill in the house the prospect today was that the measure would pass the house and go to the senate during the first week of May.

Majority Leader Underwood has given notice that general debate on the bill will close when the house adjourns Monday night. Tuesday the bill will be called up under the five minute rule for reading. At that time it is the purpose of the majority to have some limitation on amendments to hasten the bill along and to guard against a filibuster.

The original estimate of 50 hours' debate made by the house leaders will be cut down considerably, two days having passed without night sessions. Long sessions were planned for today and tomorrow, however. Rep. J. Hampton Moore for the republicans and Rep. A. Mitchell Palmer for the democrats were leaders in the debate today.

Rep. Moore introduced a novelty and for the first time in the history of congress so far as known a speech on the tariff was delivered by the reading of questions from the speaker's rostrum and the delivery of replies from the floor.

Mr. Moore's speech was a "tariff primer" following the lines of Plato's Republic in form. He sent to the desk a set of queries which the clerk propounded to him and Mr. Moore in his answers ran the gamut of tariff legislation and tariff dogma.

"When was the first tariff act passed?" asked the clerk.

"The first act passed was a tariff act," replied Mr. Moore. "It was approved by President Washington July 4, 1790, and was regarded as an American declaration of commercial independence."

"What do you mean by the Underwood bill?" quizzed the clerk.

"The bill introduced by Chairman Underwood, the exponent in the house of the views of President Wilson," was the reply.

And so the questions and answers ran on.

Mr. Moore charged the democrats with continually misrepresenting the tariff question, declared the present Payne tariff law revised the tariff downward and when the clerk asked why people complained if they enjoyed such wonderful progress, Mr. Moore replied:

"They listened to ambitious politicians, agitators without conscience, journalistic organs with axes to grind, magazines seeking pay, essayists who found it more convenient to write fiction than to work; theoretical college professors, non-producers generally and a few sincere reformers usually misinformed and frequently misled."

LOCAL CARPENTERS
Want Shorter Working Hours—No Strike Is Anticipated at the Present Time

The carpenters employed in the local mills and woodworking plants have asked their employers, through the Carpenters' District Council to reduce the number of hours per week to 50. At present some of the carpenters are working 52 hours, while others work 54 and 55 hours a week.

The men have not specified any date and the request asks for the mill owner to approve it as soon as possible. It is believed that the employers and the carpenters will come to an agreement, and that no serious trouble will result.

ARREST THREE
I. W. W. LEADERSAre Charged With Inciting Riot in
Paterson, N. J.—Mayor McBride
Prohibits Removal of Children

PATERSON, N. J., April 25.—Bench warrants were issued today for the arrest of the three leaders of the Industrial Workers of the World indicted yesterday for inciting to riot. Pending the arrests the names of the men indicted were not made public. Mayor McBride has issued a formal statement prohibiting the removal of strikers' children from the city. The mayor said that the city was able to care for any families in need and the promoters of the plan, it develops, have found that parents were unwilling to be separated from their children.

CHAUFFEUR FINED \$20 IN COURT

He Was Charged With "Wilfully Interrupting a Funeral Procession"

The principal case in police court this morning was that of the commonwealth vs. Robert W. Duff. The charge brought against the defendant was "wilfully interrupting a funeral procession." The funeral in question was that of the late Rev. Fr. Saunders. Michael Rafferty was the first witness for the prosecution and his evidence had direct bearing on the case, for it was his back which the defendant, who is a chauffeur, ran his machine into. Mr. Rafferty asserted that

the automobile had run into his equipment directly opposite Middle street. His agent, who was on the stand, was asked to explain the circumstances. He testified that the defendant had started out into the street with the idea that all of the carriages had passed. Dr. Gramsch, who was in the car, testified that the entire cortege had passed, and that the proximity of the machine owned by Mr. Rafferty had not been noticed until it was almost upon them. Dr. E. Forest Martin and Willis E. Morris each partially corroborated the testimony that had been

Over Half of Belgium Workers Have Returned

In Some Places All Old Employees Were Discharged

Business Resumed Normal Condition Except at Steel Works

General Renewal of Industrial Activity In Antwerp

BRUSSELS, April 25.—It is estimated that over half the Belgium workers who took part in the strike for equal suffrage have now returned to their employment; but the resumption of work has been irregular in some parts of the country. Some of the trade unions have decided to order their men to begin today, others tomorrow and still others on Monday next, while a few are determined to remain out until May 1.

Disagreeable surprises met the hands who had struck at several factories in the suburbs of Brussels. When they appeared this morning ready to recommence work all the old employees were refused admission and told that they were discharged.

Factories Restarted
LIEGE, Belgium, April 25.—The decision of the national socialist congress at Brussels, ordering a resumption of work throughout Belgium has been fully accepted by the strikers here and in the surrounding industrial cities. All the factories and other concerns have restarted and business has resumed its normal condition except at the steel works whose furnace died down during the strike. These will also be in running order again by Monday.All Return to Work
LA LOUVIERE, Belgium, April 25.—The strikers in this region returned to work this morning almost without an exception.Renew Industrial Activity
ANTWERP, April 25.—There was a general renewal of industrial activity here today. Some friction between the employers and workmen had been caused, however, by the action of a few wharfage contractors in refusing to discharge the hands taken on during the strike.

IN THE SUPERIOR COURT

Case of McEwan vs. City
Given to Jury

The evidence in the case of Curtis McEwan vs. City of Lowell, in a suit to recover for real estate damages alleged to have resulted from the abolishing of the Lincoln street grade crossing, was closed yesterday afternoon in the superior court, and the attorneys delivered their final arguments. At the opening of the session at 10 o'clock this morning, Judge Pratt delivered to the jury his charge, which covered "nearly an hour. The case then went to the jury. There were two other cases ready for trial, but both of these were settled so that the court was adjourned until Monday morning.

Verdict Against City
After considerable deliberation, the jury in the case of McEwan vs. City of Lowell returned a finding for the plaintiff-petitioner for \$475.00.Fractured Right Arm
The ambulance was called to the Merrimack Utilizing company's plant at 9.15 this morning to attend an injured man by the name of Peter Warless. He had a fractured right forearm and was taken to the Lowell hospital, where the fracture was set.

heard by the previous witnesses for the defense.

Judge Enright decided that the defendant was in too great a hurry to reach an appointment, and found him guilty. He was ordered to pay a fine of \$20.

Elizabeth Harris was sent to the house of correction for a period of four months. It was her fourth appearance in court within a year on the charge of drunkenness.

BROKE INTO
LIQUOR STORE

Bold Thief Smashed Glass In the Front Door

Entered and Robbed the Cash Drawer at Five This Morning

John P. Connors of Tilden Street Is the Loser

Janitor of the Majestic Chambers Witnessed Break

A break of a rather daring character was perpetrated about five o'clock this morning at the wine and liquor store of John P. Connors & Co., 20 Tilden street when a man whose identity is as yet unestablished, deliberately broke the glass in the front door of the store, entered and after, so to speak, "painlessly extracting" \$3.25 from the cash register, made good his escape.

What adds to the boldness of the affair was the fact that the man went about the work before him in such a business like way, and without seeming to consider that there might be those who arising with the sun in the pursuit of their daily duties, might see and apprehend him. Indeed, it is said that the janitor of the Majestic chambers, located in that vicinity, witnessed the break from a window of the building of which he is caretaker, and that he made an ineffective attempt to catch the thief. The bold burglar, however, wasted no time in the place and was gone before the witness could get down stairs and across the street. The officer on that beat, a supernumerary supplying in the absence of the regular officer who is on the sick list, is reported to have seen a man in that vicinity who answers the description given of the burglar.

The police state that they have an excellent description of the man and are of the opinion that the activity of the officers will result in an early capture.

SEWER LAID IN 1873

Is Being Inspected by the Engineer's Department—The Sewer Is in Gorham Street

The city engineer's department is putting in preliminary work on the old sewer in Gorham street between Davis square and South street. This is an old cement pipe and it was laid in 1873. It was laid at a depth of eight and one-half feet and it is found not to be in good condition the old pipe will be taken out and new pipe installed before paving operations are begun in that street. If new pipe is put in it will be laid at a depth of 12 feet, which new conditions make necessary.

CLASH OF LABOR ORGANIZATIONS
IN THE PATERSON SILK STRIKE

STRIKERS' HEADQUARTERS IN PATERSON

PATERSON, N. J., April 25.—The American Federation of Labor officials are planning to organize the 25,000 silk workers who are out on strike under the direction of the Industrial Workers of the World. John Golden, president of the United Textile Workers, says that as soon as the silk workers are properly organized they will formulate their demands and will

then appoint a committee to wait up on the silk manufacturers with a view to a settlement of the difficulties. "I feel absolutely confident that we can repeat in Paterson what we accomplished in Lawrence, Little Falls and Hazleton," he said, "and straighten this strike out if the rank and file only have the opportunity." The A. F. of L. stepped in in these places after strikes had been conducted by the I. W. O. for many weeks and succeeded in arranging terms for settlements that were satisfactory to the workers.

HYOMEI RELIEVES
IN FIVE MINUTES

Help Comes Quickly When Hyomei Is Used for Catarrh

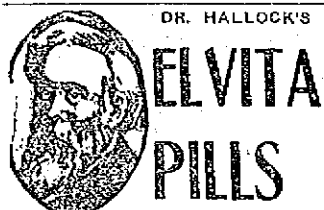

Quick relief comes from the Hyomei treatment for catarrh and all troubles of the breathing organs such as stopped-up head, sniffling or morning choking. Put a few drops of liquid Hyomei in the pocket inhaler that comes with every outfit, and before you lie you will notice relief from your catarrhal troubles.

It gives a tonic healing effect to the air you breathe, kills the catarrhal germs, stops the poisonous secretions, soothes the irritated mucous membrane and makes a marked improvement in the general health.

Hyomei is not a cure-all; it has but one aim, the relief of catarrh and diseases of the breathing organs. When there is no catarrh, the general health is improved, for then nature has a chance to build up the entire system.

If you suffer from offensive breath, raising of mucous, frequent sneezing, husky voice, discharge from the nose, droppings in the throat, loss of strength, spasmodic coughing and feeling of tightness across the upper part of the chest, or any other symptoms of catarrh, use Hyomei at once. It will destroy the disease germs in the nose, throat and lungs, and give a quick and permanent relief.

Hyomei does not contain cocaine or any habit-forming drug. The complete outfit costs \$1.00, extra bottles if later needed, 50 cents. Carter & Sherburne and druggists everywhere.

ALARM TRAPS HEN THIEF

Electric Buzzer Warns Owner of Visit

BOSTON, April 25.—Arthur F. Hutchinson's electrical trap was more than a match for Charles Clark, alias Charles Smith, who thought he would like to have several of Hutchinson's fancy pullets, and, as a result of his early morning visit to the henhouses on Blossom street, Clark is to serve a year in the house of correction.

Awakened by Buzzer Hutchinson had been bothered with hen thieves and rigged up an electrical alarm, which rang in his house if anyone should enter the domain of his barn yard poultry. It was 1:30 yesterday morning when he was suddenly awakened by the buzzing of the electric song by his bedside and, grabbing his gun, and scantily clothed, Hutchinson did a Marathon for the hen house. He just got out the back door in time to see his victim coming out of the hen house.

Upon seeing Hutchinson issue from the door in his ghost-like apparel the thief thought it was time to be leaving and started off. Hutchinson, after a short sprint, overtook the would-be thief, and, after a hard tussle with him, in which the thief received several hard blows from Hutchinson's gun, he was taken captive and handed over to Officer Irwin.

Given Year for Robbery In the Concord district court yesterday Clark was given a year in the house of correction for attempt at robbery. He has been arrested by the Lexington police three times in the past few years. The first time he was arrested by the police he claimed his home was in Lowell, but yesterday he said he was a resident of Waltham.

MGR. STEVENS RESIGNS

At Keith's Theatre to Go to London

Will H. Stevens, for the past two years manager of the B. F. Keith theatre of this city, has severed his connections with this theatrical house and accepted the position of manager of "A Mile a Minute," which is now playing a long engagement at the London Opera House. He will sail on the "Olympic" from New York on May 3, after paying a visit to his old home in Elmira, N. Y.

Mr. Stevens has had considerable theatrical experience, having been in every branch of it from circus work to the playing of Shakespearean parts. He has played in straight comedy, farce and comedy, musical comedy, drama, and in his earlier days was a clown, a dancer and singer and an acrobat. He has performed in nearly every city of any size in America, and has been in Mexico, Canada, South America and Europe.

In September, 1911, he opened Keith's theatre in this city and made a success of his enterprise from the start. He has created a host of friends in this city who will be sorry to learn of his future departure. His successor at the Lowell house is not yet known.

VERY SUDDEN DEATH
FRANK B. PEABODY PASSED AWAY
THIS MORNING

He Was a Prominent G. A. R. Man and the Son of a Former Mayor of This City

Frank B. Peabody, aged 68 years, died suddenly early this morning at his home, 23 Columbus avenue, the cause of death being heart failure.

Mr. Peabody was yesterday apparently in the best of health and was out as usual. He retired at his usual time but shortly after midnight died. He was the son of Josiah G. Peabody, a former mayor of this city, and for many years connected with the assessment office at city hall. Deceased was a prominent G. A. R. man, being connected with Post 153. He is survived

by a wife, Sarah A., and a daughter, Mrs. Florence C. Colby of Cambridge.

MALE AVIATOR KILLED

Princess Injured in Biplane Fall

BERLIN, April 25.—Princess Eugenie Shakhovskaya, a certificated Russian air pilot, and Vasvolod Abramovitch, a Russian airman, fell while flying a biplane at the Johannisthal flying grounds yesterday and were both injured. Abramovitch very severely and the princess slightly. Their machine collapsed at a height of 50 feet and dashed to the ground. Abramovitch

In August last made a flight from Berlin to St. Petersburg. The German aviator, Dunetz, was killed earlier in the day at the Johannisthal aerodrome by falling from a considerable height when flying in his aeroplane.

OUTLAWS KILL OFFICERS PUPILS STILL ON STRIKE CAKE BAKER FINED \$500 TAKEN FROM DRAIN PIPE

Then Escape by Underground Passage

TOPFIELD, Alberta, April 25.—The Fraberg brothers, outlaws, who Wednesday night shot and killed Detective Bailey of the northwest mounted police and seriously injured Constable Whitley, early yesterday in the cover of darkness made their escape into the timber from their cabin at Grass Lake. Special mounted police are seeking the outlaws in the timber. Underground passages left the cabin in all directions, the police found, and it is supposed that the brothers made their escape through one of these. Detective Bailey's body was brought here today.

Theater Voyons
The Riker after a slight falling off in the quality of its films, has come back stronger than ever and today the Theater Voyons is showing one of the best. "The Mysterious Boy" tells of a young chap accused of robbing a lone traveler after having run away from home. It is finely acted by one of the strongest biograph companies. "Playing With Fire" a vignette is a comedy drama acted by Dorothy Kelly, Harry Morey and Harry Northrup. It goes straight to its point and is a thrilling and interesting holding film all the way.

Acceptances Slow to Serve on Inquiry Board

PITTSBURGH, April 25.—There were few developments yesterday in the strike of school children against the retention of S. L. Heister as superintendent of the city's public school system. A great number of children remained away from the schools, but there were no demonstrations of any kind. Bishop J. Francis Canavan of the Roman Catholic diocese of Pittsburgh, one of the seven men asked to investigate charges of immorality against Superintendent Heister, declined yesterday to serve. A Leo Well, president of the Veterans League of Pittsburgh, has accepted. As yet no response has been received from the other five prominent men requested by the board of education to conduct the inquiry.

AWARDED CONTRACT

Conners Bros. of This City Building Large Barracks at Navy Yard in Charlestown

Conners Brothers of this city have recently been awarded the contract to build a large barracks house at the Charlestown Navy Yard. This one of the contract bids was made by several others and it is believed that it will take about three months to complete the job. A Lowell foreman is in charge and several local men are at work on the job.

220 Pounds of Rotten Eggs Found in Factory

NEW YORK, April 25.—One hundred and twenty pounds of rotten eggs in liquid form, found in the factory of the Steel-Drake company, cost Louis Kernt, the company's manager, yesterday a fine of \$500. The Steel-Drake concern is one of the largest cake bakers in the world, using a ton of eggs a day. The manager insisted that there was little chance that the bad eggs would have come into the cake, but he admitted that the company used in its cake a flavoring which could cover up the taste of any decomposed eggs that accidentally slipped in.

FIREMEN'S LICENSES

Ten Applicants Agreed to Take the Examination Today in Office of State Inspector Moran

Today State Police Inspector Edward Moran conducted an examination for applicants for firemen's licenses. Ten of the ten men who appeared to take the test nearly all wished to qualify as firemen. Of late Mr. Moran has been going regularly to Boston to assist the inspectors of that city in the examinations there. The number of local applicants continues to be large and each Friday finds a dozen or more applicants at the office of the state inspectors in the Central block.

Baby Resuscitated After Miraculous Escape

JOHNSTOWN, Penn., April 25.—Edna Newman, aged 2 years, was rescued and resuscitated after being washed through more than 200 feet of 16-inch culvert pipe, near her home at Windber yesterday. The child was playing near a creek and fell into the water a few feet above where the creek entered the culvert under the road. The little body was drawn into the pipe and she was unconscious when recovered by a pedestrian.

ENFORCE PURE FOOD LAW

WASHINGTON, April 25.—Enforcement of the pure food law henceforth will be solely to see that the provisions of the law are strictly obeyed, while at the same time no attempt will be made to punish manufacturers and importers who can show they are honestly trying to live up to the spirit of the statute, according to officials of the department of agriculture. Particular attention was called by them today to the fact that everything now was running smoothly between the secretary's office, the collector's office and the bureau of chemistry, and all agencies of the department were working together for the proposed application of the law.

Dispels All Kinds of Dirt

Some kinds of dirt, especially of a greasy nature, won't dissolve in water; putting a dash of Carbonyl in the water makes such dirt vanish.

Carbonyl is invaluable in house-cleaning. It is also a disinfectant and deodorant; makes garbage odorless; destroys nasty smells. Disinfects and purifies everything. More necessary than soap for sanitary house-keeping.

ALIENS ARE AMBITIOUS

21,000 Foreigners at Boston Evening Schools

BOSTON, April 25.—The evening school report just issued shows that 23,312 pupils were enrolled in the schools of the city during the past term, 11,223 of these being students at the elementary schools, 6263 in the high schools, and 1175 in the industrial and trade schools.

The students who were Americans numbered 8274, and the rest were from European and Asiatic countries and Canada.

In the elementary schools the largest number in the classification of ages were between the ages of 21 and 31, 3097 pupils being registered. Over 1000 were registered over 31 years of age, and 569 at 14 years.

MAINTAIN THE MILITIA

As Sufficient War Unit, Says Gen. Mills

WASHINGTON, April 25.—General Albert Mills, in charge of the military division of the army, today issued a circular order defining the relationship of the regular army officers to the militia. He made it clear that while the federal government is disposed to allow considerable latitude in the system of military instruction in the various states yet in order to obtain the assistance of the government he insisted the system must be such as to afford proper instruction and to maintain the militia as a sufficient war unit.

GOVERNMENT COOKBOOKS

Prepared by Dept. of Agriculture

WASHINGTON, April 25.—More than 12,000,000 copies of the various "cook-books" prepared by the department of agriculture, the latest of which is one on how to serve mutton in a number of forms, have been issued since this line of government activity began. By far the largest number published was of a bulletin on the "Economic use of meat in the home," which ran up to the enormous total of 2,225,000. Congress itself printed a half million copies in addition to those distributed by the department.

Of the bread making pamphlet nearly a half million have been distributed, and of the cheese leaflet almost 300,000 have been sent out. Of the mutton bulletin, last out, 500,000 copies have been ordered printed for initial distribution.

Trinity Chimes at the Casino

The Casino orchestra is one of the most popular orchestras in this city. It is the only one of its kind, and its organization is always improving the conditions which go to make it the most popular. Its latest addition is that of chime bells, which are played nightly at each session of the dancing and they blend harmoniously with the other instruments. The Casino is undoubtedly one of the most popular amusement places in the city, and its popularity is shown by the large attendance there every evening. The floor space is the largest of any dance hall in the city and its surface is as smooth as glass. It is no wonder that everybody goes to the Casino to enjoy that popular exercise. Another feature that adds to the popularity is the variety of standard authors which is given by the orchestra previous to the dancing. The first dance is always from which is appreciated by the public. It is the only place where a special vocal soloist is engaged, and Mrs. McNamara Brown, with her sweet soprano voice, sings the popular music of the day accompanied by the orchestra. Mr. Chas. Bunker, the manager and director of the Casino, was the first to introduce this pleasant feature of a vocal soloist at a dance starting at Willowdale. There is only one Casino in town and that is located on Thorndike street, and everybody is welcome to visit the hall and enjoy a free concert.

REP. BUTLER
ASKS \$35,000

To Complete Lawrence
and Methuen High-
way In Dracut

Senate Sustains Gov.
Foss on Four of His
Recent Vetoes

Rep. Otis Butler of this city appeared before the ways and means committee at the state house yesterday, and asked the legislature for \$35,000 for the completion of the Lawrence and Methuen highway in the town of Dracut. Mr. Butler stated that the highway had been left in very bad condition

REP. OTIS BUTLER

and that the highway carries a very heavy traffic. Essex county has made a good road on its end," said Mr. Butler, "but Middlesex county has done little more than to grade up its end and the road needs to be top-surfaced." Chief Engineer Dean of the Massachusetts highway commission spoke in support of the bill. He said that the estimates were made in the winter time, but he believed the work can be done within the sum named. Essex county has completed a good gravel road. On the Middlesex county end there is a good deal of work to be done and the road is rough. If this money is available, the highway commission will top-surface the Middlesex end and will then put on a permanent bituminous surface top on the two parts of the road, thus finishing the Essex end. If they cannot get the money, then the Essex end will remain simply a gravel road, while the more can be done on the Middlesex end. The highway will be unsatisfactory and with the heavy traffic, the Essex road cannot stand up as it would if properly finished, although it is a good gravel road.

The Governor Sustained

The Massachusetts senate had a real veto-fest yesterday afternoon. After rather prolonged discussion Gov. Foss was sustained on four of his recent vetoes. In none of these instances were the friends of the vetoed bills able to secure even a majority vote against the governor; although a two-thirds vote was needed. There were five vetoed bills on the calendar but Joyce of Suffolk saved the fifth measure, for the time being, at least by moving postponement till Monday next. This was the governor's veto of the police listing bill. When this matter was reached the governor had been sustained three times by the senate. Senator Joyce sized up the situation and gravely moved that "because of the unexpected popularity of the governor, as shown in the chamber this afternoon, I move consideration of this matter go over till Monday next."

Here are the vetoes which the senate sustained with the votes, question being on passing the bills named over the governor's veto:

The bill to transfer from the people of East Boston to the entire city of

IS RHEUMATISM
EPIDEMIC HERE?

RELIEF IS QUICK AND SURE IF
YOU REACH THE CAUSE
THROUGH VAR-NE-SIS

It looks as though Lowell is in the grip of a rheumatic epidemic, said Varney of Var-ne-sis fame. The thousands that have secured my remedy during the past few months all tell about the same story. Neglect of the first symptoms may lead to serious trouble. When you feel soreness of the muscles, stiffness of the joints, backache, sharp pains in the shoulders, hips or wrists, don't wait another day—use the ounce of prevention—Get Var-ne-sis.

Many cases start from a bad stomach, gas, fermentation, sourness, distress after meals, constipation, and a run-down tired feeling. Just get Var-ne-sis today and watch how quickly your stomach trouble disappears when the liver, kidneys and blood are in good condition. You know hundreds that have been cured in this city by Var-ne-sis. Start today and know what good health means. Get it at Daws' drug store, Merrimack and Central streets.

Friday and Saturday

FREE TROUSERS

The business I did not get last Saturday, that I should have received if it were not a holiday, must be made up this week. I offer to all customers ordering a Suit Friday and Saturday a pair of

\$5.00 PANTS ABSOLUTELY FREE

I have the greatest bunch of new browns on display in Lowell. I will require a week to finish orders, as the goods did not arrive from the sponger until Saturday morning. But see the sample suit lengths and I know you will wait the day or two longer. In fact, you will have to wait because nobody in town has anything like them in quality or style. Next season's patterns, they will be plentiful two or three months from now; young fellows, particularly, will go wild after them.

READ THIS STORY

It used to be the general opinion that low priced tailors sold a man only once, and that they never expected to sell the customer the second time. The thousands of men in Lowell who read this advertisement, who bought clothing from me going on five years ago, who have been buying from me ever since and who are intending to buy their next suit from me, when they get around to buying, know whether I tell the truth or otherwise, when I say I sell most of my business to old customers or repeaters.

I go further with an old customer than the limited profits of my business permit, because it does my heart good to see a man loyal to my organization and appreciative of my efforts.

But I can't live on old customers alone; people die, move away, grow old and stop buying new clothes. I have to get new customers or I lose volume.

My trouble is to reach the new customers. Some men read these ads year after year, but never answer them. That's the man I'd like to start.

If I sell him once, he would become loyal as my other old customers; I have thousands of customers who used to pay big prices for clothing, who found it hard at first to believe that I could please them at my prices.

This is a good time to try me out; your common sense tells you I must be doing business to last four years in Lowell, and I wouldn't be getting the business if I did not satisfy the people. So if I satisfy them, I ought to be able to please you.

TAKE A CHANCE on a \$12.50 suit. I give you my word you can't buy a cotton worsted in my store. If I give you a fabric made from real wool, you know that at \$12.50 the suit is not all profit to me.

TAKE A CHANCE to look, even if you don't buy. No don't worry about the quality and don't worry about the fitting. You are no harder to please than your neighbor. Your neighbor thinks just as much of himself as you think of yourself. Your neighbors have been buying their clothes at my Lowell store since way back in February, 1909.

FRIDAY AND SATURDAY A PAIR OF \$5.00 PANTS FREE.

My blue serge being a special, free pants is not included.

Speaker Rebukes House

Members of the house were rebuked during the session yesterday afternoon for the recently acquired habit on the part of certain legislators of indulging in jeers and catcalls during debates. The house was discussing the bill providing for compensating owners of animals killed on account of being afflicted with glanders when the speaker, dictating his gavel, after something of a "demonstration" on the part of a few members, said that he would no longer tolerate the practice, which he said was becoming more or less common of late, "of greeting with suppressed jeers and catcalls members who are speaking upon any and all questions which have become more or less unpopular."

The speaker then reminded the members that the Massachusetts house of representatives, besides being one of the oldest legislative bodies in the world, has ever been known as the most deliberative. He said that the

tone of the legislature has recently shown a marked deterioration because of acts which should have no place in a deliberative assembly. In conclusion, he expressed the hope that he would never again have occasion to call the matter to the attention of the members.

This "rebuke" was received with decisive applause from the house. Discussion was then renewed on the Glanders bill, which was still being debated when the branch adjourned for the day.

Just prior to adjournment the social welfare committee reported the uniform child labor bill with certain minor perfecting amendments.

CAPE COD EXTENSION

Company Given Until
June, 1915

BOSTON, April 25.—The joint boards of railroad and harbor and land commissioners voted yesterday afternoon to extend the time for completion of the Cape Cod canal one year from June 3, 1914. That means that the Boston, New York and Cape Cod Canal company must complete the canal by June 3, 1915, or forfeit its charter.

The board also authorized the issue of 2350 shares of the company's stock at 100 and \$240,000 in bonds. These votes were in response to the appearance yesterday afternoon before the commission of August Belmont of New York, promoter of the canal and head of the company, who asked for an extension of 15 months. He explained that the request was made necessary by the unexpected difficulty of the work. About 5,000,000 cubic yards of material are yet to be removed from the canal. The estimate was 15,000,000, of which 10,000,000 have been removed.

GRASPED LIVE WIRE

Chelsea Lineman Had Narrow Escape From Death—Rescued by Brother Linemen

BOSTON, April 25.—While at work at the top of a telegraph pole on Fifth and Cherry streets, Chelsea, yesterday, John Grant, 35, of 71 Dehon street, Revere, received an electric shock from

a live wire, rendering him unconscious. He swung head downward for several minutes before he was rescued.

At work on the pole with Grant was Anthony Archambault, another lineman who grasped Grant and held him while several other workmen sent up a rope, which was passed about Grant's body, and lowered it to the ground. Grant was removed to the Frost hospital. He may recover.

Woman Is As Old As She Looks

No woman wants to look old. Many in their effort to look youthful resort to the "beauty doctor's" prescriptions. Their mistake is that they visit the wrong department in the drug store. Beauty depends upon health. Worry, sleepless nights, headaches, pains, disorders, irregularities and weaknesses of a distinctly feminine character in a short time bring the dull eye, the "crow's feet," the haggard look, drooping shoulders, and the faltering step. To retain the appearance of youth you must retain health. Instead of lotions, powders and paints, ask your druggist for

DR. PIERCE'S Favorite Prescription

This famous medicine strikes at the very root of those enemies of your youthful appearance. It makes you not only look young, but feel young. Your druggist can supply you in liquid or tablet form, or send 50 cent stamps to Dr. Pierce's Invalid Hotel and Surgical Institute, Buffalo, N.Y., and trial box will be mailed you.

HOLY NAME SOCIETY OBSERVED 20TH ANNIVERSARY CAN FIX PANAMA CANAL TERMS FORESTERS' CONVENTION

Rev. Fr. Cornell, O.M.I.,
the Principal Speaker
—Other Addresses—

Addressed to the members and guests, in a few words of greeting and then introduced Joseph Dallagher, president of the Holy Name Society. Mr. Dallagher, in an eloquent speech, told of the work of the society, and of its growth during the past twenty years. He congratulated the members on their spirit and expressed gratitude to the priests and others who had given their aid. At the end he urged all to continue in their efforts for the good of the society.

ple of the country. A comparison with the process which evolved our own Christianity and civilization will serve to bring out these facts. In concluding, Father Flynn, like the other speakers, commended the members of the Holy Name society on their progress during the past twenty years and urged them to keep up their high standard for the glory of God and the church.

During the evening an entertainment of several excellent numbers was provided by Messrs. John Dalton, Edward Shea, Frank McCarthy and David Martin and they furnished unlimited pleasure with their musical numbers. There were solos, duets and quartet selections and the evening's festivities were brought to a close by the singing of the hymn "Holy God, We Praise Thy Name," by a quartet. The committee in charge was composed of the following:

Joseph H. Dallagher, J. Preston, William H. Sullivan, John O'Neil, Frank J. McCormack, William H. Connors, John Grann, Patrick McGovern, John O'Brien and Frank Chappelle.

United States as Owner May
Do as it Pleases, Says
Richard Olney

WASHINGTON, April 25.—The United States, as owner of the Panama canal, has the right to fix such terms as it pleases and the neutrality of the waterway applies to its users, only and not the United States. This was the view expressed today by Richard Olney, former secretary of state, whose speech was read before a meeting of the American Society of International Law. Mr. Olney did not attend.

"It is clear," Mr. Olney's speech continued, "that a nation or a state does not convey away its own property or sovereignty except by terms that are clear and susceptible of no other meaning, and that where the meaning can be taken to favor the United States it is the clear right of the United States that it be held that the words 'all nations' do not mean to include the United States. However, it is not necessary to rely on this presumption as the United States is owner and can fix such terms as it pleases.

"If the question is submitted to arbitration it should not be submitted to the Hague but to a special tribunal. The Hague would be partial as admittedly all European powers are interested in the outcome."

Another speaker who compared the relative interest of the United States and Great Britain at the various stages of the Panama canal negotiations was Chandler Anderson, former counselor of the state department, who in effect declared that the United States is clearly entitled to exempt its own vessels from the payment of tolls or to refund such tolls.

Grand Court Session in
Fitchburg May 20-22

JUDGE O'BRIEN OF LYNN FOR
SUPREME C. R.

The National Convention Will be Held
in California in 1915—Massachusetts
Has 33,669 Members

The 25th annual session of the Grand Court Foresters of America will be held in Fitchburg, May 20, 21 and 22. The report of the G. A. R. and the grand secretary show that the order never was in better standing, both financially and in numbers. An increase of 1840 has been made in the membership and several thousand dollars has been added to the treasury. At the convention many changes in the grand court laws will come up for action, the most important of which is the law on biennial sessions and the number of weeks to be paid benefits in case of sickness.

Delegates to the supreme convention to be held in Atlantic City in August are to be elected. The Lowell candidates are: Dennis J. Murphy, James J. Gallagher, John W. Sharkey and Thomas Quincey. William F. Duncan, town clerk in Warren, is the only candidate for G. A. R. Joseph M. Guse of Chicopee is candidate for G. S. C. R.; Wm. J. Karon of Worcester is the candidate for grand treasurer while William H. Stafford of Lowell will have no opposition for grand secretary. At the convention to be held in Atlantic City Massachusetts will present the name of Judge Edward P. O'Brien of Lynn as their candidate for supreme chief ranger and also the name of William J. Mountain of Gardner for a minor office.

The following facts were taken from the report just issued by the supreme secretary: Total membership in the United States 252,862; balance in dues fund, \$3,310,764.93. The state of New York has the largest membership with 56,133 names; Pennsylvania next with 49,830; Massachusetts, 33,669; California, 22,144; and Connecticut, 20,931.

The next national convention will be in California in 1915.

The members of the Immaculate Conception Holy Name society celebrated the twentieth anniversary of the organization last evening in the hall of the Y. M. C. I. with a banquet and entertainment at which there were present about 150 members and guests. The event was a most inspiring one as well as a most enjoyable one for everyone who attended. The principal speakers of the evening were Rev. Father Cornell, O. M. I., of St. Andrew's church, North Billerica, Rev. Father Flynn, O. M. I., of the Sacred Heart church and Rev. Father Sullivan, O. M. I., of the Immaculate Conception church.

At the conclusion of the dinner, Patrick Condon was introduced as a constant master of the evening by Vice President James Preston. Mr. Condon

THE CITY IS ALMOST SPOTLESS

General Cleaning Up Continues Throughout Lowell—Important Suggestions

It is very probable that the cleaning up period will be continued for another week, in order to give everybody a chance to get rid of their surplus stock of rubbish. The "brigade" of the street department is constantly on the job, and wherever they pass a great change is noticeable. Several districts of the city have been given a thorough cleaning and it is a sure bet that Lowell will be "spotless" before many days have elapsed.

On Tuesday, the employees of the board of health collected all the stuff left for them on the sidewalks of Little Canada, Centralville, and a sure proof of the cleanliness of these two districts now is that on that day 1200 extra barrels of material and not loads as it was erroneously stated in Wednesday's papers, were collected and deposited on the dump, while on Monday there were 500 more barrels and not loads collected.

Centralville is now almost without a blemish and it is safe to say that it will remain spotless for some time. The writer took a stroll in the Belvidere section this morning, and although the collection there will not be made until Saturday, the district is exceptionally clean. Davidson and Howe streets are not really as bad as many think. The streets are very clean, and the back yards and alleys with the exception of two or three are in fair condition. It is hoped that the places that are not up to the standard will be given a good scraping before the last of the week.

New Beam House

The residents of that district are still complaining about the beaming plan of the American Hide & Leather Co., but they are told to cheer up and have patience until the last of the month, when it is said the entire machinery of the city will be moved into the new quarters of the company in Perry street. Already one department of the plant has been removed to the new building, and by the first of May the place will be entirely vacated.

Commissioner Donnelly of the street and highways department, whose sole purpose is to make the streets of Lowell the best and cleanest in the commonwealth, has devised new plans and if he can secure the cooperation of Commissioner Barrett of the water and fire departments, which he undoubtedly will do, he will pay strict attention to the sanitary condition of certain squares, which are known as congested districts. Commissioner Donnelly intends to give these places a periodical washout, that is, have some men at those places, and with the aid of hose and water clean out the streets. This naturally would be done at night and would be a great relief.

The writer this week, while scrutinizing the city, noticed that some of the sparrows could cover larger beats. While confined to a short beat on a street that is always pretty clean, a few of them have a hard time to keep busy. Why not have them visit other streets close to their beats?

HANGED FOR MURDER

Negro Struggled for 18 Minutes

UNIONTOWN, Pa., April 24—Dunging by the officers detailed to the execution of the death sentence upon John Harris, a negro, made the affair today peculiarly revolting. The execution was by hanging. The rope was nearly a yard too long for the purpose and when the trap was sprung Harris dropped to the ground, remaining motionless on his knees for several minutes. It was thought the drop had broken his neck until he started to rise to his feet. Then the sheriff and his deputies jumped to the scaffold and pulled up Harris by the rope until his feet were clear of the floor. For eighteen minutes the frantic negro struggled and twisted, his contortions evidencing the intense agony of strangling to death.

Harris had shot and killed a fellow negro last May.

BRUSH FIRE BROKE OUT

In North Chelmsford—Lumber Threatened

A brisk brush fire broke out on the land of the Bay State Street railway in North Chelmsford Wednesday afternoon and before assistance arrived it threatened several hundred feet of lumber that was spread out on land in the vicinity.

Some men in the employ of the railway were burning up some old wood while the wind carried a spark into the next field and immediately the brush, dried up and the blaze was spreading rapidly toward the lumber when some men who had been working in the vicinity were called and after some difficulty extinguished the blaze. The fire covered considerable ground and although the damage was small without the assistance of the men some valuable lumber would have been destroyed.

Dr. P. M. Edwards, a prominent physician of Ohio, has discovered a new laxative and liver tonic in a combination of vegetable materials, mixed with olive oil, which is in effect almost exactly like the old and untrustworthy calomel, except that there are none of the bad after-effects of calomel.

Dr. Edwards has long been a foe of calomel, though he recognized its value along with its dangers.

His distrust of the uncertain drug eventually started him years ago towards experimenting with the use of vegetable materials, and he is today in possession of the long-sought-for combination, which is in the shape of a little sugar-coated, olive-oil colored tablet.

The results of 17 years' experience and practice are embodied in these marvelous little tablets.

They are called Dr. Edwards' Olive Tablets. They oil the bowels, and their effect on the liver has been the means of relief to many of Dr. Edwards' regular patients as well as to thousands of others who have suffered and were afraid of calomel.

They are gentle in their action, yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of harmful impurities. 10c and 25c per box. The Olive Tablet Company, Columbus O.

OLD FRIGATE DAMAGED

Fire on United States Oldest Wooden Vessel

NEW YORK, April 25.—The 75 year old frigate Granite State, the largest wooden vessel ever built for the United States navy, which seemed doomed by fire breaking out aboard her in the Hudson river at midnight, was saved from destruction early today but not until serious damage had been done throughout the forepart of the frigate.

Dwellers in the hundreds of large apartment houses skirting the Hudson watched from their windows and roofs the uncommon spectacle for with smoke and flames puffing from the portholes for nearly three hours it was a realistic reminder of the naval battles of the Civil and Mexican wars in which the Granite State, formerly known as the Alabama and the New Hampshire, took part.

Roofed over like a mammoth house-boat, the old warship has rested for the past few years at a permanent anchorage off 59th street, where it was used as an armory by the first battalion of the New York naval militia. Seventy militiamen asleep in their hammocks were aboard when the fire, under great headway was discovered in the paintshop. Twenty-five of the men plunged quickly to the hold of the vessel and carried out two tons of ammunition and then all hands fought the flames. Ten men were partly

RUSSELL FOR COLLECTOR

Gov. Foss Indorses Him
for Appointment

BOSTON, April 25.—Governor Foss has indorsed Harry Russell, brother of former Governor William L. Russell, for collector of the port of Boston, to succeed Edwin V. Curtis. The governor's name heads the petition.

The petition for Mr. Russell is being circulated by Daniel J. Kiley and contains the names of many prominent democrats of this state. National Committeeman John W. Coughlin of Fall River declined to sign it yesterday, however.

Mr. Russell is a prominent insurance man. He has not been prominent in democratic politics in this state since his brother ran for governor.

The petition in his behalf is addressed to President Wilson. Underneath it lists the names of such democrats as Chairman Thomas D. Riley of the democratic state committee and Lieut. Governor David L. Walsh.

The name of Robert Treat Paine, who was a candidate on the democratic ticket for governor, has been submitted to Secretary Meaden, as well as the name of Charles B. Strecker, who was the candidate for state auditor on the democratic ticket two years ago.

HARVARD GLEE CLUB

Will Give Concert Tonight—Boys Will Be Entertained by Mrs. Tibbets Before the Concert

The Harvard musical clubs will give a concert in Colonial hall tonight. The Glee, Mandolin and Banjo clubs from Cambridge, numbering nearly 50 college men, are the first for years and the concert should be a huge success. Lionel de Jersey Harvard, descendant of John Harvard, will be with the clubs. Probably the chief attraction will be Charles Brickley, the famous football

hero who will be head usher. The concert will be followed by dancing. Mrs. H. L. Tibbets, mother of Norris Tibbets, who sings in the Glee club, will entertain the boys at her Mansur street residence before the concert.

AMUSEMENT NOTES

Lowell Opera House

"Frisco Sal" will be the attraction at the Opera House tonight and tomorrow afternoon and evening. James Forbes will present the play. He has heretofore been known better as a dramatist. His plays, "The Chorus Lady," "The Traveling Salesman," and "The Commuters," are now recognized as the most faithful studies of the commonplace lives of the average Americans. Mr. Forbes demonstrated that there is more realism in the truth of ordinary things than in the most imaginative writings of the "punch drama" school.

Constance Collier will play the title role in the revival of "Oliver Twist" and Miss Collier, a beautiful, graceful woman, has had a steady existence in San Francisco and who then goes to London to live. The scenes are laid in London and vicinity. The authors are Dion Clayton Calverley and Cosmo Gordon Lennox. The play is the grandest of film melodramas, and Mr. Lennox is best known as the author of "The Marriage of Kitty." In support of Miss Collier will be: William Melrose, Oliver May, David Landau, Ivan Simpson, Charles Francis, Andrew Robson, Charles K. Gerard, Wallis Clark, Frederick Malcolm and Kate Mayhew.

"HARBOR OF SEVILLE"

"The Harbor of Seville" in a fifty minute version, with scenery and costumes, will be presented by noted stars of the Boston Opera company on Tuesday evening, April 23, at the Opera House. Even this rare announcement should be sufficient to awaken local music lovers to interest, and when it is learned that many of the greatest singers of their kind in the world are to be included in the program, absolute enthusiasm should result.

Rossini's "Harbor of Seville" is an opera loved universally. It is scenes of the greatest musical value, and combined with this there is an atmosphere of humor permeating the whole presentation, which becomes most apparent in the work of M. Rodolfo Fornari in the title role "Tigaro," and in St. Louis.

and White, who is entrusted with the bass-buff role of Don Bartolo, one of the most trying parts in grand opera. Perhaps the best idea of the presentation might be obtained by a glance at the exact cast, which follows:

Don Bartolo M. Rodolfo Fornari
Don Basilio M. Alfredo Ramella
Don Basilio M. Jose Mardones
Don Bartolo M. Howard White
Figaro M. Rodolfo Fornari

To hear such a cast in such an opera is a treat, but the management has provided even more musical good things for the evening in the concert division of the program, which include the great sextet from "La Cenerentola" and the mad scene from the same opera by Maria, Evelyn Scott, who has often been called greater than Tetrazzini. In this number, critics will have a chance to compare the work of the two artists.

Not mentioned previously, because in "The Harbor" cast there were no places for them, are Mlle. Myra Shawlow, prima donna soprano, and M. Raoul Bonito, first tenor. Both of these artists will demonstrate their ability in concert numbers.

Certainly it is that no more enjoyable musical offering has ever come to town than that assured by the appearance of the Boston Opera stars.

Merrimack Square Theatre

On next Monday afternoon and for the remainder of the week, Alexandre Bisson's great French drama of modern love "Madame X" will be the feature at the Merrimack Square theatre. Owing to the many inquiries the management wishes to state that this is not a moving picture or a sketch, but a four-act play given with a cast of 35 people, from the original manuscript and with an elaborate production. The latest photo-plays will also be shown, thus keeping to the policy of being continuous from 1 to 12:30.

Sunday the famous Bachelor club will be seen in their original one act skit "A Night at a Cabaret." And in it will be seen all the local favorites, including our own "Jimmy Bonnelly," Chas. Slattery and others. Seats now.

Keith's Theatre

Headlined for performance at B. F. Keith's theatre next week is Ray Dooly, with her sprightly Metropolitan minstrels. Twelve youngsters of undoubted ability constitute this act and it should score one of the hits of the present season. The bill of the present week goes merrily along, with large audiences in attendance. Fields and Lewis, the funny men, are literally a mine of funniness. Their humor knows no end, and they hold the stage for thirty minutes with a riot of good things. The Scotch Frolicsome Lads and Lassies in "Fun With the Steamer" constitute a winning combination. The boys and girls are natural singers and comedians and the act has many things to commend it. Al. Philby and the Cheseligh Sisters are artistic singers and dancers, whose stuff is all new. The Knickerbocker Four, singers of note, give a splendid bundle of numbers, and Phil Adams, one of the quartet, works in some telling comedy. Cameron Kennedy sing and dance, and the Ferris, Redell company in "The Girl in the Pink Kimono" have a pretty little idea which takes well. Francis Wolf is a well known hoop-roller, and the Kenetophons has new

It's a Stein-Bloch"

It was the first suit we sold when we opened our Lowell store four years ago last month—and he's wearing it yet.

And it looks good for another season or two. Of course, he's had other suits, but he's given it pretty constant wear, because he liked it.

It was a Stein-Bloch—price \$25—and it has cost him about \$6.00 a year.

We know of no better illustration of the economy of good clothes—especially Stein-Bloch clothes, because we know how good they are.

Best of all, is the satisfaction of being well dressed—money doesn't always ensure that.

Better look over our smart 'Stein-Bloch' models this week. The assortment is stronger than at any previous time this season. We think you'll find a fabric and style that will please you.

We won't guarantee four years' service, but we do guarantee lasting satisfaction with every selection.

Vaudeville and music will also be given between the acts.

NEW SODA FOUNTAIN

Beautiful "Innovation" of Italian Marble installed in James J. Gallagher's Store

James J. Gallagher, the well known confectioner and fruit dealer, with quarters at 252 Merrimack street, is making a new departure in his line of business, having just installed one of the best soda fountains in this city. It is located in beautiful Italian marble front, sides and top, and all the fittings are made of nickel. Porcelain vats are attached for keeping the ice cream and there is also a cooling apparatus. This fountain is beautiful in looks and is right up to the minute in modern appliances. It is also hygienic in every part as there is nothing concealed where any dust or dirt might accumulate. It is also provided with generators for the formulating of the carbonated soda, and Mr. Gallagher feels that there is a great demand for this delicious beverage that stimulates the drinker. It is "Jimmie's" long association in the temperance cause that has done much to promote temperance in our city, and now not only by his voice but in a more practical way he encourages the temperance cause by supplying the public with the finest carbonated drinks made from the purest of fruit flavors. In the very near future it is his intention to furnish and fit an ice cream parlor with the rest of his store. As he is able to serve the choicest ice creams that can be made. There never was a time when soda and ice cream were more popular than at present, and Mr. Gallagher is out to supply the wants of the public in that line of business. The choicest lines of confectionery can be obtained, also the best brands of cigars at this establishment. We wish Mr. Gallagher success in his new venture. Mr. Gallagher's store is located next to the new Y. M. C. A. building.

France Shy \$10,000,000

PARIS, April 25.—The deficit in the French budget for 1913 will amount to \$100,000,000, while in 1914 it will be necessary for the French government, in order to meet the additions to the national armaments, to borrow \$200,000,000, according to a letter to the Matin from Senator Little Almond, who has been appointed to draw up the report of the budget committee.

Paper Bureau on Daniels Speaks

RALPH H. N. C. April 25.—The paper broke out in the basement of the News and Observer building at 6:10 p. m. and in a few minutes the building was considered a total loss. The mailing files were probably the only things saved. The News and Observer is owned by Secretary Daniels of the navy department. Mr. Daniels was speaking at the dinner of the Newspaper Publishers in New York during the time of the fire.

"FRESNO DAN" IS ANGRY THE WAITTS SEPARATE

Over Expense and Treatment in Russell Case But Pay High Tribute to Each Other

BOSTON, April 25.—A legal battle for a son's slice of the remainder of the \$500,000 Daniel Blake Russell fortune is being planned by "Fresno Dan," the estate's accepted "long missing son and heir," who for three years has been pitted against "Dakota Dan" in an effort to convince the Massachusetts courts that the latter is an impostor.

"Fresno Dan" yesterday broke his reserve and announced his utter disgust at the enormous expense of the prolonged Russell trial, and at the manner in which he had been treated by the "brother Willie" (William C. Russell). He took occasion to emphatically declare his disapproval of the manner in which the estate litigation had been conducted.

BOSTON, April 25.—Mr. and Mrs. Albert H. Waitt of Newton have surprised their friends by signing a formal agreement to separate without prejudice and permanently live apart. Mrs. Waitt has taken apartments in a Back Bay hotel with her maid, leaving Mr. Waitt in possession of the Newton residence.

Friendly Agreement

The friendly agreement to part, said to contain clauses quite complimentary to each other, was signed in the office of Attorney Chester W. Ford yesterday. Admitting that he was the attorney in the case, Mr. Ford declined to discuss the separation agreement or to permit its interesting text to be made public.

Bible Class Supper

There was a good attendance at the annual supper and social of the Matthews Bible class recently, and the affair was a success in every way. Mr. John Marsh called the gathering to order and spoke briefly, welcoming the guests. The program included the following: "The Book We Study," address by Mr. Eli Turner; "The Parent in the School," Rev. J. T. Wilson; "Our Sunday School," Mr. Joseph Williams; Rev. N. W. Matthews, pastor and teacher, concluded with a few timely remarks. There were several vocal and instrumental solos.

CLEAR AND CLEANS ERUPTIVE SKINS

Try this reliable treatment for acne, pimples, blackheads—all unfortunate skin conditions. Wash the skin with pure soap and water, as hot as can comfortably be borne. Follow by a thorough douching with tepid water. Rub Sulpholac well into the pores, leaving an excess on the surface of the skin. Marked benefits will show in a week or less, and the most obstinate cases of skin trouble yield to the influence of this remedy. It's the sulphur combined with a valuable germ destroyer that makes Sulpholac so different in character and so unusually successful in its work. Physicians have prescribed Sulpholac for years. You can get it now at all druggists. Generous jar for 50c with directions. Free sample if you write Hudson & Co., Inc., 149 and 151 West 36th St., New York City.

SEWER PIPE CONTRACT FLOOD IN LOUISIANA

Purchasing Agent Has
Puzzling Problem

Railroads Cut Off and
Towns Endangered

Purchasing Agent Foye is doing some tall old figuring on a sewer pipe contract. Bids were opened a day or two ago and E. A. Wilson & Co.'s and Edward Cawley's bids were so close that the purchasing agent is in some-what of a quandary. Different sizes and lengths and different grades were called for and there are two ways of figuring in order to arrive at a total. One way it figures in favor of Mr. Cawley and another way in favor of E. A. Wilson & Co. The thing that is likely to turn the tide in Mr. Cawley's favor is the fact that he makes mention of Portland pipe and Mr. Wilson doesn't make any mention of it. The sewer department is already late in getting down to business and the fellow who can get the pipe on the ground in shortest order is the fellow who in all probability will get the job, and the scales are in Mr. Cawley's favor because he can have Portland pipe on the ground in three or four days while there is no telling how long it would take to get the other pipe from the west.

Dun's Review

NEW YORK, April 25.—Dun's Review tomorrow will say: Although there is still some loss in the comparison of bank exchanges with a year ago, the exhibit this week is somewhat more favorable than the preceding statement total clearings at all leading cities in the United States amounting to \$2,722,620,544, a falling off of 2.7 per cent. as compared with the corresponding period last year.

MELVILLE, La., April 25.—The Pris-

ce railroad between Baton Rouge and Opelousa and the Southern Pacific branch between Baton Rouge and Lafayette will be cut by the flood waters and the Texas & Pacific between Plaquemine and Melville will be endangered. The towns of Latonia, Bowle, Livonia, Lottie and Portochie, probably will be inundated. The crevasse at Krotz Springs is expected to relieve all danger of flooding Melville and other towns on the upper Atchafalaya.

POPE IS MUCH BETTER COBB SIGNS CONTRACT

Pontiff Showed Great Improvement Today

ROME, April 25.—Pope Pius is much better today and Cardinal Merry Del Val, the papal secretary of state, has requested the Right Rev. Joseph Schrembs, bishop of Toledo, to advance to tomorrow instead of Sunday the date of the audience the cardinal is to give to the American pilgrimage under his charge. At the same time the cardinal informed Bishop Schrembs that the pope was suffering from the consequences of an attack of grippa which would have passed unnoticed if it had affected an ordinary person.

J. W. FLETCHER LEFT A WILL

Continued

charge, said she could not answer those questions; that her orders were not to give out any information concerning the funeral and she obeyed orders to the letter. There were five carriages at the funeral, containing, it was stated, relatives from Maine and friends from this city and from Boston. Miss Annie L. Coolidge, niece of the deceased, was the only relative present from this city and it was Miss Coolidge who made all the funeral arrangements. Miss Coolidge went to Boston yesterday and claimed the body. She gave as her reason for observing secrecy her desire to frustrate the curiosity seekers who might be called to the place by the notoriety that has been given the affair.

John Fletcher's Will

was filed by Judge Frederick A. Fisher of this city in the East Cambridge probate court yesterday just before closing time.

Undated, except for the year 1898, written in pen and ink in a handwriting different than the signature, the document bequeaths practically all of the estate to Cameron A. Patchin, at the same address, 35 West 42nd street, New York city, where Fletcher had another luxurious suite and practiced palmistry.

The unusual tenor of the will has led to the belief that it will be contested. Play Total \$35,000

Strength was given to this rumor when Attorney F. A. Fisher of Lowell, who drew the document, was in conference with Medical Examiner Magrath yesterday.

Attorney Fisher, last night, following his return to Lowell, stated to a reporter that the estate left by the pal-

ist might amount to more than \$35,000. While the relatives of Fletcher are to receive small sums, the great bulk of the estate is designated to Patchin. This includes his valuable jewelry and tapestries and rugs, which have yet to be appraised.

The will specifically states and provides that in addition to receiving these jewels, Patchin is to receive annuities and finally, after six years, the entire residue of the estate, which is to be converted into a trust fund after the family and other small bequests are taken out.

Fletcher leaves to his aunt, Laura A. Abbott of Concord, N. H., \$5,000 and the family homestead at 49 Powell street, Lowell.

Nevada, is bequeathed a number of personal effects, including jewelry and a ring formerly belonging to King Ludwig of Bavaria.

Thomas H. Peterson, his colored man-servant, is to receive \$2000 as a "reward of faithful service," and it is designated that the money is to be paid within a short time after his death.

Practically the entire balance is left to Patchin. To him is left practically all of his rings, diamonds, pearls, and the greater part of his extraordinary collection of jewelry. Patchin receives also practically all of the tapestries, Persian rugs and furniture and silver plate which belonged to Fletcher at the rooms at West 42nd street, New York. He makes Patchin a further bequest of \$1000 to be paid within 60 days after Fletcher's death and interest.

The will provides that if Patchin should survive Fletcher he will receive \$500 every three months from the date

of Fletcher's death for a period of three years. This money is to come from the trustee, who is delegated to convert all the remaining property, after the gifts are taken out, into a trust fund from which Patchin is to receive the legacy.

In addition he further provides for Patchin by bequeathing his trustees to pay him in half-yearly payments the net income from this trust. This gift is to continue for three years more. At the end of six years all of the trust is to go to Patchin. If Patchin dies within six years of Fletcher's death the trustees are directed to convert all of the trust funds into ready money and pay the net proceeds to the Lowell General hospital for the establishment of free beds.

These are to be known as the Abbie E. Fletcher free beds, in memory of the donor's mother. Preference is to be given to women patients 60 years of age or over.

he was living in New York and he names and appoints Charles Knapp of Lowell, treasurer of the Middlesex Safe Deposit & Trust company, as executor and trustee.

The will directs Knapp as executor to gather all his property, consisting of bonds, stocks, jewelry, real and personal estate, and convert it into the trust fund mentioned in the will.

The will is witnessed by three New York men—C. W. Kennedy, H. L. Atkinson and F. W. Bowman. The valuation of the estate is problematical.

his niece, Miss Annie L. Coolidge, are the only relatives living in this state.

Performed Autopsy

Medical Examiner Magrath performed an autopsy on the body yesterday at the North Grove street morgue. The doctor found that Mr. Fletcher suffered from chronic diseases. There were no traces of poison found in the body, with the exception of the stomach, which has been sent to Prof. Whitney for analysis. It is believed that he took a capsule filled with poison, which he had carried for some time for use in such an emergency as arose on Tuesday.

Dr. Magrath says that no statement will be made as to the cause of death until the chemical analysis has been completed. The news of Fletcher's death has caused a sensation among the people who knew him and who consulted him professionally. His suicide to avoid exposure will have the effect of putting others who have been in the same business on their guard against the methods adopted by Commissioner O'Brien to drive them out.

RED SOX MEET WILSON/PAY BANK DEPOSITORS

President Shook Hands Of Norwich Institution With Each Player Which Closed

WASHINGTON, April 25.—The Red Sox, world's champions, went to the executive office today and met President Wilson, who shook hands with each player. "I'll forgive you for what you did to us yesterday," said the president with a laugh. "It went all right as long as I was there. You took advantage of my absence." The president referred to his early departure from the game to confer with Secretary Bryan. The Washington team was ahead when the president left.

WASHINGTON, April 25.—Depositors of the First National bank of Norwich, Conn., which closed its doors several days ago will be paid in full and a substantial part of the investment of stockholders will be saved, according to an official report to Comptroller Murray. Nat. bank Examiner Dean reports that the losses will not exceed \$250,000, leaving at least \$155,000 for depositors and the stockholders.

BRANDEIS TO CONTINUE INQUIRY

Into New England Railroads Before Investigation Commission

—Mellen Letters Read

BOSTON, April 25.—Louis D. Brandeis, a leader in the investigation into the New England railroads now going on here and who has been withdrawn as the counsel for the Boston Fruit and

Produce Exchange in that investigation, said today that he would continue as a party in the capacity of "a citizen of Massachusetts." Since the present hearing began Mr. Brandeis has ap-

peared as the representative of the exchange and has conducted a greater part of the examination of witnesses. Yesterday the directors of the exchange adopted a resolution setting forth that he was no longer their counsel before the investigating commission.

Mr. Brandeis occupied some time in reading correspondence between the exchange and himself, showing how he came to enter the case originally at the request of the produce men. When he concluded Charles F. Choate, addressing Ward Prouty, who presided in the absence of his father, Commissioner Prouty, said that he also would appear as a citizen of Massachusetts. Mr. Brandeis immediately demanded to know if Attorney Choate represented the New Haven road or the New England Navigation company. Mr. Choate denied he was in the employ of any railroad, whereupon David E. O. Brown,

the government's accountant, at the request of Mr. Brandeis read copies of two vouchers indicating that Mr. Choate had received \$13,500 from the New Haven road for legal services in 1905.

Examination of Accountant
The examination of Mr. Brown was then begun by Mr. Brandeis. The chairman announced that attorneys for the road would not be permitted to cross examine the witness during the absence of Commissioner Prouty. Figures read by Mr. Brown in answer to a question regarding the New Haven's advertising account, indicated that from Jan. 27, 1911, to February, 1913, inclusive, the New Haven road had paid the Boston News Bureau \$55,525, of which sum \$22,000 was paid in December, 1912, and February last.

Mellen Letters Read
Copies of correspondence between

Mr. Mellen and Oakley Thorne of New York were read. One letter directed Thorne to acquire at least 60 per cent. of the stock of the projected New York, Westchester & Boston railroad and the New York & Portchester railroad and authorize him to decide which road it would be more advisable to construct. The letter indicated that the New Haven road would finance the operations.

In another letter to Thorne, marked "personal" President Mellen asked if it would not be practicable, in view of the large amount of money already put into the enterprise, to raise further funds through an issue of mortgage securities of the Westchester. **Opposed Borrowing Money**
"I do not want to go into the market and borrow money to a very much larger extent without being able to explain to my stockholders and the public generally the purpose for which the money is desired," he wrote. "You are aware that our dealings have been located dangerously near in the minds of some to the enterprise with which you are connected and it would seem to me the part of prudence that if the matter is to be kept quiet the enterprise be further financed by its own issue of securities." The books, Mr. Brown said, did not indicate that any construction work had been begun up to the time of this letter.

Name of Senator in Suit
ST. LOUIS, April 25.—The name of former Senator Joseph Bailey of Texas was brought into the proceedings in the suit of the National Bank of Commerce of St. Louis to recover \$1,500,000 worth of stock in the Nashville Terminal Railroad Co. A statement was made that without the knowledge of the bank directors stock was taken out of the bank and sent to Senator Bailey.

A CITY OF OPPORTUNITY

At the meeting of the Builders' Exchange recently, one of the speakers referred to Lowell as "the city of opportunity." The designation is both true and timely. It has been long and widely known as "The Spindle City," but the new term is more descriptive of the city of today, and the city we are now building for the future.

And yet how many of our citizens there are who do not recognize our opportunities for trade expansion, business advancement, money investment. Strangers have come here repeatedly and are still coming, to grasp the business opportunities that are neglected by our own citizens. We are not wanting in the victims of the speculator and the fake promoter, but the men who throw their money into the fire of false investments would hesitate long before risking a dollar in a safe scheme that would advance the best interests of the city.

As a concrete example of this civic diffidence, we have seen the difficulty that the board of trade has met in securing capital to provide ready factories for enterprises which desire to come here, or which might be prevailed on to come here if we had better factory inducements. And yet in the nearby city of Haverhill, with which we need not fear comparison in any other particular, they have completed three of such buildings and are to build five more. The significant part of the situation is that those already completed are let, and there is a demand for more of the same kind.

In the diversification of our industries this city has made great strides recently, but herein still lie some of our greatest future opportunities. The board of trade can bear witness to the fact that in the past enterprises have had to abandon their intention of coming here, and companies with small capital are constantly compelled to go elsewhere, because of our lack of suitable manufacturing buildings. If we are to make the most of this "city of opportunity" we must educate our people to the value of the neglected business opportunities that are daily at our doors and that are largely being availed of by outsiders.

This is particularly true of real estate investments. We note among some men of means a reluctance to put their money in real estate. Some of them will hold land on public streets, selfishly awaiting the benefit to be derived from the unearned increment instead of erecting buildings thereon that would improve the street and bring a much greater profit on the money invested. Our local men have reason to envy the shrewd outsiders who have come in here and picked up some splendid bargains in real estate. Lack of enterprise on the part of our local business men alone prevented them from grasping these opportunities to make money. What is true of real estate in Lowell is true also of various lines of business in which there are opportunities for enterprising men to push certain lines in which there is little or no competition.

TEXTILE SCHOOL GRADUATIONS

A graduation of a large class of the Lowell Textile school, if they are students of the evening classes especially, ought to afford matter for serious thought to Lowell citizens. In the ranks of such graduates, there are no youths, as in other schools, who are carried along listlessly and almost without their own volition. They represent the brain and brawn which made Lowell what she is. They are the true successors of our pioneers. They are typical of the best endeavors of modern America. Ranking from youth to middle age, and representing many nationalities, they are a concrete example of the power and possibility of ambition when directed by perseverance and practical energy.

Of the class which has just been graduated, over one hundred came from Lawrence, thirteen from Andover, five from Boston, and about seventy from fourteen surrounding towns. This demonstrates that comparatively speaking, the youth of Lowell does not appreciate the vast opportunities afforded by the textile school for productivity in the lines of industry that have made the city famous. Unfortunately, there are too many among our young men who are seeking positions of ease. To them, a clean collar and light work offer inducements that are not counterbalanced by the prospect of overalls and strenuous work, even if the latter combination leads to fortune. But with the passing of a few years the order is generally reversed. The young men who don the overalls in youth desire them to accept a position of emolument, and the other drag himself along in sordid gentility, with the growing consciousness of having made a false start. It may mean a sacrifice to go to the evening

textile school, but sacrifice is the root of success. The trend of all modern education is to specialize. Whether one works in mill or in office, it is the trained man who reaches the top. Our textile school is attending to this work of training, and if it fails in part to reach its original ideal, the fault is with the people who do not avail of the opportunity it offers. Those who have just graduated deserve unstinted praise and encouragement, and their example ought to be followed by the young man who wishes to succeed in any branch of the textile industry.

FIREMEN'S WAGE INCREASE

The arbitration board which met under the provisions of the now celebrated Erdman act, to settle the difference between the firemen and the managers of the eastern railroads that threatened for a time to develop into the most serious situation the country has met with for years, has completed its work, and the verdict is in favor of the firemen. They have secured a flat raise of wages of from 12 to 15 per cent, and many other concessions.

During the hearing which has been long and exhaustive, many facts were brought out that led the public to expect a finding in the firemen's favor. It was shown that, because of the nature of their firemen's labors, many of the legal regulations which are aimed at the amelioration of their condition cannot be enforced, and that in many cases they are compelled to go for long periods without food and rest, owing to conditions which neither they nor the management of the railroads can anticipate. The public will not grudge the firemen their additional wage, and the establishing of better conditions and more cordial relations between themselves and their employers will have an immediate effect in improving the service.

The protest of the railroads, however, against the Erdman act as a means for the settlement of labor disputes is well grounded. It provides for an arbitration board of three, and because of the fact that both sides of the controversy are represented, it must necessarily leave the decision ultimately to one man. The method is to be commended, but the number of members on the board should be increased. In this way the Erdman act would gain the confidence of the railroads, which now regard it with suspicion, and it would not be unjust to the workers who in future may have a grievance against the railroad management. In the present instance the finding of the board will be approved generally, but the act ought to be amended before such a serious problem is again brought up for settlement under its provisions.

INTEREST ON LOANS

According to a circular issued by E. Gerry Brown, state supervisor of loan agencies, to aidmen, selectmen, or licensing boards, no rate of interest on loans, exceeding three per cent, monthly shall be approved by him. The law now stipulates that "no licensee or company or association to which this act applies shall charge or receive upon any loan a greater rate of interest than that fixed by the supervisor." This clause makes his request legally binding, but he has also recommended an amendment to the law which, when adopted, will make it more strict.

This act of the state supervisor is most commendable as thousands of unfortunate people have suffered in the past from the extortions of shroulsh loan sharks. Like any other business, those who engage in the loan business must conform with the law of justice and right which underlies all state laws, and it is a matter of gratification to find that the poor are at last partly protected from the loan sharks. Under the new regulations the legitimate business will not suffer. The law is in fact a protection, and they who are hampered by its provisions richly deserve their fate.

Seen and Heard

On many ranches in the Hawaiian Islands there are cattle that have never known what it means to take a drink of water. The cactus supplies them with both food and drink for the great prickly leaves, with spines an inch long, and the tender young shoots supply all the nourishment required.

A statue of King Da-udu, who lived and reigned about 4500 B. C., has been discovered by Dr. Edward J. Banks, an American archaeologist, among the ruins of the buried city of Aclab, in Babylonia, says the Youth's Companion. The statue, cleaned and restored, is now in the museum at Constantinople. This dispatch also contains an ancient joke that was found written on one of the walls of Aclab.

One morning a hodja's neighbors complained of a noise that had disturbed them the previous night. "There was no noise in my house last night," asserted the hodja.

"Don't tell us that," the neighbors protested. "There was such a disturbance that we could not sleep." The hodja slowly stroked his long beard, and then recollected that some time during the night his wife had kicked his right foot downstairs. "It must have been that," he said.

"Oh, no, hodja," cried the neighbors. "There was a terrible noise that could not have been made by any such thing as a nightshirt."

"Well, you see," said the hodja, "I was in the shirt."

THE ENDING OF THE ROAD

Your lips are as a half-forgotten dream That passes to the yearning breast of night. Your arms are lovely as the sun's first rays That bless the world, and crown the hills with light.

My soul, a garden, flowers to your voice; With every glory in my heart you reign. Come with the spring, and bid the eye rejoice. And all my lap with blossoms once again.

And you and I will wander through the years Till we are gray and old and day is blessed by the moon and christened by the rain. Till the road ends, and perfect love is come.

THE HOUSE I LIKE

Some love the glow of outward show, Some love mere wealth and try to win it. The house to me may lowly be, If I but like the people in it.

What's all the gold that glitters cold, When linked to harsh or haughty feeling? What's the noble gold Is truth of heart and manly dealing. Then let them seek, whose minds are weak, Mere fashion's smile and try to win it.

The house to me may lowly be, If I but like the people in it. The house to me may lowly be, If I but like the people in it.

A lowly roof may give us proof That lowly flowers are often fairest; And trees whose bark is hard and dark May yield us fruit and bloom the rarest.

There's worth as sure 'neath garments poor As 'neath adorned a loftier station; And minds as lowly as the dust, Whose claim is but of wealth's creation.

Then let them seek, whose minds are weak, Mere fashion's smile and try to win it. The house to me may lowly be, If I but like the people in it.

—S. E. Kiser.

Nothing takes the joy out of life like a weak stomach. Would you like to be able to enjoy the good things that others enjoy? Thank Dr. Williams' Pink Pills for a short time and notice the difference in your stomach.

Back of your lack of appetite, sourness of stomach, gas and nausea is bad blood. The food is lying in your stomach only partly digested and is fermenting because the stomach is weak. Dr. Williams' Pink Pills go deeper than a remedy that acts on the stomach alone. They get at the real cause, which is impure blood. They make it red and healthy. Where once the sight of food was nauseating, you will have a good appetite and be able to eat without distress.

Mr. Albert Underwood, of Brookville, Ind., says: "I began to have stomach trouble while run down in health and was sick for over two years. I could not eat anything without intense distress following. There was a feeling like pressure on my stomach and gas formed after eating. I kept losing in strength and weight and had to give up working. After spending many dollars for medicine and getting no help, I tried Dr. Williams' Pink Pills. They benefited me so much that I could eat without distress. I kept on taking them until I was well."

Dr. Williams' Pink Pills for Pale People are sold by all druggists at 50c per box or six boxes for \$2.50 or they will be sent, postpaid, upon receipt of price. Our diet book is free.

EDITORIAL COMMENT

Bryan & Wilson
Manchester Mirror: Any doubt of the junction of the Commonwealth as well as the former free lance personally with the administration has been swept away. Mr. Bryan is not trying to serve as a member of the state company and critic at the same time. He is frankly admitting that he has revolved in his mind the possibility of organizing "As long as the paper has existed," he says "it had criticised administrations. I told my staff the other day that we were going to turn square by around and support one." For the first time Mr. Bryan is playing second fiddle and following a conductor.

Good Advice
Brooklyn Times: Victor Berger predicts a panic this year or next. It's almost as easy to start a panic as to predict one, perhaps, but there's a certain amount of power in it. President Wilson knows what he's talking about, that acts as a preventive. In the meantime, perhaps it would be just as well to let Victor Berger and others inclined to talk about panics, should devote themselves to the realities of the present.

Japan and California
Woonsocket Call: If Japan is going to go and get huffy about California we suppose she will have to, and that is all that is to it. We are at present friendly in sympathy with the California attitude toward the Japanese. It looks to us shortsighted and prejudiced, but we admit that if the federal government has nothing to do with this local legislation as long as California does not interfere with the proper working of the law with Japan upon the legislation if it is enacted, if it violates treaties it must be repealed. If it does not it will have to stand Japan or Japan, unless California yields her prejudices in behalf of the general national serenity, as she ought to do.

Vice Investigations
Lynn News: There has never been in this country before so serious an investigation into the conditions and character of vice as is being conducted at the present time. Perhaps there has never been so great need of it. In any case, it is certain that organizations of vice are being stirred to fresh efforts, not only to eradicate vice, but to take all proper measures to prevent it. And inasmuch as prevention is all

ERUPTION ON FACE AND OVER SCALP

Commenced by Little Pimples. Spread in Patches. Burned Awfully. Hair Falling Out. Used Cuticura Soap and Ointment. All Signs of the Trouble Disappeared.

125 Haver St., Manchester, N. H.—"Five years ago I commenced to suffer from an eruption on the face and over my scalp. My face was red and burning and if I had the misfortune. It commenced by little pimples which broke open, and the pus and matter spread to patches. They burned awfully. It was on my scalp and my hair was dropping out and was falling out on my scalp. It was so bad that I had to leave my home. I tried many remedies, but nothing helped. I tried Cuticura Soap and Ointment. The first week I began to improve, and at the end of two months all signs of the trouble had disappeared. I have had no more trouble with the eruption since." (Signed) Mrs. J. B. Vincent, Sept. 7, 1912.

For red, rough, chapped and bleeding faces, itching, burning patches, and painful eruptions with pimples, a one-night Cuticura treatment works wonders. Soap, Ointment, or Cuticura Ointment and more soft bandages or old, loose gloves during the night. Cuticura Soap and Ointment are also indispensable for treating dandruff, itching, and sores. Sold by druggists and dealers throughout the world. Sample of each mailed free with 5c. 5c. Box. Address post-card "Cuticura, Dept. T, Boston."

Men who share and share with Cuticura Soap will find it best for skin and scalp.

ways better than cure, such activities warrant nothing but praise.

Poor New York
Fall River Globe: A German immigrant who arrived at Philadelphia the other day, when asked by the inspector if he had the necessary \$25 in cash to entitle him to enter the country, disabused that official by flashing a roll containing \$1400 on him. It was not New York, however, that was the Quaker city where he landed with that wad, or he wouldn't have been permitted to keep it long.

Spotless Town
Lynn Item: The efforts of the board of health, the city officials and private citizens to improve the health conditions of Lynn by a general cleaning up of the premises, public and private, throughout the city resulted very favorably. Ours may not be the "Spotless town" that was the ideal sought by the health officials, but conditions are so much improved that the citizens may congratulate themselves on the success of the effort. Some such effort as the one just made is needed to preserve the good appearance of the grounds that surround the homes as well as the public buildings of a city, and it will be well if the precedent established is followed annually. The cleaning up of the city, and the attention it brings is ample reward for the effort put forth. With a little more pains, it might be possible to secure the ideal and become in reality the spotless town of the inventor of the term. To play up to that ideal during the year by getting into the habit of keeping things picked up is something worth considering.

Mr. Taft's Epigram
Worcester Post: Mr. Taft does not ordinarily shine as an epigram-maker, but the editors of the Yale law school students is a good one to fix in memory. He must keep law and justice together in order to justify law.

Child Exploitation
Fall River Herald: The strikers in the silk mills at Paterson, N. J., are planning to send children to New York in a demonstration similar to that which shocked careful mothers in connection with the strike at Lawrence. The press reports note that a woman agitator asked the children if they would like to go, and the youngsters crowded the platform in their eagerness. That is likely. There is an age when humans will crowd the platform in their eagerness to accept almost any sort of a proposition that promises a change and excitement, making little discrimination between attendance at a circus and riding in a hack at a funeral.

SOCIAL AND FRATERNAL

At the recent regular business session of Lowell held, Benevolent Order of Buffaloes held in Old Fellows hall, in Middlesex street, ten candidates were initiated and several applications were received. Considerable business of a routine nature was transacted. Supreme Secretary C. H. Finn was among those present and he briefly addressed the gathering on matters relating to the good of the order. Plans for the future were formulated and discussed and James H. Hughes was appointed chairman of the social committee. During the evening refreshments were served and the following entertainment was given. Songs by Dan F. Murray, Al. Cook and D. G. Hurd; recitations by John J. Handley and J. J. Smith; dancing by Gardner Brooks and Jockey Brady and Brennan and Lynch; the Imperial quartet gave several selections, and the Easterners sang a kindly song to assist in the evening's performance. John Baxter and Matthew F. Shea sang. Remarks were made by Senator Draper, J. E. Lyle and George W. Crockett. The entertainment closed by all singing "Home, Sweet Home." Those in charge were: Charles T. Flannery, chairman of the evening; James H. Hughes, chairman of the entertainment committee.

James A. Garfield Post
The members of James A. Garfield post, G. A. R., held a well attended meeting last night and during the evening considerable routine business was transacted. Following the business session, remarks were made on the good of the order and speaking of the late comrade D. B. H. Bartlett, A. J. Boies paid a fitting tribute to his memory, closing with the lines:

"Sleep, soldier, sleep, thy warfare is o'er,
War's dread alarms shall wake thee no more.
Sleep, calmly sleep, 'neath the flower-ling sod,
Waiting the reveille sounded from God.
Over the resting place bright flowers we twine,
Gratitude's emblems on loyalty's Spring.
Fruits of your valor we gratefully reap
Freedom and liberty—sleep—sleep—sleep."
"Sacred thy memory ever we'll keep,
Under the grassy sod,
Waiting the call from God,
Sweetly and peacefully—sleep—sleep—sleep."

Daughters of St. George
Princess Lodge, Daughters of St. George met in regular session in the Odd Fellows building and transacted urgent business. Several of the acting committees reported progress and after it was a farewell party was given to Mrs. Hannah M. Orrell and Mrs. Mary H. Ingham, who are going abroad for the summer.

Highland Council, B. A.
The regular meeting of Highland Council, B. A., 270, was held at Highland last night. After the routine business, refreshments were served, followed by social whist. First prize was won by L. J. Bergeron, while John Orrell won second.

BALL COMMITTEE

OF K. OF C. HELD IMPORTANT SESSION LAST NIGHT

An Accident Prevented the Arrival of Secretary of State Frank Donahoe, Who Was to Have Spoken

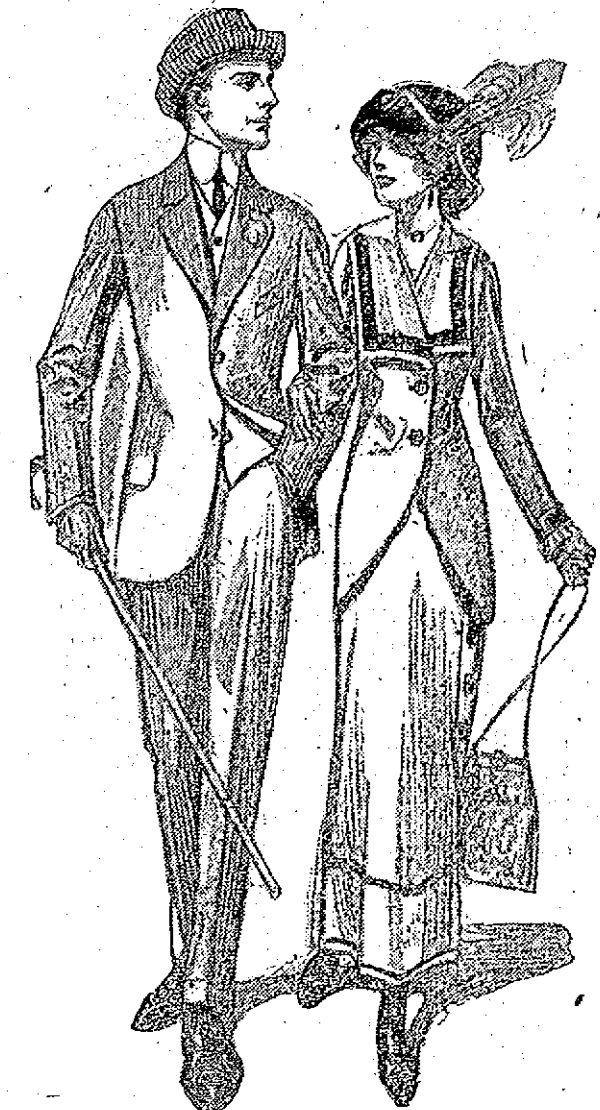

Members of Lowell council, Knights of Columbus, were disappointed last evening in the fact that Secretary of State Frank J. Donahoe, who was to have addressed the assembly, was unable to appear, owing to a mishap while en route for Lowell.

Following the business session of the council, the members of the committee in charge of the ball which is to be held next Wednesday evening, April 30, expressed an interest in the committee's business and the gratifying part of the event. There were read reports of the various subcommittees, all showing interest in their departments. During the session there were several addresses in which the speakers offered valuable suggestions concerning the ball. Chairman William E. A. Gibson announced that everything indicated a most successful affair, both from a social and a financial standpoint, and his remarks were seconded by Floor Director John F. Adams, who, with his efficient corps of aids, is making rapid progress with the details. Mr. Adams announced that the grand march will start promptly at half past eight o'clock.

Mother Sees Kid Carter
Boston, April 23.—James B. Jones, a "Kid" Carter mother called on him at the state prison yesterday afternoon at first he was very reluctant to see her, but finally agreed. He told her that the confinement was as bad as he was led to believe, but he intended that he would sooner be in the "chair" than to spend the remainder of his days in prison.

IS NEW TEMPEST BREWING OVER CALIFORNIA'S STAND ON THE JAPS?

SACRAMENTO, Cal., April 25.—Two new bills dealing with the question of land ownership by aliens in California, each representing the view of a considerable faction in the legislature, were scheduled to be offered and voted on by the senate. Through an agreement reached by leaders of the majority party a drastic law directed solely against the Japanese and Chinese was prepared as a substitute for the Thompson-Birdsall measure and probably will be passed. If not, an end will have come to the anti-alien land legislation at this session, floor leaders declare. It is now planned to throw out entirely the guarded language of the Thompson-Birdsall bill and put in its place two simple prohibitions—(1) No alien who is ineligible to citizenship shall be permitted to acquire and hold land in California for a period of more than one year after date of such acquisition; (2) no corporation the majority stock of which is held by aliens who are ineligible to citizenship shall be permitted to acquire and hold land except for one year. Secretary of State Bryan's telegram containing advice directly contrary to the present plan of action is taken only as an expression of opinion and not as interfering in any way with the state's right to act. The sentiment favoring an alien law has been non-partisan from the beginning, and it is doubtful if more than one democrat in the senate will heed the message from the state department at Washington when the measure comes to a final vote. Viscount Chinda, Japanese ambassador to the United States, is said to

Cured Capt. Burt's Eczema for 50c

Had Spent \$1000 in Yala. Then a Jar of Resinol Cured Him

Franklin Burt, of 81 Fulton st., New York, late captain in the U. S. army, and a man whose standing makes his word absolutely beyond question, gives the following account of his cure by Resinol:

"I became afflicted with eczema twenty-five years ago. I did everything for it, but the itching and burning was so intense and continual that in 1893 I put myself in the care of a specialist. The result was of little or not any benefit.

Doctor Said 'Get a Box of Resinol.' 'About 1895 I called on the doctor to ask him if he knew of anything to cure me. He said, 'Get a box of Resinol Ointment.' I got it. By itching stoppage as if by magic. By the time the jar of Resinol was all used the cure was perfected. I expended perhaps a thousand dollars, and endured real suffering for many years. At last I was relieved and cured in a month for the sum of fifty cents, the price of one jar of Resinol."

Letter proof, even than such a letter, is to try Resinol yourself and see how quickly the itching stops and stubborn skin or scalp eruptions disappear. For free trial, write to Dept. 15-T, Resinol, Baltimore, Md. Every drug-gist sells Resinol Ointment (50c and \$1) and Resinol Soap (25c).

be in close touch with this government as to further steps of protest. Governor Johnson of California has issued a statement in which he defends his state's right to exclude the Japanese and Chinese from holding land. President Wilson took a definite and important step when he decided to appeal directly to Governor Johnson, asking him to urge the legislature not to act at this time.

CENTENARY OF PEACE

Between United States and British Empire

LONDON, April 25.—King George today gave his benediction to the Anglo-American celebration of the centenary of peace between the British empire and the United States. His majesty received at Buckingham palace Lord Weardale and the other delegates of the British commission who will sail for America tomorrow on board the Caronia with the intention of consulting the committees in the United States and Canada. The king, who had expressed a desire to see the committee members before they sailed, heartily wished them a successful mission. He told them he was keenly interested in the peace celebration which he hoped would be of such a character as to draw still closer together the English speaking nations.

TAKE BODIES FROM RUINS

Rescue Parties Recover Mangled Bodies from Mine

Widows and Orphans Being Cared for by Agents of Mine

PITTSBURGH, Pa., April 25.—Rescue parties, working in the ruined Cincinnati mine of the Pittsburgh Coal Co., where an explosion occurred Wednesday afternoon brought 32 additional bodies to the mouth of the slope. Ten additional names were added to the missing during the night and while no official statement of the dead has been given out by the company the loss of life is placed by those at the mine at 115. The bodies were found buried under the fallen roof and until the debris is searched, which will occupy several days, the exact extent of the loss cannot be determined. The force of workers was increased this morning by volunteers from the district but as some parts of the mine are still filled with gas no complete exploration can be made. Many of the bodies recovered were so mangled that it was feared they never can be identified. Preparations for these widowed and orphaned by the explosion are under way and for the present they are being looked after by agents of the coal company.

JUDGE RAPS LAWYERS

Scores Settling of Cases in Corridors

BOSTON, April 25.—Judge Michael J. Murray in the police court yesterday scored attorneys for settling cases in the corridors of the court house instead of before a justice of the court. William Shane of 243 Shawmut avenue, a painter, was summoned to court for withholding four days' pay from Benjamin Hurwitch. While waiting for the case to be called it is alleged that Hurwitch's attorney induced Shane to pay the money due and then advised him to plead "nolo" when his case was called. Judge Murray refused to accept the plea of "nolo" from Shane and then ordered the case to be tried before him today.

UNITED IRISH LEAGUE

Expects to Send \$500 to National Treasurer in a Few Days for Benefit of the Home Rule Battle

The committee of the United Irish league which had charge of the recent public meeting held a meeting last night and decided to send the money on hand to the national treasurer before May 1. A few of the contributions promised are still to come in but they are expected within a few days and then the remittance of \$500 will be made for the benefit of the home rule battle. A vote of thanks was tendered to Mr. O'Brien, Humphrey O'Sullivan and the other contributors of material sums for the benefit of the fund.

PUBLIC MEETING

LOWELL SOCIAL SERVICE LEAGUE MET

Held Open House and the Speaker Was C. P. Hall of Pawtucket, R. I.—Large Attendance

An open meeting was held last night under the auspices of the Lowell Social Service league in one of the class rooms of the Y. M. C. A. The affair was largely attended and the meeting was presided over by Rev. C. T. Billings, while the speaker of the evening was Charles P. Hall, general superintendent of the Associated Charities of Pawtucket, R. I.

A meeting of the board of directors was held at the close of the address and ways and means were discussed, and the committee that has under consideration the question of engaging a trained social service worker, was instructed to make further investigation and report back to the board one week from tonight.

The public meeting was called to order by Rev. C. T. Billings, who introduced Mr. Hall, saying the latter was asked to come here because his work is being done in a city similar to Lowell in many respects. Mr. Hall spoke at length on the league's doings, and said: "The saving out of food and clothing is really an incident, and a comparatively unimportant incident in the work of the Associated Charities."

"Primarily the object of such an organization is to rehabilitate families and individuals; to give friendship where friendship is needed, and advice when advice is sought; and to build up such a condition that the individual or the family, as the case may be, will maintain self-respect and get back to a self-supporting basis. Often, the giving of food and clothing is an initial step."

There are three kinds of relief. There is emergency relief, which is charity's first aid to the injured; then there is what we call adequate relief, which builds up and conserves the life of the individual and of the family; and there is radical relief, which is preventive in its nature.

It has been demonstrated that trained workers are necessary to the carrying on of such work. Moreover, that sort of thing cannot be

M. T. I. BACHELOR GIRLS MADE GREAT HIT

In Their Song Revue at
Associate Hall Last
Night

tree in full blossom, while Japanese lanterns lent their soft glow. The program consisted of catchy songs and fancy dancing, followed by a musical comedy, and much enjoyment prevailed throughout the evening. The opening chorus consisted of a speedy parade of the current song hits, and was well received.

Miss Elizabeth Latham sang in fine style, "When It's Apple Blossom Time in Normandy," and she was ably assisted by eight young women, four of them dressed in very fancy costumes. These were Misses Molly Peterson, Mae C. Gallagher, Elizabeth Sullivan and Isabella Burns. Their companions were Misses Lena Sheehan, Catherine G. Malone, Estelle Connolly and Lydia Gallagher. This number was encored several times, and finally Miss Latham was presented a huge bouquet of roses and plums.

Another pleasing number was that of Miss Etta Brown, who wearing a blushing red jacket and carrying a suit case in her hand, sang "I'm Going Back to Caroline." The song was greeted with great applause and the singer was the recipient of a pretty bouquet.

Other numbers included an Irish song, "The Sure Me's Irish," by Miss Marion Nolan, and a sentimental song by Miss Jennie Wynn, who delighted the audience with "Then I'll Stop Loving You." Miss Madeline Boland sang "Whistle It," and concluded her number with a lip refrain. A lauder song, "When I Get Back Again to Bonnie Scotland," was given by Miss Lillian McPherson, Kila and all. A double chorus of dancing Scotch was also performed during the song. They were Misses Eleanor Beardon, Anna McHale, Mae Doughty, Marion Devine, Mae Boyle, Helen Buckley, Mae King and Julia Boland.

Miss Rose Nicholson sang "When I Leave You," and Miss Elizabeth Latham came back for her second number of the evening with "Meet Me Tonight." Both were well given and received.

Miss Lena Sheehan was attractive singer. "When Irish Eyes Are Smiling," "The Road to the Old Irish Home," "My O'Halloran," by Miss Eleanor Buckley, with collens and goosons, was one of the big hits of the entire show. The collens were Misses Mae Boyle, Helen Buckley, Mae Doughty and Mae King, and the goosons were Misses Eleanor Beardon, Anna McHale, Marion Devine and Julia Boland.

The finale of the performance was "Good-bye, Boy," in which lovely dances were introduced under the direction of Miss L. Blanche Fern. The Interlocutor was Miss Etta Finnegan. Minnie's orchestra furnished music during the show, and the director was William T. Gilmore, who presided at the piano.

The M. T. I. Bachelor Girls, an organization composed of popular young women of this city, scored a tremendous success at Associate hall last night, when they presented a musical song revue. The hall was literally filled and seldom has such an enthusiastic gathering been seen in a local hall. Of course there was a reason for the decorations in the hall were splendid and when the curtain obstructing the view of the stage was raised, the scene presented was one of the most beautiful witnessed here for a long time.

Drive Headache Away With Musterole

A headache remedy without the dangers of "headache medicine." You run no risk when you use MUSTEROLE to relieve that headache and miserable feeling from cold or congestion. And it acts at once! MUSTEROLE is a clean, white ointment made with oil of mustard. You rub it on the forehead and temples. Better than ice mustard plaster, and does not blister. Used only externally, and in no way can affect stomach and heart, as some internal medicines do.

Best for Sore Throat, Bronchitis, Croup, Sore Neck, Asthma, Neuralgia, Congestion, Pleurisy, Rheumatism, Lumbago, all Pains and Aches of the Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet, Colds of the Chest (it prevents Pneumonia).

At your druggist's in 25c and 50c jars, and a special large hospital size for \$2.50.

Accept no substitute. If your druggist cannot supply you, send 25c or 50c to the Musterole Company, Cleveland, Ohio, and we will mail you a jar, postage prepaid.

Mrs. F. R. Snyder, Brooklyn, N. Y.: "Have been helped many times by Musterole when I have had severe headaches."

New Method for Treatment

HEAT, OIL AND ANODYNE
25c Home Treatment. Similar in Effect to Famous Hot Springs!

Baseball players are loud in their praises of Page's Oil Liniment. These boys certainly have use for a real good liniment and they are learning that Page's Oil Liniment is the best. Bert Weiden on last year's Lynn home team used a lot of Page's Oil Liniment for sprains and bruises and speaks very highly of it.

H. P. PAGE very highly of it. 194 Union St., Lynn, Another member of that team, Otis Britton, had a streak of rheumatism last year, but Page's Oil Liniment knocked it out. Terry McGovern, manager of the team used it. And is high in his praises of it. Johnny Strand used it and "Red Walter" Jones used it. Pitching arm with "Page's Oil Liniment." Chief Cargill the famous short stop who is a Lynn boy, writes as follows: "I have used Page's Oil Liniment for stiffness and sore joints and can truthfully say it produces an effect similar to that of the famous and very expensive Hot Springs treatment."

Now stop and think for a minute—these ball players are people who absolutely must have the best liniment. Something that will produce a quick and positive result in relieving pain, strain, aches and bruises. And is good for them will be good for you. Page's Oil Liniment is the discovery of a trained nurse, my mother, and the peculiar method of applying it by heat is also her discovery. She has produced wonderful results from this liniment applied by the heat method right under the eyes of prominent physicians.

Doctors and nurses praise Page's Oil Liniment. The heat method of applying it is very simple and produces nothing but pleasant effect. It is fully explained on the wrapper of the bottle and a bottle of Page's Liniment only costs 25c or 50c. Yet it produces an effect similar to that of the famous and very expensive Hot Springs treatment.

As I write this article I have before me letters from many people which I wish I had room to publish in this paper. One is from a trained nurse who was wise up to die from inflammatory rheumatism, but Page's Oil Liniment saved her life. Another from a woman who was on crutches for six weeks, and tried everything without relief. Page's Oil Liniment conquered her rheumatism. Another from a man whose face was swollen to twice its normal size from neuritis. Page's Oil Liniment conquered the neuritis.

Another was a case of sciatica—another neuritis—another tonsillitis, any quantity of rheumatism, chronic rheumatism, various rheumatic aches and pains.

Chills, lumbago, stiff knees, back pains, sprained ankles and a host of other aches and pains. Page's Oil Liniment applied by the heat method has banished.

If you have a pain or an ache I urge you to start with Page's Oil Liniment without further delay.

Here are the dealers in Lowell where you can buy Page's Oil Liniment: Goodale's Drug Store, 217 Central St., Noonan, the Druggist, Bridge and Falls & Burkinshaw, 418 Middlesex St., Lowell Pharmacy, 632 Merrimack St., Brunelle's Pharmacy, 33 East Merrimack St., John A. ON TIME

(From the Boston News Bureau, April 18, 1913)

Steady improvement is being made in promptness of their passenger traffic movement by the New England Lines, both north and south. At the South Station the time-record for the fast trains from New York is especially interesting. With the Bay State (which, by the way, enjoys the reputation for the best record of any "limited" in the United States), there has not during the current month been a minute's delay in bringing this train into the South Station. In the case of the Merchants train,—the entire equipment of which is now all-steel,—there have been only two April delays, of one and four minutes, in its arrival at Boston.

Since February 1 tickets for the New Haven's "limited" service between Boston and New York—consisting of the Bay State, Knickerbocker and Merchants, three daily trains each way—have carried a provision for a \$1 price-rebate for a delay of over 30 minutes in reaching destination. During this period, however, there have been but 40 "excess" delays, seven of which were in February, and the trains for the most part have been kept practically on time. During the present month, for instance, their delay in arrival at Boston has aggregated but 23 minutes, consisting of seven, eleven, one and four minutes respectively.

7 months. She leaves a husband, Mr. John Hannigan, and an infant child. Deceased, by her beautiful disposition had endeavored herself to all who made her acquaintance, and her untimely demise will be keenly felt by all who knew her. She was a member of the Ladies' Auxiliary, A. O. H. The remains were removed to the home of her parents, 25 Whipple street, by Undertaker J. F. Rogers.

FUNERALS

QUINN—The funeral of the late William Quinn took place yesterday afternoon at 2 o'clock from the chapel of J. F. O'Donnell and Sons. At the grave Rev. Manager Birmingham is playing a flashing game himself this year for the Naps. Yesterday he worked the squeeze play on the "we don't need Cobb" for the fourth time this year. It looks from the sidewalk as though a certain ball player from Georgia would fit in rather nicely with the Detroit club. Four defeats in a row does not seem to indicate strength. President Navin is acting like a schoolboy when he persists in saying that he does not care whether Cobb signs up or not.

Joe Ferrin, with Fall River the latter part of last season, will be seen in the Portland lineup this year. He has been looked by Hugh Duffy to play the center garden and will report the first of next week. Joe played a good game for Fall River, hitting for over 200, and is a fast man on the bases. He is a student at Tufts Dental school and will finish up his last exam today. Ferrin was a member of the Lawrence high school baseball team when George Mahoney was captain of the local school aggregation, and proved the only stumbling block that Mahoney's team met during its season. He was with the Lowell New England league team the early part of last season, and has many friends in this city who will watch his work with great interest.

Steve Kennedy of Lawrence went right after Young Britt of Pittsburgh in their scheduled 12-round go at the Unity Cycle club of Lawrence last night, and kept at him with both hands. The Pittsburgh boxer did not last out the second round. Either Ken-

nelly is in better shape than he ever was before or Young Britt was some "quicksilver." You can all have two guesses.

Young Stone has been matched to meet Billy Corrigan at the opening of the new boxing club in Boston at the Boston Arena next Tuesday night. Stone is now under the management of Billy Wood and should travel right along. Billy has had years of experience in the game and will bring out all that there is in the local boxer.

Owing to the sudden sickness of Young McDonough, Joe Egan will be Matty Baldwin's opponent at the Manchester club on next Tuesday night. Young McDonough took quite a beating from Egan last week and is apparently laying off for a while to recuperate. This boxer is just as apt to come back and clean up for the South Boston scrapper in their next contest, for he has one of the most peculiar records in the history of the Lawrence arena. McDonough has been beaten by a fighter and come back several weeks later and hammer the previous conqueror all over the ring. McDonough fights many of his battles in very poor physical condition.

The opening day of the league here in Lowell, next Wednesday, will be the most pompous of any like occasion that the fans have ever seen. There will be baseball celebrities from the big leagues as well as many of the time present. An automobile parade will be the order of the day, in which will be the members of the city council and the mayor.

RED SOX RALLY IN NINTH

Score 4 Runs and Win by Score 6 to 3

The world's champions won their game with Washington yesterday in a ninth inning rally which netted them four runs and a three run lead. Groom was touched up for long hits in this session.

Excellent pitched a good game for Boston, the dozen hits that Washington made being scattered. The Red Sox twirler tightened up in the pinch with his team playing good ball behind him. Wagner's error was the only misplay which either team made during the nine innings.

Gardner and Engle both got three hits apiece for Boston, Engle lining out a double and a three base clout as well as a single. Carrigan allowed four bases to be scored in this session.

Score by innings:
Boston 0 1 0 0 1 0 0 4-5
Washington 0 0 0 0 2 0 1 3

Two base hits: Gardner and Engle. Three base hits: Engle and Gaudin. Hits: Off Boston 11 in 8 innings; off Hall 1 in 1 inning. Sacrifice by: Speaker. Error: Stolen bases: Engle, Milan, Ansmith, Shanks 2. Double play: Groom, Melville and Gaudin. Left on bases: Boston 1; Washington 11. First base on balls: By Boston 1; by Groom 3. First on errors: Washington 1. Strike outs: By Boston 3; by Groom 3. Time: 1:55. Umpires: Dineen and Hart.

LOWELL DEFEATS DOVER

In Exhibition Game by Score of 7 to 1

The Lowell team went to Dover yesterday and defeated the semi-pro team of that town by the score of 7 to 1. The New Hampshire aggregation could do nothing with either Weaver's or Zeiser's offerings, three hits being the total that were gleaned from the Lowell slammers.

The day being a holiday and so warm, brought out a large crowd to the game. Some 1500 fans saw their team go down to defeat, but enthusiasm ran high whenever the home team seemed to take a brace. They didn't have a chance, however, with both Weaver and Zeiser pitching gilt edge ball.

Smoyer, Dee's rival for the shortstop job, Miller and Monahan all connected twice for safeties. Monahan's work behind the bat showed that he has taken advantage of the warm weather to get down into league form again.

SOUTAR AND WILLIAMS TO PLAY FOR WORLD'S RACKET CHAMPIONSHIP

PHOTOS BY AMERICAN PRESS ASSOCIATION

BOXERS READY FOR BOUT

Thomas and Loughry Are Confident

The stage is set for tonight's bout between Joe Thomas of Lowell and Young Loughry of Philadelphia at the Lowell A. C. and the indications point to a crowded house. Both men are in the pink of condition, according to themselves and those who had charge of their training, and each is anxious to hear the vibration of the gong that will bring them together. Thomas prepared for the battle at Pawtucket, R. I., and was assisted by an efficient corps of trainers. While writing of Thomas, a question relative to the reason why Joe went to Pawtucket to train will be answered. The ex-welterweight champion is still there with his wallop and cleverness, and he found it difficult to find men in Lowell who would assist him in his workouts, that is in his boxing rehearsals. All the local boxers have great respect for that sleep producer that he carries in either hand and none is anxious to stop it, hence it is that Joe was obliged to get down in Rhode Island, to find men who would do the mits with him and take a few of his short arm jolts, and long range haymakers. Tonight he expects to still

PHILADELPHIA, April 25.—The second half of the racket match for the professional championship of the world between Jack Soutar of the Philadelphia Racket club and Charles Williams of England will be played at the Philadelphia Racket club May 3. In the first half of the match, played in London, Williams led by four games to two. The match was close and fast, the margin between the two played in the six games being only five aces. Soutar will have a big advantage in the second half, as the games will be played on his own court. Williams won the title from James of India three years ago.

Loughry just how they work. The Philadelphia, on the other hand, has put in a great deal of work and avers that he will be there with the counters and feels confident that he will stop the erstwhile Californian. They will perform for twelve rounds, ending of course that a "ten-second" vidling will be given out. As Bill Collins of Pawtucket, R. I., will not appear here tonight, owing to injuries received while training, Matchmaker Gardner has substituted Young Smith of Manchester, N. H., to meet Terry O'Rourke of Lawrence in the semi-final bout.

Jimmie Ryan and Young Halghy will participate in one of the preliminary bouts. Brennan and Kid Pappas will meet in the curtain raiser.

FEDERATION OF CHURCHES

Meeting to Be Held Monday Evening at the Y. M. C. A. Hall—Invitation Extended to All Churches

The annual meeting of the Lowell Federation of Churches will be held on next Monday evening in the hall at the Y. M. C. A. at 8 o'clock. Rev. O. P. Gifford, D. D. of Boston will give an address on "Cooperation Church Work" and reports from the officers and committees will be read. A cordial invitation is extended to all churches of the city to be present and the pastors are requested to read a notice of the meeting next Sunday.

THE LIPTON CHALLENGE Now Before Committee of Yacht Club

NEW YORK, April 25.—The New York Yacht club at a meeting last night to consider the challenge of Sir Thomas Lipton for the America's cup, voted to leave the entire matter of acceptance, or rejection, in the hands of a committee of 12 members of the club of which Commodore Dallas B. Pratt will be the chairman.

Has Full Power

If the committee votes to accept Sir Thomas' challenge under the deed of gift, the club last night provided that it be empowered to arrange the details of the acceptance and the conditions of the race.

The Royal Ulster Yacht club, through the agency of which Sir Thomas forwarded his challenge in another attempt to lift the America's cup, it was announced by the New York Yacht club last night, had appointed a committee with similar power.

About 20 members of the club attended the meeting and 35 yachts voted. Among the members present was J. P. Morgan, who was appointed a member of the committee to consider the club's action with reference to the challenge. The other members of the committee are: Lewis Cass Ledyard, E. D. Morgan, Cornelius Vanderbilt, Henry Walters, G. Oliver Iselin, C. Ledyard Blair, George W. Baker, Jr., Arthur Curtis James, W. B. Duncan, and G. A. Cormack.

Lord Shattlesbury, commodore of the Royal Ulster Yacht club, heads the committee through which Sir Thomas will make his plea for another race. The challenge is an open one with no restrictions, which resulted in the previous challenge being rejected.

Some Conditions as Before

It specifies that the races shall be subject to the same conditions as the last contest, in which he was defeated, namely the best three out of five races, the first to be sailed Tuesday, Sept. 10, 1913. The other races, it provides, are to be sailed on each following Thursday, Saturday and Tuesday until finished.

The result of last night's meeting of the New York Yacht club was called to Sir Thomas Lipton. As none of the members of the committee that is to have full power with regard to the challenge has been officially notified of an appointment, no statement relative to when the challenge will be considered could be given out. It was expected, however, that a formal reply to Sir Thomas would be ready within a couple of weeks at the latest.

The name of the challenger will be Shamrock IV, with a length on water line of 15 feet and of cutter rig.

After the business meeting the members of the club adjourned to the hall of the gymnasium, where the girls of

RUBE DE GROFF IS WITH US

Lowell's Star Rightfielder Blew Into Town Yesterday

DeGroof is with us again and is the same three ring performer as last year, to judge from his exhibition yesterday during the practice at the ball park. Rube is considerably overweight but looks as though he would be down to playing form without much loss of time. He will be used this afternoon in the game with Textile and will have a chance to get some of that surplus energy out of his system. DeGroof is some clown when he lets himself out. There are very few ball players who can get away with the stuff that this player does in a game. To begin with baseball isn't a vaudeville show and spectators are not there to watch anything but baseball, as a general thing. The Rube, however, has made a decided hit in Lowell since joining the local team with his bag full of tricks. Another thing that gets this player by with his laughable antics is his ability to play ball for there is no denying that the husky outfield is right there with the big club when it comes to driving out a hit, as his record in this league last year plainly demonstrates. DeGroof's arrival is a big help to Manager Gray just now when the most trying period of a manager's existence is at hand, the choosing of his team.

HUNT FOR MISS BORDEN

Warrant Must be Issued
by Father

NEW YORK, April 25.—The central office refused today to instruct the detectives of New York city to join in the search for Romana Borden, 17-year-old daughter of Gall Borden, the millionaire milk dealer, who disappeared Wednesday afternoon from a sanitarium at Pompton Plains, N. J.

"It will be impossible for detectives of the New York police department to take action in this case until a warrant is issued," two central office men told Mr. Borden today. "A warrant charging your daughter with waywardness, or one charging abduction will have to be issued first."

Mr. Borden, it is understood, is averse to issuing a warrant. He said he would call at police headquar-

ters later in the afternoon and by that time probably would have decided what to do. Meanwhile the police have offered to send out the customary general alarm issued for missing persons for Miss Borden. A report was circulated this afternoon that Miss Borden had been found in New York by a detective agency employed by her father, but this was not verified. It was said that private detectives were awaiting the filing of formal charges against her alleged kidnappers before disclosing her whereabouts.

GAVE JOHNSON CHANCE

Burns Says He Feared
Negro Fighter

Tommy Burns feared Jack Johnson and gave the big negro fighter his chance at the title only because the newspapers forced him to do so.

Tommy admits this freely in a letter to a friend in Chicago. Burns says he believes every boxer in the world has some one man he is slithering and doesn't want to fight. He then goes on to say that Johnson always had his goat and that he never had any idea of fighting him.

Indeed, Tommy made the price for meeting Johnson so high, as he thought at the time, that no promoter in the world would have the courage to make a bid for the match. But Tommy was tripped up on that, and then when he was cornered he had to make the match and go through with the fight.

Further, Tommy freely admits that he is mighty sorry now that he ever did such a thing, and it will be a lifelong regret to him. Still, as an afterthought, Burns expresses the opinion that he would have won from Johnson at that had the battle been permitted to go along to the finish and had not been stopped by the Sydney police.

In this connection it may be said that the police officials jumped into the ring only because Johnson's seconds set up a hubbub about the cruelty of the affair and kept calling "Police" and "Stop it" for three or four rounds. Rudy Linholz, the lightweight fighter, was one of Johnson's seconds and had a swell bet on the black man. Hence his anxiety to win it.

Burns wants to protest about his being rapped over the knuckles for trying to hog it all in the supposed match with Leither Morris. Burns says he oughtn't to be blamed for trying to get his price for boxing. Further along he says he believes McCarthy is afraid of him, and it was this statement that brought out his confession about the Johnson match and the incidents leading up to it in Sydney, N. S. W.

Here is part of what Burns says in his letter:

"I freely admit that I didn't want to meet Jack Johnson and was slithering right along. I made the price so high that I never thought any one would offer it. Then the press kept after me so strong that I couldn't get away. Finally when an American promoter offered me the price I demanded I decided to take a chance. For that I am very sorry, but after I learned the condition that Johnson was in at Manley hospital the day after the contest I believe that I could have won had the battle been permitted to go along.

"But at the same time the press is to blame for the match, as I was practically forced into it.

"The syndicate that offered the purse for Wells and me was an organization in which I had no part at all. I asked for \$25,000 out of the \$75,000 offered, as I believe a boxer should get all that he can at all times. I got exactly what he draws, and I would be a great card there.

"The syndicate fell through but if the money had been posted it would have been out in a satisfactory manner to Wells.

"As for McCarthy, if I could see my way clear to giving him the guarantee of \$25,000 that he insists upon I would do so, but it is impossible here. I offered him \$10,000 with the privilege of 25 per cent. of the gross, but he never answered the wire. He said something about wanting a guarantee of \$25,000 and a private fight. I offered him \$10,000 with the privilege of 25 per cent. of the gross, but he never answered the wire. He said something about wanting a guarantee of \$25,000 and a private fight. I offered him \$10,000 with the privilege of 25 per cent. of the gross, but he never answered the wire. He said something about wanting a guarantee of \$25,000 and a private fight.

TEWKSBURY

Miss Hannah Chandler, who has been ill at her home on Pond street, is improving slowly.

Mr. Walter Robinson, who met with an accident some time ago, is gradually recovering and is able to walk out these splendid spring days.

The entertainment given in Pickering hall, Thursday evening, by the pupils of the library school, was one of the most enjoyable affairs held this season. Great credit is due Miss Winslow for her untiring efforts to make the evening a success and that her efforts were appreciated was plainly shown by the large number present and the frequent bursts of applause.

ings deserved all the favorable recognition which was given by the audience. The Dutch kiddies in the Folk dances were greatly enjoyed. The program was an excellent one.

The proceeds, which amounted to nearly forty-five dollars, are to be used for industrial work.

This fine weather has caused a good many of the farmers to plant their early seeds. The trees have started to blossom and everything has taken on the look of spring.

Mr. Toaks and family of Lowell are to occupy the first of May, the home vacated by Mrs. A. L. King.

Mr. Louis Durol, one of the popular motorcyclists of Tewksbury, has purchased a side car for his Indian motorcycle. He is anticipating many enjoyable rides this coming summer.

Champion Butler Just a Youngster
Everard R. Butler of the famous Argonaut Rowing club of Toronto and holder of the amateur sculling championship of the United States was born in Toronto Dec. 23, 1885. Butler's climb to fame as an expert with the oars was one of the quickest on record. He never saw a racing shell until he joined the Argonauts in 1902. Two years lat-

er he possessed the amateur rowing championship titles of both the United States and Canada.

In 1910 he was a winner at the middle states regatta, in Philadelphia, and at the Canadian Henley at St. Catharines. The next year he again won at the Canadian Henley and also captured the United States and single championships.

At the Olympic regatta at Stockholm, though, he failed to win in the single.

Cover Up Style Going Out of Date
With Wolgast dethroned and Nelson going down hill, the cover up habit of fighters will not be so popular as it once was. The "cover" is thought to have emanated from the crouch system employed by Jeffries and taught to the latter by Tommy Ryan.

After that the cover was used in the east extensively.

Treaties of New Tariff Bill
WASHINGTON, April 25.—Through Ambassador Jusserand here the French government has called the attention of the state department to the probable effect on existing treaties of the new tariff bill. Anxiety has been

caused in France by several of the administrative clauses of the new bill, especially those obliging merchants to show their books and papers. In France a deviation of a tribunal is indispensable to compel any man to do so.

English Game Birds Disturbed
English pheasants and wild mallard ducks recently have been sent to all parts of the United States by the American Game Protective and Propagation association. The birds were distributed freely to members of the association who agreed to protect them.

These shipments are the first to be made in accordance with a plan for restocking the country with game through the establishment of sanctuaries on which birds can increase unmolested. The overflow from these sanctuaries will provide shooting on contiguous lands.

The Body Buried Today In the Edson Cemetery

The funeral of John W. Fletcher, the palmist who committed suicide at his apartments in the Hotel Pelham, Boylston street, Boston, Tuesday, when informed the police had a warrant for his arrest, took place this forenoon at 10 o'clock, the body having been brought to Lowell this morning. The funeral was in charge of Undertaker Healey and interment was in the Fletcher lot in the Edson cemetery. The funeral was private, and so afraid were his relatives that unusual publicity might be given the funeral that the clerk at the Edson cemetery office, when asked over the phone what time the funeral would take place and the name of the undertaker who had it in charge, refused to give the information.

BIDS ON AUTOMOBILE

Only Two Were Received and Purchasing Agent Foye Will Make Another Call

Commissioner Barrett made requisition on the purchasing agent for a four passenger, four cylinder automobile for the water department. Bids were called for and only two were received. One was from the A. J. Cumiskey Motor Co. and the bid was \$2229 for a Stutz car. The other was from George F. White. He offered a Reo with top, etc., for \$1230, or \$1130 with complete Gray & Davis lighting and starting system. Because of the fact that only two bids were received and because of some unjust criticism, it was stated today that new bids would be called for.

GOOD FRIDAY OF THE GREEKS

Was Elaborately Observed at Greek Church Today

Grand Procession Arranged for this Evening

Death of King George Will Not Interfere With Ceremony

Greeks Show Spartan Spirit in Defending Fatherland

This is the Greek Good Friday and the pretty little Greek church in Lewis street is the scene of great devotion this afternoon. These devout men will last into the night and will conclude with a grand religious procession. The procession will be preceded by a band and red lights and Roman candles will be in evidence all along the line of march. The bell on the church in Lewis street has been ringing at intervals since last night at about 10 o'clock, beginning at the time when Christ is supposed to have died.

The church was filled with men, women and children this afternoon. They came there to pray and to kiss the floral image representing the body of Christ as it reposes in a floral catafalque in the center of the church. This beautiful floral creation is composed of pink, roses, Easter lilies and numerous other flowers and is surmounted with a cross of white. In the rear there stands a large crucifix while the flickering light of myriads of candles casts a glow upon the scene and adds to its impressiveness.

The procession will leave the church in Lewis street at 9:45 o'clock tonight and the route will be from Lewis to Little to Drummer to Market, to Adams, to Cross, to Suffolk and through Market again, to Lewis and to the church. Several times the procession will stop and prayers will be read, men kneeling in the street and reading the prayers.

If the night continues as fair as the day it is expected that the procession will be the largest Good Friday procession ever held by the Greeks in this city. Stores and dwelling houses in Market and other streets are decorated for the occasion and the stores will be brilliantly lighted this evening. It was suggested that perhaps the recent assassination of King George would tend to make the procession less conspicuous than in former years, but a prominent Greek citizen said, this afternoon, that the tragedy would add to the impressiveness and religious fervor of the occasion. Moreover, the Greeks are so flushed with the news of victory for the army and the fleet of the fatherland that they view the death of King George and other men who fell in battle, with the old Spartan spirit that was ready to sacrifice life itself for the glory of the country.

LOCAL CARPENTERS Want Shorter Working Hours—No Strike Is Apprehended at the Present Time

The carpenters employed in the local mills and woodworking plants have asked their employers through the Carpenters' District Council to reduce the number of hours per week to 50. At present some of the carpenters are working 52 hours, while others work 54 and 55 hours a week.

The men have not specified any date and the request asks for the mill owners to approve it as soon as possible. It is believed that the employers and the carpenters will come to an agreement, and that no serious trouble will result.

Fractured Right Arm

The ambulance was called to the Merrimack Utilizing company's plant at 9:15 this morning to attend an injured man by the name of Peter Warless. He had a fractured right forearm and was taken to the Lowell hospital, where the fracture was set.

I. W. W. LEADERS UNDER ARREST

Are Charged With Inciting Riot in Paterson, N. J.—Mayor McBride Prohibits Removal of Children

PATERSON, N. J., April 25.—Bench warrants were issued today for the arrest of the three leaders of the Industrial Workers of the World indicted yesterday for inciting to riot. Pending the arrests the names of the men indicted were not made public. Mayor McBride has issued a formal statement prohibiting the removal of strikers' children from the city. The mayor said that the city was able to care for any families in need and the promoters of the plan, it develops, have found that parents were unwilling to be separated from their children.

CHAUFFEUR FINED \$20 IN COURT

He Was Charged With "Wilfully Interrupting a Funeral Procession"

The principal case in police court this morning was that of the commonwealth vs. Robert W. Duff. The charge brought against the defendant was "wilfully interrupting a funeral procession." The funeral in question was that of the late Rev. Fr. Saunders. Michael Rafferty was the first witness for the prosecution and his evidence had direct bearing on the case. It was his back which the defendant, who is a chauffeur, ran his machine into. Mr. Rafferty asserted that

Duff had run into his equipment directly opposite Middle street. He acknowledged on cross examination by Mr. Qua, the counsel for the defense, that there was some space between his hack and the one which directly preceded him, but said that the space between the two was only some dozen feet. He described the accident and told how the machine had run across his path. Witness said that he had turned out with the intention of avoiding a collision, but that the automobile had not stopped soon enough to avert it. He did not hear the defendant sound his horn.

James T. O'Hearn and Daniel S. O'Brien were placed on the stand and told the court what they saw of the affair. Neither seemed to think that there had been any noticeable break in the continuity of the procession whereby a person might have been deceived into thinking that the funeral had completely passed. Lieutenant Connors testified to straightening out the tangle and thought that the procession had been held up about ten minutes.

The defense placed several witnesses on the stand. The point that the defendant's counsel endeavored to show was that the break in the line of hack was of such proportions that the defendant had started out into the street with the idea that all of the carriages had passed. Dr. Gramsch, who was in the automobile with the chauffeur, told how he thought that the entire cortege had passed, and that the proximity of the hack owned by Mr. Rafferty had not been noticed until it was almost upon them. Dr. E. Forest Martin and Willis E. Morris each partially corroborated the testimony that had been

Springfield Superintendent Attacked by Vice Board

\$25,000,000 Shoe Firm Flayed by Commission Members

One Girl Testified That She Received \$3.50 a Week

Executive Session Due to "Rotten Testimony"

SPRINGFIELD, Ill., April 25.—The International Shoe Co., a \$25,000,000 corporation with a branch factory in Springfield, was flayed by the Illinois senate vice commission at its inquiry today. S. W. Derby, superintendent of the local factory, was on the witness stand following the testimony of several girl employees of the establishment and assumed a hostile and defiant attitude.

Derby was answering the committee's questions in a low voice.

"Speak up, please," requested Senator Juhl, the stenographers and reporters can't hear you."

"I don't care anything about them," responded Derby.

"This is the modern version of the 'public be damned' interposed," Lieutenant Governor O'Hara.

"I want to tell you, Mr. Derby, that I for one wish I had the power to drive your concern from Illinois," said Senator Juhl. "You are a disgrace to the state. We learned of one poor girl who worked for you and was driven to prostitution because your concern paid her only \$3.50 a week and she could not live on it. We had to go into executive session because the testimony was so rotten that the public should not hear it."

Derby was told to bring his payroll before the commission next week.

heard by the previous witnesses for the defense.

Judge Enright decided that the defendant was in too great a hurry to reach an appointment, and found him guilty. He was ordered to pay a fine of \$20.

Elizabeth Harris was sent to the house of correction for a period of four months. It was her fourth appearance in court within a year on the charge of drunkenness.

John J. Devine and Patrick F. Lynch, two parole men, were sent back to the state farm at Bridgewater. Frank A. Gagnon was given a suspended sentence to the state farm for drunkenness. Joseph Martin was given a 15 day for the same offense.

BROKE INTO LIQUOR STORE

Bold Thief Smashed Glass in the Front Door

Entered and Robbed the Cash Drawer at Five This Morning

John P. Connors of Tilden Street Is the Loser

Janitor of the Majestic Chambers Witnessed Break

A break of a rather daring character was perpetrated about five o'clock this morning at the wine and liquor store of John P. Connors & Co., 20 Tilden street when a man whose identity is as yet unestablished, deliberately broke the glass in the front door of the store, entered and after, so to speak, "painlessly extracting" \$5.25 from the cash register, made good his escape.

What adds to the boldness of the affair was the fact that the man went about the work before him in such a business like way, and without seeming to consider that there might be those who arising with the sun in the pursuance of their daily duties, might see and apprehend him. Indeed, it is said that the janitor of the Majestic chambers, located in that vicinity, witnessed the break from a window of the building of which he is caretaker, and that he made an ineffective attempt to catch the thief. The bold burglar, however, wasted no time in the place and was gone before the witness could get down stairs and across the street. The officer on that beat, a supernumerary supplying in the absence of the regular officer who is on the sick list, is reported to have seen a man in that vicinity who answers the description given of the burglar.

The police state that they have an excellent description of the man and are of the opinion that the activity of the officers will result in an early capture.

Cardinal O'Connell Going to Rome

BOSTON, April 25.—Cardinal O'Connell will sail tomorrow for a visit to Rome. He will be accompanied by Monsignor Michael J. Spillane, D. CLASH OF LABOR ORGANIZATIONS
IN THE PATERSON SILK STRIKE

STRIKERS' HEADQUARTERS IN PATERSON

PATERSON, N. J., April 25.—The American Federation of Labor officials are planning to organize the 25,000 silk workers who are out on strike under the direction of the Industrial Workers of the World. John Golden, president of the United Textile Workers, says that as soon as the silk workers are properly organized they will formulate their demands and will

then appoint a committee to wait upon the silk manufacturers with a view to a settlement of the difficulties. "I feel absolutely confident that we can repeat in Paterson what we accomplished in Lawrence, Little Falls and Hazleton," he said, "and straighten this strike out if the rank and file only have the opportunity." The A. F. of L. stepped in in these places after strikes had been conducted by the I. W. W. for many weeks and succeeded in arranging terms for settlements that were satisfactory to the workers.

IN FIVE MINUTES

Help Comes Quickly When Hyomei Is Used for Catarrh

Quick relief comes from the Hyomei treatment for catarrh and all troubles of the breathing organs such as stopped-up head, snuffles or morning choking. Put a few drops of liquid Hyomei in the pocket inhaler that comes with every outfit, and before you have used the treatment five minutes you will notice relief from your catarrhal troubles.

It gives a tonic healing effect to the air you breathe, kills the catarrhal germs, stops the poisonous secretions, soothes the irritated mucous membrane and makes a marked improvement in the general health.

Hyomei is not a cure-all. It has but one aim, the relief of catarrh and disease of the breathing organs. When there is no catarrh, the general health is improved, for then nature has a chance to build up the entire system.

If you suffer from offensive breath, raising of mucus, frequent sneezing, husky voice, discharge from the nose, droppings in the throat, loss of strength, spasmodic coughing and feeling of tightness across the upper part of the chest, or any other symptoms of catarrh, use Hyomei at once. It will destroy the disease germs in the nose, throat and lungs, and give a quick and permanent relief.

Hyomei does not contain cocaine or any habit-forming drug. The complete outfit costs \$1.00, extra bottles if later needed, 50 cents. Carter & Sherburne and druggists everywhere.

VERY SUDDEN DEATH

FRANK D. PEABODY PASSED AWAY
THIS MORNING

He Was a Prominent, G. A. R. Man and
the Son of a Former Mayor of This
City

Frank D. Peabody, aged 63 years,
died suddenly early this morning at
his home, 25 Columbus avenue, the
cause of death being heart failure.

Mr. Peabody was yesterday appar-
ently in the best of health and was
out as usual. He retired at his usual
time but shortly after midnight died.
He was the son of Josiah G. Peabody.
He was a member of this city, and for
many years connected with the assess-
ment office at city hall. Deceased was a
prominent G. A. R. man, being con-
nected with Post 155. He is survived

by a wife, Sarah A., and a daughter,
Mrs. Florence S. Colby of Cambridge.

BERLIN, April 25.—Princess Eugenie
Shakoffskaya, a certificated Russian
air pilot, and Vsevolod Abramovitch,
a Russian airman, fell while flying in
a biplane at the Johannisthal flying
grounds yesterday and were both in-
jured. Abramovitch very severely and the
princess slightly. Their machine
collapsed at a height of 30 feet and
crashed to the ground. Abramovitch

in August last made a flight from Ber-
lin to St. Petersburg.

The German aviator, Dunetz, was
killed earlier in the day at the Johan-
nisthal aerodrome by falling from a
considerable height when flying in his
aeroplane.

MGR. STEVENS RESIGNS

At Keith's Theatre to Go
to London

Will H. Stevens, for the past two
years manager of the B. F. Keith thea-
tre of this city, has severed his con-
nections with this theatrical house and
accepted the position of manager of the
"Mile a Minute," which is now playing
a long engagement at the London Op-
era House. He will sail on the "Olympic"
from New York on May 3, after
paying a visit to his old home in El-
mhurst, N. Y.
Mr. Stevens has had considerable
theatrical experience, having been in
every branch of it from circus work
to the playing of Shakespearean parts.
He has played in straight comedy, farce
comedy, musical comedy, drama, and in
his earlier days was a clown, a dancer
and singer and an acrobat. He has per-
formed in nearly every city of any size
in America, and has been in Mexico,
Canada, South America and Europe.
In September, 1911, he opened
Keith's theatre in this city and made
a success of his enterprise from the
start. He has created a host of friends
in this city who will be sorry to learn
of his future departure. His successor
at the Lowell house is not yet known.

OUTLAWS KILL OFFICERS

Then Escape by Underground Passage

TOPFIELD, Alberta, April 25.—The Erber brothers, outlaws, who Wednesday night shot and killed Constable Bailey of the northwest mounted police and seriously injured Constable Whittier, early yesterday in the cover of darkness made their escape into the timber from their cabin at Grassy Lake. Special mounted police are seeking the outlaws in the timber. Underground passages left the cabin in all directions, the police found, and it is supposed that the brothers made their escape through one of these. Detective Bailey's body was brought here today.

Theatre Voyages
The Biograph after a slight falling off in the quality of its films, has come back stronger than ever and today the Theatre Voyages is showing one of the best. "The Misunderstanding" tells of a young chap accused of robbing a lone traveler after having run away from home. It is finely acted by one of the strongest biograph comedians, "Playing With Fire," a village, is a comic drama acted by Dorothy Kelly, Harry Moore and Harry Northrup. It goes straight to its point and is a thrilling and interesting holding film all the way.

PUPILS STILL ON STRIKE

Acceptances Slow to Serve on Inquiry Board

PITTSBURGH, April 25.—There were few developments yesterday in the strike of school children against the retention of S. L. Hecker as superintendent of the city's public school system. A great number of children remained away from the schools, but there were no demonstrations of any kind. Bishop J. Heagerty of the Roman Catholic diocese of Pittsburgh, one of the seven men asked to investigate alleged charges of immorality against Superintendent Hecker, declined yesterday to serve. A Lowell Well, president of the Veterans' league of Pittsburgh, has accepted. As yet no response has been received from the other five prominent men requested by the board of education to conduct the inquiry.

AWARDED CONTRACT
Connors Bros. of This City Building Large Barracks at Navy Yard in Charlestown
Connors Brothers of this city have recently been awarded the contract to build a large barracks house at the Charlestown Navy Yard. This firm received the contract by bidding, with several others and it is believed that it will take about three months to complete the job. A Lowell foreman is in charge and several local men are at work on the job.

CAKE BAKER FINED \$500

120 Pounds of Rotten Eggs Found in Factory

NEW YORK, April 25.—One hundred and twenty pounds of rotten eggs in liquid form, found in the factory of the Steel-Drake company, east Louis Kenner, the company's manager, yesterday a fine of \$500.
The Steel-Drake concern is one of the largest cake bakers in the world, using a ton of eggs a day. The manager insisted that there was little chance that the bad eggs would have gone into the cake, but he admitted that the company used in its cake a flavoring which could cover up the taste of any decomposed eggs that accidentally slipped in.

FIREMEN'S LICENSES
Ten Applicants Appeared to Take the Examination Today in Office of State Inspector Moran
Today State Boiler Inspector Edward Moran conducted an examination for applicants for firemen's licenses and out of the ten men who appeared to take the test, nearly all wished to qualify as firemen. Of late Mr. Moran has been going regularly to Boston to assist the inspectors of that city in the examinations there. The number of local applicants continues to be large and each Friday finds a dozen or more applicants at the office of the state inspectors in the Central block.

TAKEN FROM DRAIN PIPE

Baby Resuscitated After Miraculous Escape

JOHNSTOWN, Penn., April 25.—Edna Newman, aged 2 years, was rescued and resuscitated after being washed through more than 300 feet of 16-inch culvert pipe, near her home at Wheelbar yesterday. The child was playing near a creek and fell into the water a few feet above where the creek entered the culvert under the road. The little body was drawn in the pipe and she was unconscious when recovered by a pedestrian.

ENFORCE PURE FOOD LAW

WASHINGTON, April 25.—Enforcement of the pure food law henceforth will be solely to see that the provisions of the law are strictly obeyed, while at the same time no attempt will be made to punish manufacturers and importers who can show they are honestly trying to live up to the spirit of the statute, according to officials of the department of agriculture. Particular attention was called by them today to the fact that everything now was running smoothly between the secretary's office, the collector's office and the bureau of chemistry, and all agencies of the department were working together for the proposed application of the law.

Carbonol

Dispels All Kinds of Dirt

Some kinds of dirt, especially of a greasy nature, won't dissolve in water; putting a dash of Carbonol in the water makes such dirt vanish.

Carbonol is invaluable in house cleaning. It is also a disinfectant and deodorant; makes garbage odorless, destroys nasty smells, disinfects and purifies everything. More necessary than soap for sanitary house-keeping.

ALIENS ARE AMBITIOUS

21,000 Foreigners at Boston Evening Schools
BOSTON, April 25.—The evening school report just issued shows that 23,312 pupils were enrolled in the schools of the city during the past term, 11,223 of these being students at the elementary schools, 6,233 in the high schools, and 1,155 in the industrial and trade schools.
The students who were Americans numbered 8,774, and the rest were from European and Asiatic countries and Canada.
In the elementary schools the largest number in the classification of ages were between the ages of 21 and 31, 3,997 pupils being registered. Over 1,000 were registered over 31 years of age, and 560 at 44 years.

MAINTAIN THE MILITIA

As Sufficient War Unit, Says Gen. Mills
WASHINGTON, April 25.—General Albert Mills, in charge of the military division of the army, today issued a circular order defining the relationship of the regular army officers to the militia while engaged in instructing the state troops. He made it clear that while the federal government is disposed to allow considerable latitude in the system of military instruction in the various states yet in order to obtain the assistance of the government he insisted the system must be such as to afford proper instruction and to maintain the militia as a sufficient war unit.

GOVERNMENT COOKBOOKS

Prepared by Dept. of Agriculture
WASHINGTON, April 25.—More than 12,000,000 copies of the various "cook-books" prepared by the department of agriculture, the latest of which is one on how to serve mutton in a number of forms, have been issued since this line of government activity began. By far the largest number published was of a bulletin on the "Economic use of meat in the home," which ran up to the enormous total of 3,225,000. Congress itself printed a half million copies in addition to those distributed by the department.
Of the bread making pamphlet nearly a half million have been distributed and of the cheese leaflet almost 300,000 have been sent out. Of the mutton bulletin, just out, 500,000 copies have been ordered printed for initial distribution.

Trinity Chimes at the Casino
The Casino orchestra is one of the most popular orchestras in this city, and James H. Buckley, the leader of that organization, is always improving the conditions which make it the most popular. His latest addition is that of chime bells which are played nightly at each session of the day accompanied by the orchestra. Mr. Buckley, the manager and director of the Casino, was the first to introduce this pleasant feature of a vocal soloist at a dance starting at Willowdale. There is only one Casino in town and that is located on Thorndike street, and everybody is welcome to visit the hall and enjoy a free concert.

REP. BUTLER
ASKS \$35,000

To Complete Lawrence
and Methuen High-
way In Dracut

Senate Sustains Gov.
Foss on Four of His
Recent Vetoes

Rep. Otis Butler of this city appeared before the ways and means committee at the state house yesterday, and asked the legislature for \$35,000 for the completion of the Lawrence and Methuen highway in the town of Dracut. Mr. Butler stated that the highway had been left in very bad condition

REP. OTIS BUTLER

and that the highway carries a very heavy traffic.
"Essex county has made a good road on its end," said Mr. Butler, "but Middlesex county has done little more than to grade up its end and the road needs to be top-surfaced."
Chief Engineer Dean of the Massachusetts highway commission spoke in support of the bill. He said that the estimates were made in the winter time, but he believed the work can be done within the sum named. Essex county has completed a good gravel road. On the Middlesex county end there is a good deal of work to be done and the road is rough. If this money is available, the highway commission will top-surface the Middlesex end and will then put on a permanent bituminous surface top on the two parts of the road, thus finishing the Essex end. If they cannot get the money, then the Essex end will remain simply a gravel road, while little more can be done on the Middlesex end. The highway will be unsatisfactory and with the heavy traffic, the Essex road cannot stand up as it would if properly finished, although it is a good gravel road.

The Governor Sustained

The Massachusetts senate had a real vote-fest yesterday afternoon. After rather prolonged discussions Gov. Foss was sustained on four of his recent vetoes. In none of these instances were the friends of the vetoed bills able to secure even a majority vote against the governor, although a two-thirds vote was needed.
There were five vetoed bills on the calendar but Joyce of Suffolk saved the fifth measure, for the time being at least, by moving postponement till Monday next. This was the governor's veto of the police listing bill.
When this matter was reached the governor had been sustained three times by the senate. Senator Joyce sized up the situation and gravely moved that "because of the unexpected popularity of the governor as shown in the chamber this afternoon I move consideration of this matter go over till Monday next."

Here are the vetoes which the senate sustained with the votes, question being on passing the bills named over the governor's veto:
The bill to transfer from the people of East Boston to the entire city of

IS RHEUMATISM EPIDEMIC HERE?

**RELIEF IS QUICK AND SURE IF
YOU REACH THE CAUSE
THROUGH VAR-NE-SIS**

It looks as though Lowell is in the grip of a rheumatic epidemic, said Varney of Var-ne-sis fame. The thousands that have secured my remedy during the past few months all tell about the same story. Neglect of the first symptoms may lead to serious trouble. When you feel soreness of the muscles, stiffness of the joints, backache, sharp pains in the shoulders, hips or wrists, don't wait another day—use the ounce of prevention—Get Var-ne-sis.

Many cases start from a bad stomach, gas, fermentation, sourness, distress after meals, constipation, and a run-down tired feeling. Friday and Saturday

FREE TROUSERS

The business I did not get last Saturday, that I should have received if it were not a holiday, must be made up this week. I offer to all customers ordering a Suit Friday and Saturday a pair of

\$5.00 PANTS ABSOLUTELY FREE

I have the greatest bunch of new browns on display in Lowell. I will require a week to finish orders, as the goods did not arrive from the sponger until Saturday morning. But see the sample suit lengths and I know you will wait the day or two longer. In fact, you will have to wait because nobody in town has anything like them in quality or style. Next season's patterns, they will be plentiful two or three months from now; young fellows, particularly, will go wild after them.

READ THIS STORY

It used to be the general opinion that low priced tailors sold a man only once, and that they never expected to sell the customer the second time. The thousands of men in Lowell who read this advertisement, who bought clothing from me going on five years ago, who have been buying from me ever since and who are intending to buy their next suit from me, when they get around to buying, know whether I tell the truth or otherwise, when I say I sell most of my business to old customers or repeaters.

I go further with an old customer than the limited profits of my business permit, because it does my heart good to see a man loyal to my organization and appreciative of my efforts.

But I can't live on old customers alone; people die, move away, grow old and stop buying new clothes. I have to get new customers or I lose volume.

My trouble is to reach the new customers. Some men read these ads year after year, but never answer them. That's the man I'd like to start.

If I sell him once, he would become loyal as my other old customers; I have thousands of customers who used to pay big prices for clothing, who found it hard at first to believe that I could please them at my prices.

This is a good time to try me out; your common sense tells you I must be doing business to last four years in Lowell, and I wouldn't be getting the business if I did not satisfy the people. So if I satisfy them, I ought to be able to please you.

TAKE A CHANCE on a \$12.50 suit. I give you my word you can't buy a cotton worsted in my store. If I give you a fabric made from real wool, you know that at \$12.50 the suit is not all profit to me.

TAKE A CHANCE to look, even if you don't buy. No don't worry about the quality and don't worry about the fitting. You are no harder to please than your neighbor. Your neighbor thinks just as much of himself as you think of yourself. Your neighbors have been buying their clothes at my Lowell store since way back in February, 1909.

FRIDAY AND SATURDAY A PAIR OF \$5.00 PANTS FREE.

My blue serge being a special, free pants is not included.

Speaker Rebukes House

Members of the house were rebuked during the session yesterday afternoon for the recently acquired habit on the part of certain legislators of indulging in jeers and catcalls during debates.
The house was discussing the bill providing for compensating owners of animals killed on account of being afflicted with glanders when the speaker dropped his gavel, after something of a "demonstration" on the part of a few members, and said that he would no longer tolerate the practice, which he said was becoming more or less common of late, "of greeting with suppressed jeers and catcalls members who are speaking upon any and all questions which have become more or less unpopular."

The speaker then reminded the members that the Massachusetts house of representatives, besides being one of the oldest legislative bodies in the world, has ever been known as the most deliberative. He said that the

tone of the legislature has recently shown a marked deterioration because of acts which should have no place in a deliberative assembly. In conclusion, he expressed the hope that he would never again have occasion to call the matter to the attention of the members.

This "rebuke" was received with decisive applause from the house.

Discussion was then renewed on the Glanders bill, which was still being debated when the branch adjourned for the day.

Just prior to adjournment the social welfare committee reported the uniform child labor bill with certain minor perfecting amendments.

No More Sore Feet

EZO is Guaranteed for Weary, Aching Feet, Bunions and Corns

If your feet are tender, sore, burn and sting and keep you feeling miserable all the time, go to-day, buy down EZO—say I want a jar of EZO.

CAPE COD EXTENSION

Company Given Until June, 1915

BOSTON, April 25.—The joint boards of railroad and harbor and land commissioners voted yesterday afternoon to extend the time for completion of the Cape Cod canal one year from June 3, 1914. That means that the Boston, New York and Cape Cod Canal company must complete the canal by June 3, 1915, or forfeit its charter.

The board also authorized the issue of 2350 shares of the company's stock at 100 and \$240,000 in bonds.

These votes were in response to the appearance yesterday afternoon before the commission of August Belmont of New York, promoter of the canal and head of the company, who asked for an extension of 18 months.

He explained that the request was made necessary by the unexpected difficulty of the work. About 6,000,000 cubic yards of material are yet to be removed from the canal. The estimate was 16,000,000, of which 10,000,000 have been removed.

GRASPED LIVE WIRE

Chelsea Lineman Had Narrow Escape From Death—Rescued by Brother Linemen

BOSTON, April 25.—While at work at the top of a telegraph pole on Fifth and Cherry streets, Chelsea, yesterday, John Grant, 38, of 71 Debon street, Revere, received an electric shock from

a live wire, rendering him unconscious. He swung head downward for several minutes before he was rescued.

At work on the pole with Grant was Anthony Archambault, another lineman who grasped Grant and held him while several other workmen sent up a rope, which was passed about Grant's body, and lowered it to the ground. Grant was removed to the Frost hospital. He may recover.

Woman Is As Old As She Looks

No woman wants to look old. Many in their effort to look youthful resort to the "beauty doctor's" prescriptions. The mistake is that they visit the wrong department in the drug store. Beauty depends upon health. Worry, sleepless nights, headaches, pains, disorders, blemishes and weaknesses of a distinctly feminine character in a short time bring the doll face, the "crow's feet," the haggard look, drooping eyelids, and the falling step.

To retain the appearance of youth you must retain health. Instead of lozenges, powders and paints, ask your druggist for

DR. PIERCE'S Favorite Prescription

This famous medicine strikes at the very root of these enemies of your youthful appearance. It makes you not only look young, but feel young.

Your druggist can supply you in liquid or tablet form, or send to one-cent stamps to Dr. Pierce's Invalids Hotel and Surgical Institute, Buffalo, N.Y., and trial box will be mailed you.

FORESTERS' CONVENTION

Grand Court Session in
Fitchburg May 20-22

JUDGE O'BRIEN OF LYNN FOR
SUPREME C. R.

The National Convention Will Be Held
in California in 1915—Massachusetts
Has 33,669 Members

The 25th annual session of the Grand
Court Foresters of America will be
held in Fitchburg, May 20, 21 and 22.

The report of the G. A. R. and the
grand secretary show that the order
never was in better standing, both
financially and in numbers. An in-
crease of 1940 has been made in the
membership and several thousand dol-
lars has been added to the treasury.

At the convention many changes in
the grand court laws will come up for
action, the most important of which is
the law on biennial sessions and the
number of weeks to be paid benefits
in case of sickness.

Delegates to the supreme convention
to be held in Atlantic City in August
are to be elected. The Lowell candi-
dates are: Dennis J. Murphy, James J.
Gallagher, John W. Sharkey and
Thomas Quiney. William F. Duncan,
town clerk in Warren, is the only can-

didate for G. C. R.; Joseph M. Guse of
Chicopee is a candidate for G. S. C. R.;
Wm. J. Kuren of Worcester is the can-
didate for grand treasurer while Wil-
liam H. Stafford of Lowell will have
no opposition for grand secretary.

At the convention to be held in At-
lantic City Massachusetts will present
the name of Judge Edward P. O'Brien
of Lynn as their candidate for su-
preme chief ranger and also the name
of William J. Mountain of Gardner for
a minor office.

The following facts were taken
from the report just issued by the
supreme secretary: Total membership
in the United States 252,862; balance
in dues fund, \$3,310,764.93.

The state of New York has the largest
membership with 56,153 names; Pennsylvania next with 49,830; Massa-
chusetts, 33,669; California, 23,144;
and Connecticut, 20,921.

The next national convention will be
in California in 1915.

JOSEPH D. GALLAGHER
President

The members of the Immaculate
Conception Holy Name society cele-
brated the twentieth anniversary of
the organization last evening in the
hall of the Y. M. C. A. with a banquet
and entertainment at which there were
present about 150 members and guests.
The event was a most inspiring one
as well as a most enjoyable one for
everyone who attended. The principal
speakers of the evening were
Rev. Father Cornell, O. M. I., of St.
Andrew's church, North Billerica; Rev.
Father Flynn, O. M. I., of the Sacred
Heart church and Rev. Father Sullivan,
O. M. I., of the Immaculate Conception
church.

At the conclusion of the dinner, Pat-
rick Conlon was introduced as toast-
master of the evening by Vice Presi-
dent James Branton. Mr. Conlon

briefly spoke to the members and
guests in a few words of greeting and
then introduced Joseph D. Gallagher,
president of the Holy Name society.
Mr. Gallagher, in an eloquent speech,
told of the work of the society, and of
its activities and growth during the past
twenty years. He congratulated the
members on their spirit and expressed
gratitude to the priests and others
who had given their aid. At the end
he urged all to continue in their ef-
forts for the good of the society.

The next speaker to be introduced
was Rev. Father Sullivan, who was
suffering from a severe cold was unable
to address the gathering. Father Sulli-
van offered his congratulations to the
members for the spirit with which they
have always entered into the work of
the organization. He dwelt
generally upon the importance of the
society in the church and the
community. He referred to a
trip to the south and west which
he made with Rev. Father Flynn, tel-
ling of the conditions, social, religious
and political.

It was in regard to the sacredness
of the Holy Name of Jesus that Rev.
Father Cornell, O. M. I., spoke and he
told of the duties and obligations of
the members of the Holy Name so-
ciety and of the men in general in
keeping the name sacred, protecting it
from blasphemy, etc. It was primar-
ily for this purpose as well as for the
furtherance of the true faith that the
society was organized and in past years
its work has been very commendable.
To that name, he said, we bow in re-
verence and adoration, for by it men
were saved and the faith and the
church were set upon a firm and un-
shakable foundation to endure to the
end of time. Every day we hear
about us men blaspheming and taking
the name of the Savior in vain; from
the lips of the sacredness of that
name arise many other great social
evils for disregarding the name and
its significance, people likewise dis-
regard the standards of Christ and His
church; there is the cry of "No God;
No Master," the divorce evil and
many others. But in the Roman Catho-
lic church and in her Holy Name
societies is found the true reveren-
ce and respect for God that preserves the
faith intact and eliminates such evils
as those named above from the ranks
of the faithful. It is for the Catho-
lic men to continue and persevere in
upholding the honor of Christ and His
church upon earth by their good ex-
ample, that the coming generations
may have the faith as we have it and
that the church may continue to grow
and flourish as she has done in the
past in spite of the difficulties and dis-
cords that arise all about her. Father
Cornell's address was eloquent and im-
pressive and was liberally applauded
at the close.

The last speaker was Rev. Father
Flynn, O. M. I., and he spoke primar-
ily regarding the conditions which
he observed in his trip to the south-
west. In particular, he spoke of the
people of Mexico. In that country, he
said, there were manifest many evils
overwhelming there is much to merit
commendation. It must be borne in
mind, he said, that as yet the civiliza-
tion of the country is far from being
old and the people are in reality Indi-
ans, less than 200 years from savage
ancestors. Consequently they still re-
tain in a measure the blood of the sav-
age and the centuries have not
sufficed to entirely blot out the early
traits. In most instances they are
firm in their faith and could give good
example in this respect to many who
oppose them and speak ill of the peo-
ple of the country. A comparison with
the process which evolved our own
Christianity and civilization will serve
to bring out these facts. In conclu-
ding, Father Flynn, like the other
speakers, commended the members of
the Holy Name society on their pro-
gress during the past twenty years and
urged them to keep up their high
standard for the glory of God and the
church.

During the evening an entertainment
of several excellent numbers was pro-
vided by Messrs. John Dalton, Edward
Shea, Frank McGarity and David
Martin and they furnished unlimited
pleasure with their musical numbers.
There were solo duets and quartet se-
lections and the evening's festivities
were brought to a close by the singing
of the hymn "Holy God, We Praise
Thy Name," by a quartet. The commit-
tee in charge was composed of the fol-
lowing:
Joseph H. Gallagher, J. S. Treanton,
William H. Sullivan, John O'Neil,
Frank J. McCormack, William H. Con-
nors, John Grann, Patrick McGovern,
John O'Brien and Frank Chappelle.

Mass. Senate Wants More Time
BOSTON, April 25.—By a strict party
vote the senate, which is strongly
republican, today adopted a resolution
requesting congress to give interested
parties sufficient time to be heard on
the new tariff bill.

WASHINGTON, April 25.—The United
States, as owner of the Panama canal
has the right to fix such terms as it
pleases and the neutrality of the wa-
terway applies to its users only and
not the United States. This was the
view expressed today by Richard Ol-
ney, former secretary of state, whose
speech was read before a meeting of
the American Society of International
Law.
Mr. Olney did not attend.
"It is clear," Mr. Olney's speech con-
tinued, "that a nation or a state does
not convey away its own property or
sovereignty except by terms that are
clear and susceptible of no other mean-
ing, and that where the meaning can
be taken to favor the United States it
is the clear right of the United States
that it be held that the words 'all na-
tions' do not mean to include the United
States. However, it is not necessary
to rely on this presumption as the
United States is owner and can fix such
terms as it pleases."
If the question is submitted to ar-
bitration it should not be submitted to
the Hague but to a special tribunal.
The Hague would be partial as admit-
tedly all European powers are inter-
ested in the outcome.
Another speaker who compared the
relative interest of the United States
and Great Britain in the various stages
of the Panama canal negotiations was
Chandler Anderson, former counselor
of the state department, who in ef-
fect declared that the United States
is clearly entitled to exempt its own ves-
sels from the payment of tolls or to
refund such tolls."

RUSSELL FOR COLLECTOR

Gov. Foss Indorses Him
for Appointment

BOSTON, April 25.—Governor Foss has indorsed Harry Russell, brother of former Governor William E. Russell, for collector of the port of Boston, to succeed Edwin U. Curtis. The governor's name heads the petition.

The petition for Mr. Russell is being circulated by Daniel J. Riley and contains the names of many prominent democrats of this state. National Congressman John W. Coughlin of Fall River declined to sign it yesterday, however.

Mr. Russell is a prominent insurance man. He has not been prominent in democratic politics in this state since his brother ran for governor. The position in his behalf is endorsed by President Wilson. Up to date it lacks the names of such democrats as Chairman Thomas P. Riley of the democratic state committee and Lieut. Governor David I. Walsh.

The name of Robert Treat Paine, who was a candidate on the democratic ticket for governor, has been substituted for Secretary McAdoo, as well as the name of Charles B. Strecker, who was the candidate for state auditor on the democratic ticket two years ago.

HARVARD GLEE CLUB

Will Give Concert Tonight—Bos. Will Be Entertained by Mrs. Tibbetts Before the Concert

The Harvard musical clubs will give a concert in Colonial hall tonight. The Glee, Mandolin and Banjo clubs from Cambridge, numbering nearly 60 college men, are the best for years and the concert should be a huge success. Lionel de Jersey Harvard, descendant of John Harvard, will be with the clubs. Probably the chief attraction will be Charles Brickley, the famous football

hero who will be heard after. The concert will be followed by dancing. Mrs. H. L. Tibbetts, mother of Norris Tibbetts, who sings in the Glee club, will entertain the boys at her Mansur street residence before the concert.

AMUSEMENT NOTES

Lowell Opera House
"Frisco Sal" will be the attraction at the Opera House tonight and tomorrow afternoon and evening. James Forbes will present the play. He has heretofore been known better as a dramatist. His plays, "The Chorus Lady," "The Traveling Salesman," and "The Commuters," are now recognized as the most faithful studies of the commonplace sides of the average Americans. Mr. Forbes demonstrated that there is more realism in the truth of ordinary things than in the most imaginative trappings of the "punch drama" school.

Constance Collier will play the title role. They who remember her splendid portrayal of the unfortunate Sancerre in the revival of "Oliver Twist" may realize that in "Frisco Sal" they will find Miss Collier a beautifully tragic woman. The story is that of a woman who has led a shady existence in San Francisco and who then goes to London to try to live straight. The scenes are laid in London and vicinity. The authors are John Clayton Calhoun and Cosmo Gordon Lennox. The former is the grandson of John Bowditch, and Mr. Lennox is best known as the author of "The Marriage of Kitty." In support of Miss Collier will be: Wilson Melrose, Olive May, David Landau, Ivan Simpson, Charles Jones, Andrew Tobin, Charles K. Gerard, Wallis Clark, Frederick Malcom and Kate Mayhew.

"BARBER OF SEVILLE"

"The Barber of Seville" in a fifty minute version, with scenery and costumes, will be presented by noted stars of the Boston Opera company on Tuesday evening, April 23, at the Opera House. Even this bare announcement should be sufficient to awaken local music lovers to interest, and when it is learned that many of the greatest singers of their kind in the world are to be included in the program, absolute enthusiasm should result. Rossini's "Barber of Seville" is an opera loved universally. In it are scenes of the highest musical value, and combined with this there is an atmosphere of humor permeating the whole presentation, which becomes most apparent in the work of M. Rodolfo Fornari in the title role, "Figaro," and in M. How-

ard White, who is entrusted with the basso-buffo role of Don Bartolo, one of the most trying parts in grand opera. Perhaps the best idea of the presentation might be obtained by a glance at the exact cast, which follows:

Bosina Mme. Evelyn Scotney
Berla Mlle. Ernestine Gauthier
Count Almaviva M. Alfredo Ramella
Don Basilio M. Jose Marcondes
Don Bartolo M. Howard White
Figaro (Barber of Seville) M. Rodolfo Fornari

To hear such a cast in such an opera is a treat, but the management has provided even more musical good things for the evening in the concert diversion of the program, which include: the great sextet from "Lucia di Lammermoor," and the mad scene from the same opera by Miss Evelyn Scotney, who has often been called greater than Tetrazzini. In this number, critics will have a chance to compare the work of the two artists.

Not mentioned previously, because in "The Barber" cast there were no places for them, are Mlle. Myrna Shawlow, prima donna soprano, and M. Raoul Tomito, first tenor. Both of these artists will demonstrate their ability in concert numbers.

Certain it is that no more enjoyable musical offering has ever come to town than that assured by the appearance of the Boston Opera stars.

Merrimack Square Theatre

On next Monday afternoon and for the remainder of the week, Alexandre Blais, a great French drama of mother love, "Madame X," will be the feature at the Merrimack Square theatre. Owing to the many inquiries the management wishes to state that this is not a moving picture or a sketch, but a four-act play given with a cast of 35 people, from the original manuscript and with an elaborate production. The latest photo-plays will also be shown, thus keeping to the policy of being continuous from 1 to 10:30.

Sunday, the famous Bachelor club will be seen in their original one act skit "A Night at a Cabaret." And in it will be seen all the local favorites, including our own "Jimmy Donnelly," Chas. Slattery and others. Seats now.

Keith's Theatre

Headlined for performance at B. F. Keith's theatre next week is Ray Dooley, with her sprightly Metropolitan minstrels. Twelve youngsters of undoubted ability constitute this act and it should secure one of the hits of the present season. The bill of the present week goes merrily along, with large audiences in attendance. Fields and Lewis, the funny men, are literally a mine of funniness. Their humor knows no end, and they hold the stage for thirty minutes with a riot of good things. "The Seven Prolifics," a mine of funniness, is a winning combination. The boys and girls are natural singers and comedians, and the act has many things to commend it. Al Finlay and the Canshield Sisters are artistic singers and dancers, whose stuff is all new. The Kenetocher Four, singers of note, give a splendid bundle of numbers, and Phil Adams, one of the quartet, works in some telling comedy. Cameron and Kennedy sing and dance, and the Kenetocher company in "The Girl in the Pink Kimono," have a pretty little idea which takes well. Francis Wood is a well known hoop roller, and the Kenetocher has new

It's a Stein-Bloch"

It was the first suit we sold when we opened our Lowell store four years ago last month—and he's wearing it yet.

And it looks good for another season or two. Of course, he's had other suits, but he's given it pretty constant wear, because he liked it.

It was a Stein-Bloch—price \$25—and it has cost him about \$6.00 a year.

We know of no better illustration of the economy of good clothes—especially Stein-Bloch clothes, because we know how good they are.

Best of all, is the satisfaction of being well dressed—money doesn't always ensure that.

Better look over our smart Stein-Bloch models this week. The assortment is stronger than at any previous time this season. We think you'll find a fabric and style that will please you.

The Playhouse

Only four more opportunities remain for lovers of high class drama to see one of the very best offerings that the stock stage has to give. The piece is interesting from curtain to curtain and is worthy of packed houses at the remaining performances. The Drama Players and their season here on Saturday night and in their concluding week's engagement, they are giving the most artistic interpretation of Augustus Thomas' drama, "The Witching Hour," and it is expected that their many admirers and friends will turn out in large numbers to bid them a fond farewell, as well as to express in a way their appreciation for their truly excellent work during their season of 21 weeks. Order your seats now. Phone 511.

Academy of Music

Augusta Perry & Co. in "The Banker, Thief and Girl," a melodrama of the highest class, with many new and bright situations and stirring climaxes, will be the attraction at the Academy of Music tonight and tomorrow. This is one of the best plays in Miss Perry's repertoire, having met with much success wherever presented. Miss Perry and Walter Downing will play the leading roles. Vaudeville and pictures will also be given between the acts.

NEW SODA FOUNTAIN

Beautiful "Innovation" of Italian Marble Installed in James J. Gallagher's Store

James J. Gallagher, the well known confectioner and fruit dealer, with quarters at 262 Merrimack street, is making a new departure in his line of business, having just installed one of the best soda fountains in this city. It is located in beautiful Italian marble front, sides and top, and all the fittings are made of nickel. Porcelain vats are attached for keeping the ice cream and there is also a cooling apparatus. This fountain is beautiful in looks and is right up to the minute in modern appliances. It is also hygienic in every part as there is nothing concealed where any dust or dirt might accumulate. It is also provided with generators for the formulating of the carbonated soda, and Mr. Gallagher feels that there is a great demand for this delicious beverage that stimulates the drinker. It is "Jimmie's" long association in the temperance cause, and has done much to promote temperance in our city, and now not only by his voice but in a more practical way he encourages the temperance cause by supplying the public with the finest carbonated drinks made from the purest of fruit flavors. In the very near future it is his intention to furnish and fit an ice cream parlor in the rear of his store, so as to be able to serve the choicest ice creams that can be made. There never was a time when soda and ice cream were more popular than at present, and Mr. Gallagher is out to supply the wants of the public in that line of business. The choicest lines of confectionery can be obtained, also, the best brands of cigars at this establishment. We wish Mr. Gallagher success in his new venture. Mr. Gallagher's store is located next to the new Y. M. C. A. building.

France Shy \$10,000,000

PARIS, April 25.—The deficit in the French budget for 1913 will amount to \$10,000,000, while in 1914 it will be necessary for the French government, in order to meet the conditions to the national armaments, to borrow \$200,000,000, according to a letter to the Martin from Senator Emile Almond, who has been appointed to draw up the report of the budget committee.

Paper Burns as Daniels Speaks

RALEIGH, N. C., April 25.—Fire broke out in the basement of the News and Observer building at 5:10 p. m. and in a few minutes the building was considered a total loss. The mailing files were probably the only things saved. The News and Observer is owned by Secretary Daniels of the navy department. Mr. Daniels was speaking at the dinner of the Newspaper Publishers in New York during the time of the fire.

"FRESNO DAN" IS ANGRY

Over Expense and Treatment in Russell Case

BOSTON, April 25.—A legal battle for a son's slice of the remnant of the \$500,000 Daniel Blake Russell fortune is being planned by "Fresno Dan," the estate's accepted "long missing son and heir," who for three years has been pitted against "Dakota Dan" in an effort to convince the Massachusetts courts that the latter is an impostor.

TUNIS INVADED BY 16,000

GARES, Tunis, April 25.—Sixteen thousand natives of Tripoli have entered Tunisian territory and are encamped near Unhat, close to the frontier. They have refused to listen to Italian officials who were sent to bring them back to Libya, promising full amnesty and other inducements.

THE WAITTS SEPARATE

Each Other

BOSTON, April 25.—Mr. and Mrs. Albert H. Waitt of Newton have surprised their friends by signing a formal agreement to separate without prejudice and permanently live apart. Mrs. Waitt has taken apartments in a Back Bay hotel with her maid, leaving Mr. Waitt in possession of the Newton residence.

Friendly Agreement

The friendly agreement to part, said to contain clauses quite complimentary each to the other, was signed in the office of Attorney Chester W. Ford yesterday, admitting that he was the attorney in the case. Mr. Ford declined to discuss the separation agreement or to permit its interesting text to be made public.

Mrs. Waitt's only public statement, made yesterday in the presence of friends, is: "I have only good things to say of Mr. Waitt. We have been married some years. I was but 17 years old at the time of the marriage. As seasons passed it became apparent that

we were in many ways not suited for each other. We discussed the matter many times, seriously and without malice and agreed that we could be happier apart, and as there is nothing to prevent such a trial divorce we have entered upon the arrangement."

The attitude of Mr. Waitt is quite the same. He said: "I wish Mrs. Waitt the best fortune and all happiness. She is a splendid woman. If I am not her type of husband and if she is not my type of wife, it means that we are unsuited for each other, and as we have agreed to separate, I would not for the world have any notion created that our separation is in derogation of Mrs. Waitt, than whom no more deserving and cultured young woman lives."

Illle Class Supper

There was a good attendance at the annual supper and social of the Matthews Bible class recently, and the affair was a success in every way. Mr. John Marsh called the gathering to order and spoke briefly, welcoming the guests. The program included the following: "The Book We Study," address by Mr. Eli Turner; "The Parent in the School," Rev. J. T. Ulom; "Our Sunday School," Mr. Joseph Wilcox; Rev. N. W. Matthews, pastor and teacher, concluded with a few timely remarks. There were several vocal and instrumental solos.

CLEAR AND CLEANS ERUPTIVE SKINS

Try this reliable treatment for acne, pimples, blackheads—all unfortunate skin conditions. Wash the skin with pure soap and water, as hot as can comfortably be borne. Follow by a thorough douching with tepid water. Rub Sulpholac well into the pores, leaving an excess on the surface of the skin. Marked benefits will show in a week or less, and the most obstinate cases of skin trouble yield to the influence of this remedy. It's the sulphur combined with a valuable germ destroyer that makes Sulpholac so different in character and so unusually successful in its work. Physicians have prescribed Sulpholac for years. You can get it now at all druggists. Generous jar for 50c with directions. Free sample if you write Hudson & Co., Inc., 145 and 151 West 36th St., New York City.

POPE IS MUCH BETTER COBB SIGNS CONTRACT

Pontiff Showed Great Improvement Today

ROME, April 25.—Pope Plus is much better today and Cardinal Merry Del Val, the papal secretary of state, has requested the Right Rev. Joseph Schrembs, bishop of Toledo, to advance to tomorrow instead of Sunday the date of the audience the cardinal is to give to the American pilgrims under his charge. At the same time the cardinal informed Bishop Schrembs that the pope was suffering from the consequences of an attack of grippe which would have passed unnoticed if it had affected an ordinary person.

SEWER PIPE CONTRACT FLOOD IN LOUISIANA

Purchasing Agent Has Railroads Cut Off and Puzzling Problem Towns Endangered

Purchasing Agent Foye is doing jump tall old figuring on a sewer pipe contract. Bids were opened a day or two ago and E. A. Wilson & Co.'s and Edward Cawley's bids were so close that the purchasing agent is in somewhat of a quandary. Different sizes and lengths and different grades were called for and there are two ways of figuring in order to arrive at a total. One way it figures in favor of Mr. Cawley and another way in favor of E. A. Wilson & Co. The thing that is likely to turn the tide in Mr. Cawley's favor is the fact that he makes mention of Portland pipe and Mr. Wilson doesn't make any mention of it. The sewer department is already late in getting down to business and the fellow who can get the pipe on the ground in shortest order is the fellow who in all probability will get the job, and the scales are in Mr. Cawley's favor because he can have Portland pipe on the ground in three or four days while there is no telling how long it would take to get the other pipe from the west.

Dun's Review
NEW YORK, April 25.—Dun's Review tomorrow will say: Although there is still some loss in the comparison of bank exchanges with a year ago the exhibit this week is somewhat more favorable than the preceding statement total clearings at all leading cities in the United States amounting to \$2,772,620,544, a falling off of 2.7 per cent. as compared with the corresponding period last year.

MELVILLE, La., April 25.—The Frisco railroad between Baton Rouge and Opelousa and the Southern Pacific branch between Baton Rouge and Lafayette will be cut by the flood waters and the Texas & Pacific between Plaquemine and Melville will be endangered. The towns of Latania, Bowie, Livonia, Lottie and Fardache, probably will be inundated. The crevasse at Krotz Springs is expected to relieve all danger of flooding Melville and other towns on the upper Atchafalaya.

J. W. FLETCHER LEFT A WILL

Continued

charge, said she could not answer those questions; that her orders were not to give out any information concerning the funeral and she obeyed orders to the letter. There were five carriages at the funeral, containing, it was stated, relatives from Maine and friends from this city and from Boston. Miss Annie L. Coolidge, niece of the deceased, was the only relative present from this city, and it was Miss Coolidge who made all the funeral arrangements. Miss Coolidge went to Boston yesterday and claimed the body. She gave as her reason for observing secrecy her desire to frustrate the curiosity seekers who might be called to the place by the notoriety that has been given the affair.

John Fletcher's Will

The will of John William Fletcher, porter that the estate left by the

was filed by Judge Frederick A. Fisher of this city in the East Cambridge probate court yesterday just before closing time.

Undated, except for the year 1906, written in pen and ink in a handwriting different than the signature, the document bequeathed practically all of the estate to Cameron A. Patchin, at the same address, 35 West 42nd street, New York city, where Fletcher had another luxurious suite and practiced palmistry.

The unusual tenor of the will has led to the belief that it will be contested. May Total \$35,000

Strength was given to this rumor when Attorney F. A. Fisher of Lowell, who drew the document, was in conference with Medical Examiner Magrath yesterday.

Attorney Fisher, last night, following his return to Lowell, stated to a reporter that the estate left by the

ist might amount to more than \$35,000. While the relatives of Fletcher are to receive small sums, the great bulk of the estate is designated to Patchin. This includes his valuable jewelry and tapestries and rugs, which have yet to be appraised.

The will specifically states and provides that in addition to receiving these jewels, Patchin is to receive annuities and finally, after six years the entire residue of the estate, which is to be converted into a trust fund after the family and other small bequests are taken out.

Fletcher leaves to his aunt, Laura A. Abbott of Concord, N. H., \$500 and the family homestead at 49 Powell street, Lowell.

To Daniel T. and Nancy Mason of Northridge, Me., he bequeaths \$1000. To Annie L. Coolidge of Westford, \$1000. His mother's physician, Dr. Ransom A. Greene, of Lowell, is left \$1000. Albert H. Howe of Reno,

Nevada, is bequeathed a number of personal effects, including jewelry and a ring formerly belonging to King Ludwig of Bavaria.

Thomas H. Peterson, his colored man-servant, is to receive \$2000 as a "reward of faithful service," and it is designated that the money is to be paid within a short time after his death.

Practically the entire balance is left to C. Patchin. To him is left practically all of his rings, diamonds, pearls, turquoise and the greater part of his extraordinary collection of jewelry. Patchin receives also practically all of the tapestries, Persian rugs and furniture and silver plate which belonged to Fletcher at the rooms at West 42nd street, New York. He makes Patchin a further bequest of \$1000 to be paid within 30 days after Fletcher's death.

The will provides that if Patchin should survive Fletcher he will receive \$200 every three months from the date

of Fletcher's death for a period of three years. This money is to come from the trustee, who is delegated to convert all the remaining property, after the gifts are taken out, into a trust fund from which Patchin is to receive the legacy.

In addition he further provides for Patchin by relegating his trustee to pay him in half-yearly payments the net income from this trust. This gift is to continue for three years more. At the end of six years all of the trust is to go to Patchin. If Patchin dies within six years of Fletcher's death the trustee is directed to convert all of the trust funds into ready money and pay the net proceeds to the Lowell General hospital for the establishment of free beds.

These are to be known as the Abbie E. Fletcher beds, in memory of the testator's mother. Preference is to be given to women patients 50 years of age or over.

The will was made by Fletcher while

he was living in New York and he names and appoints Charles Knapp of Lowell, treasurer of the Middlesex Safe Deposit & Trust company, as executor and trustee.

The will directs Knapp as executor to gather all his property, consisting of bonds, stocks, jewelry, real and personal estate, and convert it into the trust fund mentioned in the will.

The will is witnessed by three New York men—C. W. Kennedy, H. L. Atkinson and F. W. Bowman.

The valuation of the estate is problematical.

Lowell Relatives

It was stated in the Boston papers that Frank Leveroni as public administrator applied for letters of administration yesterday on the ground that Fletcher had died intestate and had no heirs living in this state. Mr. Leveroni learned that Fletcher had relatives in this state so he gave the matter up.

Fletcher's uncle, Frank Fletcher, and his niece, Miss Annie L. Coolidge, are the only relatives living in this state.

Performed Autopsy

Medical Examiner Magrath performed an autopsy on the body yesterday at the North Grove street morgue. The doctor found that Mr. Fletcher suffered from chronic diseases. There were no traces of poison found in the body, with the exception of the stomach, which has been sent to Prof. Whitney for analysis. It is believed that he took a capsule filled with poison, which he had carried for some time for use in such an emergency as arose on Tuesday.

Dr. Magrath says that no statement will be made as to the cause of death until the chemical analysis has been completed.

The news of Fletcher's death has caused a sensation among the people who knew him and who consulted him professionally. His suicide to avoid exposure will have the effect of putting others who have been in the same business on their guard against the methods adopted by Commissioner O'Meara to drive them out.

BRANDEIS TO CONTINUE INQUIRY

Into New England Railroads Before Investigation Commission
—Mellen Letters Read

BOSTON, April 25.—Louis D. Brandeis, a leader in the investigation into the New England railroads now going on here and who has been withdrawn as the counsel for the Boston Fruit and Produce Exchange in that investigation, said today that he would continue as a party in the capacity of "a citizen of Massachusetts." Since the present hearing began Mr. Brandeis has appeared as the representative of the exchange and has conducted a greater part of the examination of witnesses. Yesterday the directors of the exchange adopted a resolution setting forth that he was no longer their counsel before the investigating commission.

Mr. Brandeis occupied some time in reading correspondence between the exchange and himself, showing how he came to enter the case originally at the request of the produce men. When he concluded Charles F. Choate, addressing Ward Prouty, who presided in the absence of his father, Commissioner Prouty, said that he also would appear as a citizen of Massachusetts. Mr. Brandeis immediately demanded to know if Attorney Choate represented the New Haven road or the New England Navigation company. Mr. Choate denied he was in the employ of any railroad, whereupon David E. O. Brown, the government's accountant, at the request of Mr. Brandeis read copies of two vouchers indicating that Mr. Choate had received \$13,000 from the New Haven road for legal services in 1908.

Examination of Accountant

The examination of Mr. Brown was then begun by Mr. Brandeis. The chairman announced that attorneys for the road would not be permitted to cross examine the witness during the absence of Commissioner Prouty. Figures read by Mr. Brown in answer to a question regarding the New Haven's advertising account indicated that from Jan. 27, 1911, to February, 1913, inclusive, the New Haven road had paid the Boston News Bureau \$55,528, of which sum \$32,000 was paid in December, 1912, and February last.

Mellen Letters Read
Copies of correspondence between

Mr. Mellen and Oakley Thomas of New York were read. One letter directed Thomas to acquire at least 66 per cent. of the stock of the projected New York, Westchester & Boston railroad and the New York & Portchester railroad and authorize him to decide which road it would be more advisable to construct. The letter indicated that the New Haven road would finance the operations.

In another letter to Thomas marked "personal" President Mellen asked if it would not be practicable, in view of the large amount of money already put into the enterprise, to raise further funds through an issue of mortgage securities of the Westchester.

Opposed Borrowing Money
"I do not want to go into the market and borrow money to a very much larger extent without being able to explain to my stockholders and the public generally the purpose for which the money is desired," he wrote. "You are aware that our dealings have been located dangerously near the minds of some to the enterprise with which you are connected and it would seem to me the part of prudence that if the matter is to be kept quiet the enterprise be further financed by its own issue of securities."

The books, Mr. Brown said, did not indicate that any construction work had been begun up to the time of this letter.

Name of Senator in Suit

ST. LOUIS, April 25.—The name of former Senator Joseph Bailey of Texas was brought into the proceedings in the suit of the National Bank of Commerce of St. Louis to recover \$1,500,000 worth of stock in the Nashville Terminal Railroad Co. A statement was made that without the knowledge of the bank directors stock was taken out of the bank and sent to Senator Bailey.

RED SOX MEET WILSON/PAY BANK DEPOSITORS

President Shook Hands Of Norwich Institution
With Each Player Which Closed

WASHINGTON, April 25.—The Red Sox, world's champions, went to the executive office today and met President Wilson, who shook hands with each player. "I forgive you for what you did to us yesterday," said the president with a laugh. "It went all right as long as I was there. You took advantage of my absence." The president referred to his early departure from the game to confer with Secretary Bryan. The Washington team was ahead when the president left.

WASHINGTON, April 25.—Depositors of the First National bank of Norwich, Conn., which closed its doors several days ago will be paid in full and a substantial part of the investment of stockholders will be saved, according to an official report to Comptroller Murray. Nat. bank Examiner Dean reports that the losses will not exceed \$33,000, leaving at least \$158,000 for depositors and the stockholders.

IS NEW TEMPEST BREWING OVER CALIFORNIA'S STAND ON THE JAPS?

SACRAMENTO, Cal., April 25.—Two new bills dealing with the question of land ownership by aliens in California, each representing the view of a considerable faction in the legislature, were scheduled to be offered and voted on by the senate. Through an agreement reached by leaders of the majority party a drastic law directed solely against the Japanese and Chinese was prepared as a substitute for the Thompson-Birdsall measure and probably will be passed. If not, an end will have come to the anti-alien land legislation at this session, floor leaders declare. It is now planned to throw out entirely the guarded language of the Thompson-Birdsall bill and put in its place two simple prohibitions—(1) No alien who is ineligible to citizenship shall be permitted to acquire and hold land in California for a period of more than one year after date of such acquisition; (2) no corporation the majority stock of which is held by aliens who are ineligible to citizenship shall be permitted to acquire and hold land except for one year. Secretary of State Bryan's telegram containing advice directly contrary to the present plan of action is taken only as an expression of opinion and not as interfering in any way with the state's right to act. The sentiment favoring an alien law has been non-partisan from the beginning, and it is doubtful if more than one democrat in the senate will heed the message from the state department at Washington when the measure comes to a final vote. Viscount Chinda, Japanese ambassador to the United States, is said to

Cured Capt. Burt's Eczema for 50c

Had Spent \$1000 in Va. Then a Jar of Resinol Cured Him

Franklin Burt, of 31 Fulton st., New York, late captain in the U. S. army, and a man whose standing makes his word absolutely beyond question, gives the following account of his cure by Resinol:

"I became afflicted with eczema twenty-five years ago. I did everything for it, but the itching and burning was so intense and continual that in 1892 I put myself in the care of a specialist. The result was of little or not any benefit."

Doctor Said "Get a Box of Resinol."

"About 1898 I called on the doctor to ask him if he knew of anything to cure me. He said, 'Get a box of Resinol Ointment.' I got it. The itching stopped as if by magic. By using the cure was perfected. I expended perhaps a thousand dollars, and endured real suffering for many years, and at last was relieved and cured in a month for the sum of fifty cents, the price of one jar of Resinol."

Better proof, even than such a letter, is to try Resinol yourself and see how quickly the itching stops and stubborn skin or scalp eruptions disappear. For free trial, write to Dept. 13-T, Resinol, Baltimore, Md. Every drug-store sells Resinol Ointment (50c and \$1) and Resinol Soap (25c.)

be in close touch with this government as to further steps of protest. Governor Johnson of California has issued a statement in which he defends his state's right to exclude the Japanese and Chinese from holding land. President Wilson took a definite and important step when he decided to appeal directly to Governor Johnson, asking him to urge the legislature not to act at this time.

CENTENARY OF PEACE Between United States and British Empire

LONDON, April 25.—King George today gave his benediction to the Anglo-American celebration of the centenary of peace between the British empire and the United States. His majesty received at Buckingham palace Lord Weardale and the other delegates of the British commission who will sail for America tomorrow on board the Caronia with the intention of consulting the committees in the United States and Canada. The king, who had expressed a desire to see the committee men before they sailed, heartily wished them a successful mission. He told them he was keenly interested in the peace celebration which he hoped would be of such a character as to draw still closer together the English speaking nations.

TAKE BODIES FROM RUINS

Rescue Parties Recover Mangled Bodies from Mine

Widows and Orphans Being Cared for by Agents of Mine

PITTSBURGH, Pa., April 25.—Rescue parties, working in the ruined Cincinnati mine of the Pittsburgh Coal Co., where an explosion occurred Wednesday afternoon brought 33 additional bodies to the mouth of the slope. Ten additional names were added to the missing during the night and while no official statement of the dead has been given out by the company the loss of life is placed by those at the mine at 115. The bodies were found buried under the fallen roof and until the debris is searched, which will occupy several days, the exact extent of the loss cannot be determined. The force of workers was increased this morning by volunteers from the district but as some parts of the mine are still filled with gas no complete exploration can be made.

Many of the bodies recovered were so mangled that it was feared they never could be identified. Preparations for those widowed and orphaned by the explosion are under way and for the present they are being looked after by agents of the coal company.

JUDGE RAPS LAWYERS

Scores Settling of Cases in Corridors

BOSTON, April 25.—Judge Michael J. Murray in the police court yesterday scored attorneys for settling cases in the corridors of the court house instead of before a justice of the court. William Shane of 213 Shawmut avenue, a painter, was summoned to court for withholding four days' pay from Benjamin Hurwicz.

While waiting for the case to be called it is alleged that Hurwicz's attorney induced Shane to pay the money due and then advised him to plead "nolo" when his case was called. Judge Murray refused to accept the plea of "nolo" from Shane and then ordered the case to be tried before him today.

UNITED IRISH LEAGUE

Expects to Send \$500 to National Treasurer in a Few Days for Benefit of the Home Rule Battle

The committee of the United Irish league which had charge of the recent public meeting held a meeting last night and decided to send the money on hand to the national treasurer before May 1. A few of the contributions promised are still to come, in but they are expected within a few days and then the remittance of \$500 will be made for the benefit of the home rule battle. A vote of thanks was tendered to Mgr. O'Brien, Humphrey O'Sullivan and the other contributors of material sums for the benefit of the fund.

PUBLIC MEETING

LOWELL SOCIAL SERVICE LEAGUE MET

Held Open House and the Speaker Was C. F. Hall of Pawtucket, R. I.—Large Attendance

An open meeting was held last night under the auspices of the Lowell Social Service League in one of the class rooms of the Y. M. C. A. The affair was largely attended and the meeting was presided over by Rev. C. F. Billings, while the speaker of the evening was Charles P. Hall, general superintendent of the Associated Charities of Pawtucket, R. I.

A meeting of the board of directors was held at the close of the address and ways and means were discussed, and the committee that has under consideration the question of engaging a trained social service worker, was instructed to make further investigation and report back to the board one week from tonight.

The public meeting was called to order by Rev. C. F. Billings, who introduced Mr. Hall, saying the latter was asked to come here because his work is being done in a city similar to Lowell in many respects. Mr. Hall spoke at length on the league's doings, and said "The giving out of food and clothing is merely an incident, and a comparatively unimportant incident in the work of the Associated Charities."

"Primarily the object of such an organization is to rehabilitate families and individuals; to give friendship where friendship is needed; and advice when advice is sought; and to build up such a condition that the individual or the family, as the case may be, will maintain self-respect and get back to a self-supporting basis. Often, the giving of food and clothing is an initial step."

There are three kinds of relief. There is emergency relief, which is charity's first aid to the injured; then there is what we call adequate relief, which builds up and conserves the life of the individual and of the family; and there is radical relief, which is preventive in its nature.

It has been demonstrated that trained workers are necessary to the carrying on of such work. Moreover, that sort of thing cannot be

M. T. I. BACHELOR GIRLS MADE GREAT HIT

In Their Song Revue at
Associate Hall Last
Night

MISS MADELINE BOLAND
Soloist

The M. T. I. Bachelor Girls, an organization composed of popular young women of this city, scored a tremendous success at Associate hall last night, when they presented a musical song revue. The hall was literally filled and seldom has such an enthusiastic gathering been seen in a local hall. Of course there was a reason for the decorations in the hall were splendid and when the curtain obstructing the view of the stage was raised, the scene presented was one of the most beautiful witnessed here for a long time.

Drive Headache Away With Musterole

A headache remedy without the dangers of "headache medicine." You run no risk when you use MUSTEROLE to relieve that headache and miserable feeling from cold or congestion. And it acts at once! MUSTEROLE is a clean, white ointment made with oil of mustard. You rub it on the forehead and temples. Better than a mustard plaster and does not blister. Used only externally, and in no way can affect stomach and heart, as some internal medicines do.

Best for Sore Throat, Bronchitis, Croup, Stiff Neck, Asthma, Neuralgia, Congestion, Pleurisy, Rheumatism, Lumbago, All Pains and Aches of the Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet, Colds of the Chest (it prevents Pneumonia).

At your druggist's in 25c and 50c jars, and a special large hospital size for \$2.50.

Accept no substitute. If your druggist cannot supply you, send 25c or 50c to the Musterole Company, Cleveland, Ohio, and we will mail you a jar, postage prepaid.

Mrs. F. R. Snyder, Brooklyn, N. Y.: "Have been helped many times by Musterole when I have had severe headaches."

trees in full blossom, while Japanese lanterns lent their soft glow.

The program consisted of catchy songs and clever dancing, followed by general dancing, and much enjoyment prevailed throughout the evening. The opening chorus consisted of a speedy parade of the current song hits, and was well received.

Miss Elizabeth Latham sang in fine style, "When It's Apple Blossom Time in Normandy," and she was ably assisted by eight young women, four of them topped out as very classy boys.

These were Misses Molly Peterson, Mae C. Gallagher, Elizabeth Sullivan and Isabelle Burns. Their companions were Misses Lena Sheehan, Catherine Malone, Estelle Corcoran and Lydia Gallagher. This number was encored several times, and finally Miss Latham was presented a huge bouquet of roses and pink.

Another pleasing number was that of Miss Etta Brown, who wearing a blazing red jacket and carrying a suit case in her hand, sang "I'm Going Back to Carolina." The song was greeted with great applause and the singer was the recipient of a pretty bouquet.

Other numbers included an Irish song, "Be Sure He's Irish," by Miss Marion Nolan, and a sentimental song by Miss Jennie Wynn, who delighted her audience with "Then I'll Stop Loving You." Miss Madeline Boland sang "Whistle It," and concluded her number with a lip refrain. A duet song, "When I Get Back Again to Bonnie Scotland," was given by Miss Lillian McPherson, kille and all.

A quartet of dancing Scotch maidens appeared during the song. They were Misses Eleanor Reardon, Anna McHale, Mae Doughty, Marion Devine, Mae Borie, Helen Buckley, Mae King and Julia Boland.

Miss Rose Nicholson sang "When I Look You," a number of rather melancholy sentiment, and Miss Elizabeth Latham came back for her second number of the evening with "Meet Me Tonight." Both were well given and received.

Miss Lena Sheehan was attractive singing "When Irish Eyes Are Smiling," and the good old Irish number, "Molly O'Halloran," by Miss Eleanor Buckley, with colleens and gossoms, was one of the big hits of the entire show.

The colleens were Misses Mae Boyle, Helen Buckley, Mae Doughty and Mae King, and the gossoms were Misses Elizabeth Heald, Anna McHale, Marion Devine and Julia Boland.

The finale of the performance was "Good-bye, Boys," in which novelty dances were introduced under the direction of Miss J. Blane. The orchestra furnished music during the show, and the director was William T. Gilmore, who presided at the piano.

The members of the Bachelor Girls club are: Misses Mae C. Gallagher, Mae C. Gallagher, Catherine G. Malone, Jennie Wynn, Eleanor Buckley, Madeline Boland, Lena Sheehan, Mae Boyle, Isabelle Burns, Molly Peterson, Elizabeth Sullivan, Mae King, Marion Devine, Etta Brown, Ethel Dockett, Ellen Flannigan, Helen Buckley, Etta Flannigan, Marion Nolan, Julia Boland, Rose Nicholson, Anna McHale, Agnes Nicholson, Katherine King, Cealla Lanone, Mae Doughty, Lillian McPherson, Estelle Corcoran, Lydia Gallagher, Elizabeth Latham, Eleanor Reardon, Mae Boyle.

After the show there was dancing until midnight. The officers of the dance were: General manager, John J. Guthrie; assistant general manager, John E. O'Neill; door marshal, Bernard A. Connors; assistant door marshal, Frank H. Kelly; aide, Peter F. Brady; treasurer, Edward A. Welch; John Mulder; James J. Gallagher; James E. McKoon; James F. Rourke secretary.

ACHES, SPRAINS,
BRUISES, PAINS

New Method for Treatment

HEAT, OIL AND ANODYNE

25c Home Treatment. Similar in Effect to Famous Hot Springs!

Baseball players are fond in their various injuries of Page's Oil Liniment. These boys certainly have used Page's Oil Liniment for real good liniment and they are learning that Page's Oil Liniment is the best. Bert Wreden on last year's Lynn home team used Page's Oil Liniment for sprains and bruises and speaks very highly of it.

J. P. PAGE
104 Union St., Lynn, Another member of that team. Ollie Britton, had a streak of rheumatism last year, but Page's Oil Liniment knocked it out. Jerry McGovern, manager of the team used it and is high in his praises of it. Johnny Strand used it and Red Walker, a pitcher, used it. "Chic" Carro, the famous short stop who is a Lynn boy, writes as follows: "I have used Page's Oil Liniment for stiffness and sore joints and can truthfully say that it is the best I ever used in the 14 years I have been playing baseball. Some stop and think for a minute—these ball players are people who absolutely must have the best liniment. Something that will produce a quick and positive result in relieving pains, strains, aches and bruises. What is good for them will be good for you."

Doctors and nurses praise Page's Oil Liniment. The heat method of applying it is very simple and produces nothing but pleasant effect. It is fully explained on the wrapper of this bottle and a bottle of Page's Oil Liniment only costs 25c or 50c. Yet it produces an effect similar to that of the famous and very expensive Hot Springs treatment.

As I write this article I have before me letters from many people which I wish I had room to publish in this paper. One is from a young nurse who was given up to die from inflammatory rheumatism, but Page's Oil Liniment saved her life. Another from a woman who was on crutches for six weeks and tried everything without relief. Page's Oil Liniment conquered her rheumatism. Another from a man whose face was swollen to twice its normal size from neuralgia. Page's Oil Liniment conquered the neuralgia.

Another was a case of gelata—a other neuritis—another tonsillitis, any quantity of rheumatism, chronic rheumatism, various rheumatic aches and pains.

Chills, lumbago, stiff knees, back pains, sprained ankles and a host of other aches and pains. Page's Oil Liniment applied by the heat method has banished them.

If you have a pain or an ache I urge you to start with Page's Oil Liniment without further delay.

ON TIME

(From the Boston News Bureau, April 23, 1913)

Steady improvement is being made in promptness of their passenger traffic movement by the New England Lines, both north and south. At the South Station the time-record for the fast trains from New York is especially interesting. With the Bay State (which, by the way, enjoys the reputation for the best record of any "limited" in the United States), there has not during the current month been a minute's delay in bringing this train into the South Station. In the case of the Merchants train,—the entire equipment of which is now all-steel,—there have been only two April delays, of one and four minutes, in its arrival at Boston.

Since February 1 tickets for the New Haven's "limited" service between Boston and New York—consisting of the Bay State, Knickerbocker and Merchants, three daily trains each way—have carried a provision for a \$1 price-rebate for a delay of over 30 minutes in reaching destination. During this period, however, there have been but 10 "excess" delays, seven of which were in February, and the trains for the most part have been kept practically on time. During the present month, for instance, their delay in arrival at Boston has aggregated but 23 minutes, consisting of seven, eleven, one and four minutes respectively.

FUNERALS

QUINN—The funeral of the late William Quinn took place yesterday afternoon at 2 o'clock from the chapel of J. F. O'Donnell and Sons. At the grave Rev. Joseph Curran of St. Patrick's church read the committal prayers and the burial was in St. Patrick's cemetery in charge of Undertakers, J. F. O'Donnell & Sons.

MELVIN—The funeral of Susan J.

Melvin took place yesterday afternoon from the funeral parlors of Undertakers Young & Blake. The services were conducted by Rev. Mr. Ellis of Crelmford Centre. Burial was in Pine Ridge cemetery at Chelmsford, where the committal service was read by Rev. Mr. Ellis. Arrangements were under the direction of Undertakers Young & Blake.

ROTH—The funeral of William Roth took place yesterday afternoon from the home of his parents, Mr. and Mrs. Martin Roth, 238 West London street. Services were conducted by Rev. Nathaniel Matthews, of the Gorham Street Methodist church, at the home, and afterwards at the grave in Westlawn cemetery. The bearers were T. Conly, F. Corley, G. McNulty and J. Baxter, playmates of the deceased. Flowers were placed upon the grave from the parents, the London street school, aunt and cousin, of Providence, R. I., Brewery Workers union, engineers and firemen of Harvard brewery, Mrs. Pauly, Mr. and Mrs. McMahon, grandmother, Mr. and Mrs. Michael Roth, Mr. and Mrs. Creehan and family, Mr. and Mrs. Gottlieb Woessner, Mrs. McNulty and family, Mr. and Mrs. Lehigh of Haverhill, Mr. and Mrs. Laura and family, Mr. and Mrs. Burkhardt, Mr. and Mrs. Thellitz, Mr. K. Grundler, Mr. and Mrs. John Becht, Mr. and Mrs. Michael Heller. The funeral was in charge of Undertaker Charles H. Molloy.

Manager Birmingham is playing a slashing game himself this year for the Naps. Yesterday he worked the squeeze play on the "we don't need Cough" for the fourth time this year. It looks from the sidewalk as though the certain ball player from Georgia would fit in rather nicely with the Detroit club. Four defeats in a row does not seem to indicate strength. President Xavin is acting like a schoolboy when he persists in saying that he does not care whether Cobb signs up or not.

Joe Ferrin, with Fall River the latter part of last season, will be even in the Portland lineup this year. He has been booked by Huddell to play the center garden and will report the first of next week. Joe played a good game for Fall River, hitting for over .300, and is a fast man on the bases. He is a student at Tufts Dental school and will finish up his last exams today. Ferrin was a member of the Lawrence high school baseball team when George Mahoney was captain of the local school aggregation, and proved the only stumbling block that Mahoney's team met during its season. He was with the Lowell New England league team the early part of last season, and has many friends in this city who will watch his work with great interest.

Steve Kennedy of Lawrence went right after Young Britt of Pittsburgh in their scheduled 12-round bout at the Unity Cycle club of Lawrence last night, and kept at him with both hands. The Pittsburgh boxer did last out the second round. Either Ken-

nedy is in better shape than he ever was before or Young Britt was some "quicksift." You can all have two guesses.

Young Stone has been matched to meet Billy Corran at the opening of the new boxing club in Boston at the Boston Arena next Tuesday night. Stone is now under the management of Billy Wood and should travel right along. Billy has had years of experience in the game and will bring out all that there is in the local boxer.

Owing to the sudden sickness of Young McDougough, Joe Egan will be Matty Baldwin's opponent at the Manchester club on next Tuesday night. Young McDougough took quite a beating from Egan last week and is apparently laying off for a while to recuperate. This boxer is just as apt to come back out as many old-timers. Boston scrappers in their next contest, for he has one of the most peculiar records in this respect that the squared arena boasts of. McDougough will be beaten by a fighter and come back several weeks later and hammer the previous conqueror all over the ring. McDougough has many of his battles in very poor physical condition.

RED SOX RALLY IN NINTH BRVES WIN IN 12 INNS.

Score 4 Runs and Win
by Score 6 to 3

The world's champions won their game with Washington yesterday in a ninth inning rally which netted them four runs and a three run lead. Groom was touched up for long hits in this session.

Bedient pitched a good game for Boston, the dozen hits that Washington made being scattered. The Red Sox twice tightened up in the pinches with his team playing good ball behind him. Wagner's error was the only misplay which either team made during the nine innings.

Gardner and Engle both got their hits apiece for Boston. Engle lining out a double and a three base error as well as a single. Carrigan allowed four bases to be stolen on him. The score by innings:

Boston 0 1 0 0 1 0 0 4-6
Washington 0 0 0 0 2 0 1 0-3

Two base hits: Gardner and Engle. Three base hit: Carrigan. Left on bases: Boston 1; Washington 1. First base on balls: By Bedient 1; By Groom 3. First on errors: Washington 1. Struck out: By Bedient 3; By Groom 3. Time: 1:55. Umpires: Dineen and Hart.

LOWELL DEFEATS DOVER

In Exhibition Game by
Score of 7 to 1

The Lowell team went to Dover yesterday and defeated the semi-pro team of the town by the score of 7 to 1. The New Hampshire aggregation could do nothing with either Weaver's or Zeiser's offerings, three hits being the total that were gleaned from the Lowell slabs.

The day being a holiday and so warm, brought out a large crowd to the game. Some 1500 fans saw their team go down to defeat, but enthusiasm ran high whenever the home team seemed to take a brace. They didn't have a chance, however, with both Weaver and Zeiser pitching gilt edge ball.

Smoyer, Dea's rival for the shortstop job, Miller and Monahan all connected twice for safeties. Monahan's work behind the bat showed that he has taken advantage of the warm weather to get down into league form again.

SOUTAR AND WILLIAMS TO PLAY
FOR WORLD'S RACKET CHAMPIONSHIP

PHOTOS BY AMERICAN PRESS ASSOCIATION

PHILADELPHIA, April 25.—The second half of the racket match for the professional championship of the world between Jack Soutar and Charles Williams of England will be played at the Philadelphia Racket club May 3. In the first half of the match, played in London, Williams was close and fast, the margin between the two played in the six games being only five aces.

Soutar will have a big advantage in the second half, as the games will be played on his own court. Williams won the title from James of India three years ago.

Loughry just how they work. The Philadelphia, on the other hand, has put in a great deal of work and avers that he will be there with the count and feels confident that he will stop the erstwhile Californian. They will perform for twelve rounds, providing of course that a "ten second" is not slipped over. As Bill Collins of Pawtucket, R. I., will not appear here tonight, owing to injuries received while training, Matchmaker Gardner has substituted Young Smith of Manchester, N. H. to meet Terry O'Rourke of Lawrence in the semi-final bout.

Williams will participate in one of the preliminaries and Young Brennan and Kid Pappas will meet in the curtain raiser.

THE LIPTON CHALLENGE
Now Before Committee
of Yacht Club

NEW YORK, April 25.—The New York Yacht club at a meeting last night to consider the challenge of Sir Thomas Lipton for the America's cup, voted to leave the entire matter of acceptance, or rejection, in the hands of a committee of 12 members of the club of which Commodore Dallas B. Pratt will be the chairman.

Has Full Power
If the committee votes to accept Sir Thomas' challenge under the deed of gift, the club last night provided that it be empowered to arrange the details of the acceptance and the conditions of the race.

The Royal Ulster Yacht club, through the agency of which Sir Thomas forwarded his challenge in another attempt to lift the America's cup, it was announced by the New York Yacht club last night, had appointed a committee with similar power.

About 250 members of the club attended the meeting and 35 yachts voted. Among the members present was J. P. Morgan, who was appointed a member of the committee to consider the club's action with reference to the challenge. The other members of the committee are: Lewis Cass Ledyard, E. D. Morgan, Cornelius Vanderbilt, Henry Walters, G. Oliver Iselin, C. Ledyard Blair, George W. Baker, Jr., Arthur Curtis James, W. B. Duncan and G. A. Cormack.

Lord Shafesbury, commodore of the Royal Ulster Yacht club, heads the committee through which Sir Thomas will make his plea for another race. The challenge is an open one with no restrictions, which resulted in the previous challenge being rejected.

Same Conditions as Before

It specifies that the races shall be subject to the same conditions as the last contest, in which he was defeated, namely the best three out of five races, the first to be sailed Tuesday, Sept. 10, 1912. The other races, it provides, are to be sailed on each of the following days, Saturday and Tuesday until finished.

The result of last night's meeting of the New York Yacht club was cabled to Sir Thomas Lipton. As none of the members of the committee that is to have full power with regard to the challenge has been officially notified of its appointment, no statement relative to when the challenge will be considered could be given out. It was expected, however, that a formal reply to Sir Thomas would be ready within a couple of weeks at the latest.

The name of the challenger will be Shamrock IV, with a length on water line of 75 feet and of cutter rig.

RUBE DE GROFF IS WITH US

Lowell's Star Rightfielder
Blew Into Town
Yesterday.

DeGroat is with us again and is the same three ring performer as last year, to judge from his exhibition yesterday during the practice at the ball park. Rube is considerably overweight but looks as though he would be down to playing form without much loss of time. He will be used this afternoon in the game with Textile and will have a chance to get some of that surplus energy out of his system. DeGroat is some clown when he lets himself out. There are very few ball players who can get away with the stuff that this player does in a game. To begin with baseball isn't a vaudeville show and spectators are not there to watch anything but baseball, as a general thing. The Rube, however, has made a decided hit in Lowell since joining the local team with his bag full of tricks. Another thing that gets this player by with his laughable antics is his ability to play ball for there is no denying that the husky outfield is right there with the big club when it comes to driving out a hit, as his record in this league last year plainly demonstrates. DeGroat's arrival is a big help to Manager Gray just now when the most trying period of a manager's existence is at hand, the choosing of his team.

HUNT FOR MISS BORDEN

Warrant Must be Issued
by Father

NEW YORK, April 25.—The central office refused today to instruct the detectives of New York city to join in the search for Romana Borden, 17-year-old daughter of Gall Borden, the millionaire milk dealer, who disappeared Wednesday afternoon from a sanitarium at Pompton Plains, N. J.

"It will be impossible for detectives of the New York police department to take action in this case until a warrant is issued," two central office men told Mr. Borden today.

A warrant charging your daughter with waywardness, or one charging abduction will have to be issued first.

Mr. Borden, it is understood, is averse to issuing a warrant. He said he would call at police headquar-

ters later in the afternoon and by that time probably would have decided what to do. Meantime the police have offered to send out the customary general alarm issued for missing persons, for Miss Borden. A report was circulated this afternoon that Miss Borden had been found in New York by a detective agency employed by her father, but this was not verified. It was said that private detectives were awaiting the filing of formal charges against her alleged kidnapers before disclosing her whereabouts.

GAVE JOHNSON CHANCE

Burns Says He Feared
Negro Fighter

Tommy Burns feared Jack Johnson and gave the big negro fighter his chance at the title only because the newspapers forced him to do so.

Tommy admits this freely in a letter to a friend in Chicago. Burns says he believes every boxer in the world has some one man he is sidestepping and doesn't want to fight. He then goes on to say that Johnson always had his goat and that he never had any idea of fighting him.

Indeed, Tommy made the price for meeting Johnson so high, as he thought at the time, that no promoter in the world would have the courage to make a bid for the match. But Tommy was tripped up on that, and then when he was cornered he had to make the match and go through with the fight.

Further, Tommy freely admits that he is mighty sorry now that he ever did such a thing, and it will be a long regret to him. Still, as an afterthought, Burns expresses the opinion that he would have won from Johnson at that had the battle been permitted to go along to the finish and had not been stopped by the Sydney police.

In this connection it may be said that the police officials jumped into the ring only because Johnson's seconds set up a hubbub about the cruelty of the affair and kept calling "Police" and "Stop it" for three or four rounds. Rudy Unholz, the lightweight fighter, was one of Johnson's seconds and had a swell bet on the black man. Hence his anxiety to win it.

Burns wants to protest about his being rapped over the knuckles for trying to hog it all in the supposed match with Luther McCarty. Burns says he oughtn't to be blamed for trying to get his price for boxing. Further along he says he believes McCarty is afraid of him, and it was this statement that brought out his confession about the Johnson match and the incidents leading up to it in Sydney, N. S. W.

Here is part of what Burns says in his letter:

"Freely I admit that I didn't want to meet Jack Johnson and was sidestepping right along. I made the price so high that I never thought any one would offer it. Then the press kept after me so strong that I couldn't get away. Finally when an American promoter offered me the price I demanded I decided to take a chance. For that I am very sorry, but after I learned the condition that Johnson was in at Marley hospital the day after the contest I believe that I could have won had the battle been permitted to go along.

"But at the same time the press is to blame for the match, as I was practically forced into it.

"The syndicate that offered the purse for Wells and me was an organization in which I had no part at all. I asked for \$25,000 out of the \$37,000 offered, as I believe a boxer should get all that he can at all times. He is worth exactly what he draws, and I would be a great card there. The syndicate fell through, but if the money had been posted it would have been out in a satisfactory manner to Wells.

"As for McCarty, if I could see my way clear to giving him the guarantee of \$25,000 that he insists upon I would do so, but it is impossible here. I offered him \$10,000 with the privilege of 25 per cent. of the gross, but he never answered the wire. He said something about wanting a guarantee of \$15,000 and a privilege of 50 per cent. of the whole house, but even this was exorbitant for a match of only ten rounds. I offered to make it a decision or no decision just as he liked.

"Since he doesn't match here in Chicago I am willing to box him ten rounds in New York. Note, too, that when McCarty and Palmer boxed in Los Angeles they drew only \$25,000, so on that basis Luther shouldn't be so set in his terms."

TEWKSBURY

Miss Hannah Chandler, who has been ill at her home on Pond street, is improving slowly.

Mr. Walter Robinson, who met with an accident some time ago, is gradually recovering and is able to walk out these splendid spring days.

The entertainment given in Pickering hall, Thursday evening, by the pupils of the library school, was one of the most enjoyable affairs held this season. Great credit is due Miss Wain for her untiring efforts to make the evening a success and that her efforts were appreciated was plainly shown by the large number present and the frequent bursts of applause.

Little Elsa Anderson in her two read-

ings deserved all the favorable recognition which was given by the audience. The Dutch kiddies in the folk dances were greatly enjoyed. The program was an excellent one. The proceeds, which amounted to nearly forty-five dollars, are to be used for industrial work.

This fine weather has caused a good many of the farmers to plant their early seeds. The trees have started to blossom and everything has taken on the look of spring.

Mr. Tonks and family of Lowell are to occupy, the first of May, the home vacated by Mrs. A. A. King.

Mr. Louis Driedel, one of the popular motorcyclists of Tewksbury, has purchased a side car for his Indian motorcycle. He is anticipating many enjoyable rides this coming summer.

Champion Butler Just a Youngster

Everard B. Butler of the famous Argonaut Rowing club of Toronto and holder of the amateur sculling championship of the United States was born in Toronto Dec. 25, 1885. Butler's club to fame as an expert with the oars was one of the quickest on record. He never saw a racing shell until he joined the Argonauts in 1909. Two years lat-

er, he possessed the amateur rowing championship titles of both the United States and Canada.

In 1910 he was a winner at the mid-state regatta in Philadelphia, and at the Canadian Henley at St. Catharines. The next year he again won at the Canadian Henley and also captured the United States and single championships.

At the Olympic regatta at Stockholm, though, he failed to win in the heats.

Cover Up Style Going Out of Date

With Wolgast dethroned and Nelson going down hill, the cover up habit of fighters will not be so popular as it once was. The "cover" is thought to have emanated from the crouch system employed by Jeffries and taught to the latter by Tommy Ryan.

After that the cover was used in the east extensively.

Treaties of New Tariff Bill

WASHINGTON, April 25.—Through Ambassador Jusserand here, the French government has called the attention of the state department to the probable effect on existing treaties of the new tariff bill. Anxiety has been

caused in France by several of the administrative clauses of the new bill, especially those obliging merchants to show their books and papers. In France a revision of a tribunal is indispensable to compel any man to do so.

English Game Birds Disturbed

English pheasants and wild mallard ducks recently have been sent to all parts of the United States by the American Game Protective and Propagation association. The birds were distributed freely to members of the association who agreed to protect them.

These shipments are the first to be made in accordance with a plan for restocking the country with game through the establishment of sanctuaries on which birds can increase unmolested. The overflow from these sanctuaries will provide shooting on contiguous lands.

NOTICE

Members of the above lodge are requested to meet at 5 Watkinson place on Third street, to attend the funeral of our late brother, Malcolm Cairns, at 1:30, Saturday, April 25.

Lexington line came to Lowell from Boston this morning. The local company had open cars on and off all winter.
The high school regiment made its first appearance on the stage yesterday while the second battalion blotted out the first. All along the line on both days spectators remarked the military precision of the boys as they marched down the street with their rifles and bayonets, the former playing the latest popular music, made a big hit.
Yesterday was Fast Day in New Hampshire and it might also have been called Nashua day in Lowell, for hundreds of residents of that city were notified on the streets during the day and at the local theatres at night, they came to autos and by steam and street railroads. The theatre parties returned on the theatre train which runs to Nashua nightly.

Passenger in the vicinity of city hall office, express workmen at the large number of automobiles that line up in front of the municipal building on Friday morning. On that day Examiner Olsen from the office of the State highway commission examines all candidates for licenses as chauffeurs and operators and a part of the examination is a practical demonstration of the operation of the machine.
Arthur Sullivan's short oratorio, "The Legend of St. George," will be given at Kirk Street church next Sunday night by the combined choir of Kirk Street and the Unitarian church under the direction of Mr. Arthur C. Spalding. While this oratorio throughout is a beautiful musical setting of Jesus' great parable, it excels particularly in the solo parts. After a strong introduction, a tenor soloist, Mr. C. H. Howard, the solo bass of Kirk Street church, and the tenor and the bass in several places and recitatives carry the burden of the work.

RATES ON ANTHRACITE

Lehigh Valley R. R. Co. Denied Injunction

WASHINGTON, April 25.—The commerce court today denied the application of the Lehigh Valley R. R. Co. for an injunction to restrain the interstate commerce commission from enforcing its order reducing rates on anthracite from the Wyoming region in Pennsylvania to Atlantic tidewater at Perth Amboy, N. J.
Counsel for the Lehigh Valley urged that a reduction such as that ordered by the commission would reduce the income of the road to about four per cent on alleged total value of property of \$12,000,000 which amounted to confiscation. The carrier maintained it was entitled to an income of eight per cent.
The commerce court held that a case of confiscation was not made out. The decision sustains the authority of the commission to determine whether a given set of rates is or is not reasonable, entirely irrespective of what rates on other

REAL ESTATE AUCTION SALE

SATURDAY, APRIL 26, 1913, AT 4:30 P. M., AT NOS. 21, 31 AND 33 SAWTELLE PLACE, OFF SCHOOL STREET
I will sell at public auction, three cottage houses and 1943 square feet of land, more or less, being Nos. 9, 12, and 15, on plan of land, Book 206, page 63.
These cottage houses have six rooms each and will make a snug home for any person who wants to own his own home right in the heart of the city. They are in fair repair, all rental, have city water, good sewerage, the yards are all concrete, right where they will always rent, if taken care of. The new Boston & Maine passenger depot, which is spoken of, is within 100 yards and no doubt, this property will be sought after in a very short time and be worth a great deal more than it will sell for today.
The cottages will be sold separately or as a whole, just as you see fit to bid.
Terms of sale: \$100 in cash must be paid on each to the auctioneer as a deposit as soon as sold. Other terms at sale.
Per order H. R. BROGAN.

B. & M. NEEDS \$73,000,000

To Put It In "First-class" Condition Says Engineer

\$10,000,000 for New Terminal — Brandeis Will Hold to Probe

BOSTON, April 24.—The features of the day in the New Haven inquiry yesterday follow:
Louis D. Brandeis was informed that he was no longer the legal representative of the Fruit and Produce Exchange.
Commissioner Prouty said, after the hearing, that he hoped Mr. Brandeis would continue to conduct the investigation as a citizen.
A statement of President Mellen's on the Hampden County railroad, whose building contracts were severely criticized yesterday, was refused by Commissioner Prouty on the ground that it should be presented by Mellen in person.
Chief Engineer Corbitt of the Boston & Maine said the road would have to spend \$73,000,000 to put the road in "first class" condition.
Of this \$10,000,000 was to be used for the purpose of building a new terminal in Charlestown, across the water from the North station.
Mellen replied to criticism of Hampden railroad contracts, claiming that profits of the company were for service in supervision.
Vice President Horn says that the Boston & Maine may not even enough to pay its fixed charges next year.
Louis D. Brandeis will continue his investigation of the New Haven's finances at the interstate commerce commission's hearing this morning, although he was yesterday notified as its legal representative by the Boston Fruit and Produce Exchange.
This was intimated by Mr. Brandeis at the close of the hearing yesterday, soon after it became known that the exchange, on whose joint petition with the chamber of commerce the whole investigation was undertaken by the interstate commerce commission, had sent him a letter notifying him that he should no longer consider himself their legal representative.
Commissioner Charles A. Prouty, who has conducted the hearing, said last evening that Mr. Brandeis' services in the case had been of great value to him in getting at the truth of the railroad situation, and that he hoped Mr. Brandeis would continue to appear before the commission as a citizen.
Dismissed by Exchange
The action by which Mr. Brandeis was dismissed by the Produce Exchange was taken at a directors' meeting yesterday at noon. After the meeting Secretary Alton E. Briggs made the following statement:
"Louis D. Brandeis was engaged by the Boston Fruit and Produce Exchange in June, 1912, to appear in its interest at the interstate commerce commission hearings dealing with the unsatisfactory freight service furnished its members in the New England controversy.
"We do not understand that Mr. Brandeis is further in the service of the exchange."
Judge Prouty left Boston last night and the hearing will be conducted in his absence by his son, Ward Prouty, as examiner for the commission. Commissioner Prouty will be back Wednesday and will resume his inquiry.
Judge Prouty said yesterday evening: "Any citizen has a right to appear before the commission, whether he represents an organization or not. If the commission thinks he can be of service, Mr. Brandeis has been of great value to the commission in getting at the truth of the railroad situation in these hearings, and we will in return for his help us further, regardless of the action of the Fruit and Produce Exchange."
Brandeis' Statement
Early in the day, before the Produce Exchange had taken its action, Mr. Brandeis gave out the following statement in reply to an attack made upon him by Charles S. Mellen, president of the New Haven, in the morning papers:
"The interstate commerce commission is at present investigating the New Haven and the Boston & Maine and their management. I do not believe that either Commissioner Prouty or the public, or my clients, the Boston Fruit and Produce Exchange, have time or inclination to investigate Brandeis."
At yesterday's session, Edgar J. Rich, counsel for the Boston & Maine, tried to submit a statement from President Mellen to Commissioner Prouty in explanation of the Hampden County railroad contracts, but Judge Prouty refused to accept it.
"If President Mellen, or any of the officials, wish of their own accord to make any statement on the Hampden County railroad, or any other matter that has been brought up, they may make the statement here in person. I wish to be there in person, however, when such statements are made, so they will have to wait until Wednesday."
A statement by Mr. Mellen on the same subject was given out to the afternoon papers. He said that the method of sub-leasing contract work, criticized yesterday, with a percentage profit to the contracting firm was very common, and that in return for the per cent profit the work done by the Hampden railway was supervised by competent engineers on the part of the Woronoco company.

"Votes for Women" Painted on the Bomb, Left at Bank Door

CARDIFF, Wales, April 25.—"Votes for women. R. I. P." were the words painted on a bomb found this morning by a patrolman on the doorstep of Lloyd's bank in this city. The fuse attached to the bomb was burning when it was discovered and was plucked and extinguished by the policeman.

MATRIMONIAL

On Tuesday afternoon at 3 o'clock, Miss Mae O'Brien, a popular young lady of this city, and Mr. Arthur Kane, formerly of Lowell, but now of Newport, R. I., were united in the holy bonds of matrimony at St. Peter's parochial residence by Rev. Fr. Burns. The young couple were attended by Miss Elio O'Brien, a sister of the bride, and Mr. Thomas Kane of Providence, R. I., a brother of the groom. After the ceremony, the happy couple returned to the home of the bride's parents, Mr. and Mrs. Jeremiah O'Brien of 14 Crosby street, where a buffet lunch was served to the immediate relatives of the happy couple. Mr. and Mrs. Kane left on an early evening train on an extended honeymoon which will include New York, Philadelphia, and Washington. The young couple received many beautiful and costly gifts. Mr. and Mrs. Kane will reside in Newport, R. I.

Interesting Facts

Assistant Assessor Edward T. Goward, who is making his annual rounds of ward one, reports some interesting facts relative to the change of character of the down-town ward. Mr. Goward states that one-third of the total vote of precinct one of ward one (police station) has moved away. The vote of that precinct in the last city election was 485. Mr. Goward states that this defection in ward one is the greatest in the history of the city, and is largely due to the change of character of the lodging-houses in the vicinity and the removal of some of them. A new class of residents, mostly foreigners and not voters, is moving into this section. Paige, Lee, French, Kirk and the city proper end of Bridge street have fewer citizens than ever before. Mr. Goward suggests the adoption of the police rating system such as is now in vogue in Boston. The system has been experimented with successfully in that city and last year they unearthed over 1500 citizens whose names had never been on the check lists.

Surprise Party

A delightful surprise party was held last evening at the home of Mr. and Mrs. John Coleman, 73 Third street, when their daughter, Miss Nora Coleman, surrounded by a large number of her friends, was delightfully surprised with a beautiful locket and chain. The presentation speech was made by Miss Esther Bourke. The hostess, although taken entirely by surprise, responded in a fitting manner. Refreshments were served and an excellent musical program given.

A Demonstration of Suit Value at a Given Price

\$15.00

We are not saying a word about the GOOD, BETTER or BEST. This is a demonstration of value at a given price. We are willing to leave you alone with the suits themselves and let them argue the case with you. We have our own ideas about \$15.00 value—What it usually is and what it ought to be. That is why we have made this week our \$15.00 SUIT WEEK. We want you to see for yourselves just what we have accomplished along the lines of improved merchandise at the price. Come here with the idea of being your own judge and your own jury. You will not be interfered with by any of the salespeople. They will simply act as stock clerks for you, merely assisting you to the evidence desired. The suit is for \$15.00 of your money, and the court sits all week. You are summoned.
